RESIDENTIAL CORPS SEEKS GIFTS OF $725

Postmaster Charles W. Pentz and his fellow members of the Gettysburg Residential Committee for the Community Chest today began a search for 200 persons who were not at home when solicitors previously called for donations to the Community Chest.

Pentz said the residential drive is $725 below last year's donations and "we believe we can reach that goal if we can get to see the people who were not found previously."

While the residential solicitors hope to call again at the homes of those who were previously unavailable when the canvassers were there, Pentz asked those wishing to make donations to either mail them to him "Postmaster, Gettysburg Post Office" or to call him at his home or at the post office, or Miss Helen Spangler, ED 4-3151, or the Community Chest office, ED 4-5809, and a canvasser will go immediately to the home to pick up the donation.

The residential campaign chairman said he had been "disappointed" by some donations, noting that Community Chest supports Boy Scouts, Girl Scouts, the Public Library, YWCA, Civic Nurse and Red Cross as well as providing funds for the USO and Pennsylvania United Fund. "A $5 donation will not even provide $1 apiece for the whole year for each of the organizations, yet there have been many donations of less than $5." He noted that anyone wishing to increase the amount previously given can write him or phone any of the numbers previously listed.

CD WILL LIST MINES, CAVES FOR SHELTERS

Adams County's Civil Defense director is seeking information on the location of "active and abandoned mines, tunnels, caves and similar facilities" through the county so they may be studied as potential public shelters in case of atomic need.

CD Director William G. Weaver asked the owners of any caves, tunnels or mines to notify either him or their local township and borough Civil Defense director prior to December 11.

The effort to locate the mines, tunnels and caves as well as publicly and privately owned buildings that may be used as shelters is part of the nationwide shelter survey being carried out by the federal government.

REPORTS BY DEC. 11

The state and local Civil Defense directors have been asked to draw up a list of possible shelters so that federal inspectors when they arrive in the state — and the various counties — may have a list of places to visit to quickly determine which would be usable in event of need.

Weaver said that, while all public buildings which are suitable as shelters for the public will be made available for such use, no privately owned building will be considered if the owner does not wish his building so used.

Weaver has asked the local directors in the townships and boroughs to submit their reports to him by December 11. On that date he will put all of the reports together on a county list for immediate forwarding to the state Council of Civil Defense. Federal survey teams will be in the state shortly after the December 11 date to inspect all of the proposed shelter sites and determine which would be usable in event of emergency.

Man Injured In Car-Truck Crash

Damage totaled $500 when a car and truck collided Tuesday afternoon at 2:30 o'clock three-tenths of a mile south of Abbottstown on the Hanover Rd.

State police said Peter Ruskavich, 41, Sunbury, driving a car owned by the U. S. Government attempted to pass a northbound Schmuck Company, of Hanover, truck operated by Robert F. Weaver, 45, Hanover, as the truck attempted a turn.

Damage was estimated at $200 to the front bumper and fenders of the car and at $300 to the left side of the truck. Robert Leese, 67, Hanover, a passenger in the truck, was removed to the Hanover Hospital for treatment for a neck injury.

AREA SETUP ON AMBULANCES IS ARRANGED

Glenn Weishaar, secretary-treasurer of the Gettysburg Ambulance Corps, was appointed chairman for an area ambulance corps organization at a meeting of representatives of the various ambulance groups Tuesday evening at the board room in the Warner Hospital.

Civil Defense Director William G. Weaver, Warner Hospital Administrator Walter B. Dillon and Dr. David Stoner, emergency chairman for the medical staff of the hospital, met with the ambulance corps heads to discuss coordination of ambulance activities in the event of a major emergency involving injury to a large number of persons.

As a result of the discussion, the group decided to set up an area organization involving the ambulances of the county and those nearby, such as Taneytown and Emmitsburg, if the ambulance corps there are interested in joining the group.

EXPERIENCES CITED

The area organization will plan procedures to be used in event of "a bus accident, or fire or accident or any event in which large numbers of persons are injured," Weishaar said.

STAUFFER AND NOWICKI ARE NAMED BY PCA

Two Adams County members were elected to the board of directors of the Pennsylvania Canners Association at the 47th annual convention at Hotel Yorktowne in York on Tuesday. Jack R. Grey of York County was re-elected president.

Elections to the board of directors included Allen S. Stauffer of the C. H. Musselman Company, Biglerville, and E. J. Nowicki Jr., of the Knouse Foods Cooperative at Peach Glen.

A national deficit of $300 billion was predicted for this year by Congressman George A. Goodling when he spoke to the convention luncheon. Other speakers at the luncheon were Edalene Stohr, home economics director, American Can Company, and Rev. Dr. F. W. Brandt, First Lutheran Church, Altoona.

REVIEWS YEAR'S WORK

National Canners Association president John C. Hemingway, speaker at the morning's open session, said citizens should safeguard their survival in the event of nuclear attack by planning food and water stockpiles now.

In his annual report, President Grey said that three major eastern food processors' associations had combined for the first time to conduct a conference. The Pennsylvania Canners Association had worked with New York State Canners and Freezers Association and Tri-State Packers' Association for a sales conference.

One of the association's main activities this year, he said, had been its fight to get an exemption from state sales and use tax and capital stock taxes for canners. The first legislation to allow "marketing orders" on apples produced in Pennsylvania was also passed.

The 1962 workshop for PCA members will be held at Allenberry Inn on April 12 and 13.

A mock trial of the PCA was held during the open session. The annual banquet was held Tuesday night.

OFFICERS OF FIRE COMPANY NOMINATED

Officers were nominated and plans for a card party were made at a meeting of the Arendtsville Fire Company Tuesday evening in the fire hall. Twenty-five members attended with President Glenn Bream in charge.

Those nominated were: President, Wayne Criswell and John Strausbaugh; vice president, Richard Slaybaugh and Roland Rice; recording secretary, Robert Allison and Donald Heckenluber; financial secretary, Ira Cutshall and Elson Grim; treasurer, Paul Hartman and Philip Miller; trustee, Cameron Hoffman and Clark Hartman; chief, Elliott Schlosser; first assistant chief, Clyde Sell. Officers will be elected at the December meeting.

The card party will be held December 1 and Bream appointed the following committees: Prizes, E. B. Hoffman and John Stover; tickets, Charles McDannell; tables, Lee Reinecker, Laurence Walde and Charles Heffner.

CHRISTMAS TREAT

It was announced that the annual Christmas treat for students in the Arendtsville and Valley schools will be handled in the same manner this year. The students are given favors by Santa Claus.

Bream announced that the December meeting of the Adams County Fire Police Association will be held at Arendtsville and he appointed the following refreshment committee: Raymond Mayer, Harry McDannell, Laurence Walde, Charles Heffner and Ray Flickinger.

Bills totaling $227 were approved for payment.

It was announced that the company's annual turkey and oyster dinner will be held March 11.

Richard Waters, Charles Heffner and Thomas Hoak were appointed to the refreshment committee for December.

FALL MUSICAL SUNDAY

The fall musical of the Lower Bermudian Lutheran Sunday School, York Springs, will be presented Sunday at 7:30 o'clock. Many of the neighboring churches will participate in both vocal and instrumental numbers as well as congregational singing. The public is invited.

EISENHOWER ON TV

The second telecast in the series "Eisenhower on the Presidency" will be presented in "CBS Reports" Thursday evening from 10 until 11 o'clock.

HERE AND THERE

THANKS GIVING

The compassion of the American people for their fellow men in need, whether at home or abroad, is nowhere more clearly expressed than in the services performed by our three great religious faiths through their world-wide, year-around programs of assistance to those in need abroad.

Not only are these great ministries of mercy an expression of a basic Americanism; they also give witness to the Biblical answer to Cain's "Am I my brother's keeper?"

* * *

And because their motivation finds parallel in the religious teachings of almost all peoples, these programs achieve an acceptance among individuals — particularly the poverished, hungry and homeless to whom they minister—that is well nigh impossible to governmental or other impersonal efforts.

It is eminently fitting that each of the religious faiths—independently but in common purpose—chooses our national Thanksgiving season to emphasize its ministry to the suffering abroad, by which it

FINED $325 ON AUTO LICENSE CHARGES HERE

Karl Henry Stello, New Oxford R. 2, was found guilty by the Adams County court Tuesday afternoon on violations of the motor vehicle code based upon ten unregistered titles for autos.

Stello, who served as his own attorney for the hearing, was ordered to pay $325 in fines on the ten counts. He announced he may appeal to the Superior Court.

Stello, seeking to establish himself as a car dealer in the county, called in state officials for inspection and was found to have in his possession ten Maryland titles to cars which he had not registered with the state as required within a 15-day period. The summary charge was then brought against him.

SUPPORT CASES

A number of support cases were before the court during the afternoon.

Richard M. Sullivan, McKnightstown, was directed to pay $12.50 per week for the support of three children, pay the costs and enter into the usual $500 bond on his own recognizance.

Kenneth C. Lightner, 417 S. Queen St., Littlestown, was directed to pay $20 per week for the support of his wife and two

STATE HELP ON NEW INDUSTRY IS AVAILABLE

Adams County can obtain $2,595 a year from the state toward promotion for new industry if the chambers of commerce in the county will raise a matching amount, O. L. Johnston, assistant director of area development for the Pennsylvania Department of Commerce, told the Gettysburg Chamber of Commerce's Industrial Committee at a luncheon meeting Tuesday at the Hotel Gettysburg.

To help secure new industry in the state, the Commerce Department can match "a nickel for each person in the county" or $2,595, to be expended for printing promotional brochures, paying the transportation of persons sent to speak to industrial plants or other activities involved in the attempt to secure new industry.

The plan, he said, is similar to the tourist promotion matching fund program of the state which has already been adopted by the Gettysburg Travel Council.

RESULTS ELSEWHERE

To secure the state matching funds for industry promotion, the Gettysburg Industrial Committee or some such group must be designated by the county commissioners boroughs and townships representing 51 per cent or more of the county's population, Johnston said.

Adams County, he said, is qualified to participate in a program by which "100 per cent financing" can be provided for new industry. Under the plan 10 per cent of the financing is raised by the local people through their own Industrial Development Corporation. The Pennsylvania Industrial Development Authority can provide 40 per cent and local banks provide the remaining 50 per cent. He noted "these are not grants, these are loans and the Industrial Development Authority as it is repaid lends the money for other similar financing."

Since 1956 he said 504 new plants have been established in Pennsylvania, 600 have been reopened

WILL JUDGE XMAS HOMES DECEMBER 28

Final plans for the Christmas home decoration contest were made at a meeting of the civic affairs committee of the Chamber of Commerce Tuesday noon in the Lamp Post Tea Room. Five prizes, totaling $200, will be awarded: $75 for first; $50 for second; $40 for third; $25 for fourth, and $10 for fifth.

Walter B. Lane, chairman of the committee, announced that the judging will be made Thursday evening, December 28. The judges will be announced at a later date.

To enter the contest, participants must fill out a coupon which will appear in The Gettysburg Times Monday, December 11, and mail it to the Civic Affairs Committee, Plaza Bldg., Getttysburg, before December 23. Anyone residing within a two-mile radius of Gettysburg is eligible to participate. Lane said that other communities have similar contests and the two-mile limit was suggested in order not to conflict with other programs.

Judging will be based on four points: Artistic merit, which includes design, composition and arrangements of elements and

Nation To Observe 340th Thanksgiving On Thursday

By THE ASSOCIATED PRESS

The nation pauses Thursday amid the travail of a vanishing year to mark another Thanksgiving Day—the 340th in America's history—with prayer and festive camaraderie.

The mixture of joy and solemnity surrounding the occasion was summed up in President Kennedy's annual Thanksgiving Day proclamation.

"This year, as the harvest draws near its close, and the year approaches its end, awesome perils again remain to be faced. Yet we have, as in the past, ample reason to be thankful for the abundance of our blessings," Kennedy said.

JFK AT CAPE COD

The President will spend the four-day Thanksgiving weekend on Cape Cod, devoting part of it to a conference on the military budget and part to an interview with Soviet editor Alexei I. Adzhubei, son-in-law of Soviet Premier Khrushchev.

Kennedy leaves Washington today for his Hyannis Port, Mass., home, where members of the family will gather Thursday for a big Thanksgiving dinner at the home of his parents, Mr. and Mrs. Joseph P. Kennedy.

Elsewhere in the nation, Americans will mark the Thanksgiving holiday with church services, private gatherings, sports events and parades.

Airlines, trains and buses have stepped up service to handle thousands of college students going home for the first of the big school year holidays.

CELEBRATE TUESDAY

Not far from President Kennedy's Cape Cod home, descendants of the brave souls who came over on the Mayflower stole a march on the rest of the country with a celebration Tuesday.

At Provinceton, Mass., 50 persons braved a bitter wind to gather at the scene of the Pilgrims' first landing on the tip of Cape Cod in 1620. The Mayflower dropped anchor there after a

Thursday Will Be Holiday For Many

Banks, the courthouse offices and most business offices will be closed Thursday in observance of Thanksgiving Day. The post office will be on holiday schedule with no rural or city deliveries and no window service. The lobby will be open from 9 a.m. to 5 p.m.

Gettysburg public schools and most schools of the county closed this afternoon for the hliday and will resume classes next Monday.

The Thanksgiving vacation at Gettysburg College began at noon today. Classes also will resume there on Monday.

In keeping with a long standing tradition, The Gettysburg Times will not be published on Thanksgiving Day.

DAMAGE SUIT IS BROUGHT IN FATAL MISHAP

Mrs. Marian L. Bauerline, Gettysburg R. 4, administratrix of the estate of Michael Boyer, Tuesday brought suit in Adams County court against Richard Hockensmith, 207 W. High St., New Oxford, asking damages as a result of the auto accident death of the Boyer youth.

The trespass suit, filed in the prothonotary's office for Mrs. Bauerline by Attorney Oscar F. Spicer, is based upon an accident five miles east of here on the Lincoln Highway April 29.

Hockensmith was driving east when his car collided with a bicycle operated by the 14-year-old boy. The Boyer child died at the Warner Hospital May 1 from abrasions and contusions of the body, lacerations of the left chest wall, severe brain concussion and a fractured pelvis.

ANOTHER SUIT FILED

Asking "in excess of $5,000" in her suit, Mrs. Bauerline listed medical, hospital and burial bills totaling $1,416 and complete destruction of the bicycle of the child as part of her claim as administratrix of the estate of her son.

An action in trespass was also instituted at the prothonotary's office Tuesday by John W. Bream Jr., Orrtanna R. 1, against John E. Eutzy, Wilmington, Del., and F. J. Boutell Driveaway Co., Inc., of Flint, Mich. According to the complaint filed for Bream by Attorney Donald G. Oyler, the suit is based on an auto accident January 25 at the intersection of the new Lincoln Highway and the Cashtown Rd.

Bream was driving his foreign-made car west and was turning in to the Cashtown Rd. when his auto was struck in the rear by a car-carrier tractor-trailer operated by Eutzy and owned by the Flint, Mich., company. Damage to the car was reported as $402.93. Towing charges were $15. Doctor bills for Bream, who suffered injury to his right eye and face, totaled $66.05, and he lost $600 in wages while recuperating from the injuries. Damages in excess of $5,000 are asked.

Knouse Services Are Held Today

Largely attended funeral services were conducted today for A. Dale Knouse, Brysonia farmer and fruitgrower who was an associate judge of Adams County from 1940 to 1958. Knouse died Sunday afternoon at the Warner Hospital after having been a patient there for three days following a cerebral hemorrhage.

The services were conducted at 2 o'clock this afternoon at the Bender Funeral Home on Carlisle St. The Rev. Nevin R. Frantz, pastor of the Arendtsville United Church of Christ of which Knouse was an active member for many years, and the Rev. Ernest W. Brindle, Hampton, a former pastor, officiated. Interment was made in Greenmount Cemetery, Arendtsville.

The pallbearers were Blaine Hartman, Clair Knouse, Ralph Taylor, Charles Slaybaugh Jr., Richard Slaybaugh and Jason Gulden.

Christmas Club Members Get Record $781,677 From 13 County Banks

The 13 banks of Adams County are pouring out more than three-quarters of a milion dollars to their 8,447 Christmas Club members to give them a big financial lift with their Christmas shopping as the holidays approach.

The total amount being distributed sets a record as does the number of club members and the size of the average check.

Checks totaling $781,677.40 are being mailed to Christmas Club members. This is the first year the Adams County total has topped three quarters of a million dollars.

CHECKS ARE BIGGER

The average check is $92.54, a new high, and the total number of club members throughout the county represents a slight increase over 1960, a Gettysburg Times survey today showed.

This year's flood of pre-holiday wealth exceeds by $18,628 the total distributed a year ago.

Some of the county banks sent their checks to Christmas Club members late last week. Most of them are mailing their checks this week and all will have sent out their Christmas Club savings by December 1.

11 CLUBS BIGGER

Eleven of the 13 banks conducting Christmas Clubs reported larger totals for distribution this year than last. Only two banks had slightly smaller clubs.

The size of the average check for recent years has varied this way: 1960, $91.12; 1959, $89.25; 1958, $90.37; 1957, $90.44; 1956, $83.41; 1955, $83.67; 1954, $84.57; 1953, $80.56, and 1952, $75.65.

This year is the ninth in a row that the total Christmas fund has topped the half million dollar mark in this county. The totals for recent years follow: 1960, $763,047.55; 1959, $744,809; 1958, $709,771; 1957, $675,575; 1956, $640,180; 1955, $580,688; 1954, $558,743; 1953, $18,912, and 1952, $470,390.

BANKS' FIGURES

A list of the county banks and the total distributed to Christmas Club members by each of them follows:

Littlestown State	$215,888.00
Gettysburg National	$166,010.40
First National, Gettysburg	$ 96,900.00
Littlestown National	$ 80,362.00
Farmers' and Merchants,' New Oxford	$ 58,000.00
Biglerville National	$ 30,600.00
Arendtsville National	$ 25,500.00
Abbottstown State	$ 22,288.00
First National, Fairfield	$ 18,650.00
Bendersville National	$ 18,500.00
Peoples State, East Berlin	$ 18,273.00
East Berlin National	$ 18,000.00

UNION SERVICE ON THURSDAY AT ST. JAMES

The community Thanksgiving Day service, sponsored by the Protestant churches of Gettysburg will be held Thursday morning at 9 o'clock at St. James' Lutheran Church.

"A Thoughtful Thanksgiving" will be the topic of the message to be brought by Rev. Dr. M. R. Hamsher, Gettysburg, former president of the Central Pennsylvania Synod of the United Lutheran Church in America.

The first Thanksgiving proclamation issued by Governor Bradford to the Pilgrims in 1623 will be read by Linden Green and the 1961 proclamation by President Kennedy by Joel Reaser.

The scripture reading will be by Rev. C. Reynolds Simmons, pastor of the Gettysburg Church of the Brethren. The host pastors, Rev. Dr. Paul L. Reaser and Rev. John Bishop, also will participate in the service.

The Junior and Senior Choirs of the church will give the anthems, singing "A Prayer of Thanksgiving" by Krenser; "Thanks Be To Thee" by Roff and "Non Nobis Domine" by Quilter under the direction of Donald Bollinger with Miss Elizabeth Sheffer at the organ.

Dr Reaser, president of the Gettysburg Ministerium, pointed out today that "all people of the community are invited to attend the service on this national religious holiday."

FOSTER GROUP, GARDNERS R. 1, DIES TUESDAY

Foster C. Group, 77, died Thursday evening at his home, Gardners R. 1, after a lingering illness. He had suffered from a heart condition.

He retired a number of years ago after serving the Aspers Pentacostal Church as its minister for 47 years.

He owned and operated a fruit farm in Adams County for many years and was one of the founders of the Cooperative Fruitgrowers of Adams County.

A native of Adams County, he was a son of the late Jesse and Catherine (Miller) Group and was a member of the Aspers church he had served as minister.

Surviving are three sons: Clyde S. and Luther K. Group, both of Gardners R. 1, and Parker J. Group, Mounted Route, Mt. Holly Springs: a daughter Mrs. Gerald Day, Gardners R. 1; 11 grandchildren, seven great grandchildren and three sisters: Mrs. Elwood Chronister and Mrs. Ray Balmer, both of Elizabethtown, and Mrs. Harry Resh, Middletown.

Funeral services Saturday afternoon at 2 o'clock from the Gibson Funeral Home, Mt. Holly Springs, with Rev Harold Myers, pastor of the Foursquare Gospel Church here, and the Rev. W. Russell Murlatt, pastor of the Aspers Pentocostal Church, officiating. Interment in Sunnyside Cemetery, York Springs. Friends may call Friday evening at the funeral home in Mt. Holly Springs.

Man Is Jailed On Charge Of Fraud

Robert E. Dawson, Ogden, Utah, pleaded guilty to defrauding an innkeeper at his arraignment before Justice of the Peace Robert P. Snyder Tuesday and in lieu of $1,000 bond was committed to the Adams County jail for sentence court.

Snyder said that Dawson had checked into the Hotel Gettysburg November 16, representing himself as an agent of the Department of Interior. When he checked out was not an agent and had no funds to pay his bill.

$500 ACCIDENT

State police reported no one injured in the collision of a truck and farm tractor Monday on the East Berlin-Dillsburg highway, one-half mile north of East Berlin, which caused an estimated $500 damage. Trooper Eric Borneman said the tractor, operated by Edward D. Reynolds, 67, East Berlin R. 2, attempted a left turn as the truck driven by Philip A. Schaeffer, 36, Schuylkill Haven R. 2, attempted to pass it.

The big news is on Page 12, Section 2. The new Lowrey Starlet organ is now available. See Menchey's Music Service ad.

JAMES I. ROSE EXPIRES TODAY

James I. Rose, 61, 9 Steinwehr Ave., died this morning at 9:25 o'clock at the Warner Hospital where he had been admitted as a patient Tuesday evening. A complication of diseases caused death.

Rose was a native of Adams County and was a son of the late William E. and Mamie I. (Starner) Rose. He had resided in Gettysburg since 1926 and for the last 17 years had worked at the Mechanicsburg Naval Supply Depot.

He was a member of the Mt. Joy Lutheran Church, the Moose and Eagles lodges of Gettysburg and of the Sons of Union Veterans of Gettysburg which he had served as an officer. Rose was unmarried.

Surviving are these brothers and sisters: Mrs. Clare Null, Westminster R. 4; Miss Ethel Rose, Gettysburg; Mrs. Cleason Shultz, Orrtanna R. 1, and John L. Rose, York.

Funeral services from the Bender Funeral Home, Carlisle St., Saturday afternoon at 2 o'clock with his pastor, the Rev. Charles E. Held, officiating. Interment in the Mt. Joy Church Cemetery. Friends may visit the funeral home Friday evening from 7 to 9 o'clock.

STATE ORDER BARS SCHOOL CONSTRUCTION

HARRISBURG (AP) — Pennsylvania school districts will be barred from starting any new construction unless they are in an approved district reorganization plan under a new state policy in effect today.

The probability that proposed school building projects in Franklin Twp., Upper Adams District and in the Fairfield Joint School District may be affected under the order developed today.

The State Council of Education adopted the policy Tuesday after considering the proposal for a month. The council is the policy-making board for the State Department of Public Instruction.

All public school buildings, whether or not built with state aid, must be approved by the Department of Public Instruction prior to construction.

The new standard would require county superintendents to certify whether the school district applying for approval of construction is in an approved reorganization plan.

The legislature passed a law mandating reorganization of the state's nearly 2,300 districts into about one-fifth of that number by the 1965-66 school year. Counties must submit plans for reorganization by Jan. 1, 1963.

LOCAL PASTOR TALKS TO CLUB

The Exchange Club, at its meeting Tuesday evening in the Lamp Post Tea Room, approved donations totaling $80 to three agencies, accepted the resignation of the vice president, David Rutters, and heard Rev. Robert A. MacAskill, pastor of the Presbyterian Church, speak on Thanksgiving.

The club approved a $5 donation to the Adams County Tuberculosis Society; $25 to the Adams County retarded children's fund, and $50 to the Retail Merchants Association for Christmas decorations.

Rutters' resignation was accepted when it was learned he would be unable to attend the meetings. President Ralph K. Will appointed Dave Garfinkle, John Codori and Carl Prosser to nominate a vice president.

"PRAISE GOD"

Rev. MacAskill told the club that "we should praise God regardless of the circumstances in life." He said in the 40th Psalm the psalmist "had a new song in his heart."

"It is easy to be thankful when things are going well," he said, "but the real test is to know how to meet the adversities and make them become our joys.

"Do we have thanksgiving in our hearts no matter what transpires in our lives? Can we take the worst as well as the best?

"We have reason to be thankful not just one day in our life but for all the time," he added.

Balaguer Claims Army Support

CIUDAD TRUJILLO, Dominican Republic Republic (AP)—President Joaquin Balaguer says the Dominican armed forces have lined up solidly behind him and that threats by anti-Democratic die-hards to topple his government have been eliminated.

Balaguer in a radio address Tuesday night claimed the government had emerged in full control from the crisis promoted by the return of two Trujillo family leaders last week. Their return raised speculation of a resurgence of Trujillo rule and brought a covey of U.S. warships hovering offshore.

Balaguer declared that the crisis was created by the "ambitions and senselessness of some men of rural mentality." He said they included two Cabinet members but offered no further identification.

Balaguer's address on the state of the nation obviously was intended in part to squelch reports of rumblings in military ranks over some of his military appointees named to succeed exiled Trujillos.

MOVE TO UPSET COURT VERDICT IS THROWN OUT

The Adams County court today handed down an opinion dismissing the motion of two fire insurance companies for judgment setting aside the verdict of a jury in the action to quiet title brought by Alton W. and Hallie A. Snyder, Fairfield R. D., against William G. Munroe, Harrisburg, and the Hartford Fire Insurance Co. and Paradise Mutual Insurance Co.

The matter pertains to the destruction of a farm house near Fairfield by fire in 1955. Mr. and Mrs. Snyder purchased the house from a Mrs. Lillian Pryor and a mortgage of $8,500 was part of the purchase. Fire insurance contracts were obtained from the two insurance companies providing $14,500 protection from each company on the various buildings of the Snyder farm.

When the house burned the insurance companies paid $8,824.37 to Mrs. Pryor, the amount of her mortgage and interest, and then assigned the mortgage to Munroe as their agent.

FOUR ISSUES SETTLED

The Snyders brought the action to quiet title believing that since the mortgage had been paid off as a result of the fire they should not have the mortgage against them. At the trial in October, 1960, four issues were raised. The first was whether the fire was caused intentionally by Alton W. Snyder. The court in its opinion held: "The claim was rejected by the jury and must now be considered settled."

The second question was the extent of the fire loss. The court held that the jury fixed that loss at $5,000 "and this question must now be considered settled."

The third question was whether a limitation in the insurance contacts requiring that any suit or claim be brought within 12 months next after inception of the loss was a bar to the action. The court held that the limitation did not bar the proceedings. The final question was whether a prior suit brought in York County was a bar to the case here. Again the court ruled in the negative.

COURT'S ORDER

The court in overruling the motion of the insurance companies to set aside the verdict of the jury in the case stated: "It is directed that judgment be entered on the verdict in favor of the plaintiffs and against the defendants upon payment of the jury fee and it is further ordered and decreed that the recorder of deeds of Adams County enter a credit of $5,000 as of April 5, 1955, on the mortgage given by Alton W. and Hallie A. Snyder to Lillian B. Pryor, dated December 24, 1954."

The court named Atty. Walter H. Katherman Jr. as master in the divorce action of Clifford Eugene Kennedy versus Mary Ellen (Shank) Kennedy.

LAUDS CARE OF ORPHANS BY BIGLER COUPLE

The Adams County court Tuesday praised the care given three orphaned children by a Biglerville couple.

Mr. and Mrs. Donald Horst were called before the court in connection with a petition to have them named guardians of the three children of the late Sgt. and Mrs. Albert Humphries.

Sgt. and Mrs. Humphries were fatally injured in an auto accident in Germany, where Sgt. Humphries was stationed, in 1958. The children returned to Adams County and have been under care of Mr. and Mrs. Horst ever since.

Maj. Charles R. Fish, now of Des Moines, Iowa, was named guardian in the process of returning the children through Army channels. The petition today was to discharge Major Fish and appoint Mr. and Mrs. Horst as guardians. The court told the Horsts that it was familiar with the "fine work you have been doing for these children. You people have done a wonderful job and we are glad to make the order."

LIFT SUPPORT ORDER

The support order against Hubert L. Andrews, Washington, D. C., was discontinued as of September, because the child for whom the order was given is now serving in the armed forces.

The nonsupport charge against Frank C. Chubb, Chambersburg St., was continued for six months, to be dismissed at that time unless revived in the meantime.

Clifford J. Wagaman, R. 3, who had served his minimum sentence on a burglary charge, based on the theft of $8 worth of whiskey and beer from a local home, was placed on parole for one year on condition he pay the costs and make restitution in three months.

Charles Smith, Aspers R. 1, who had served his minimum time on an aggravated assault and battery charge was placed on parole for one year, to become effective when the costs are paid.

TALK PLANS ON WAR HISTORY

The county commissioners this morning heard details of plans of the Adams County Centennial Commission to publish a history of Adams County's participation in the Civil War.

W. Clayton Jester, chairman of the centennial group, said it is hoped that some group or individual may underwrite the cost of publication of the book, with the amount to be repaid by sale of the history at cost.

In the discussion with the commissioners it was suggested that possibly the county historical society may act as the sales agent for the proposed history.

Part of the morning's session at the courthouse was devoted to discussion of the new state law providing for assessment of trailers as real estate when they are attached to public utilities. Under the terms of the law, owners of trailer parks are required to make monthly reports of the changes in their parks. The commissioners said they anticipate that the trailer park owners will provide the monthly information and it will not be necessary to fine any for failure to make such reports.

A number of persons who have completed construction of new property or additions to old properties were before the commissioners to discuss the new assessments under a program whereby the county as it assesses such new additions sends a notice 30 days in advance of the placing of the assessment to permit appeal on the proposed assessments.

TOWN PASTORS ARE GUESTS OF ROTARY CLUB

The local ministers were guests of the Littlestown Rotary Club at a Thanksgiving dinner program on Tuesday evening at Schottie's Hotel. Ministers present were the Rev. John E. Metz, pastor of St. Aloysius Catholic Church; the Rev. G. Howard Koons, pastor of Christ United Church of Christ; the Rev. William C. Karns, pastor of St. John's Lutheran Church; the Rev. Glenn Flinchbaugh, pastor of Redeemer's United Church of Christ; the Rev. George Shultz, pastor of St. Luke's United Church of Christ and president of the ministerium; the Rev. William R. Jones, pastor of Centenary Methodist Church; the Rev. Lawrence H. Roller, pastor of St. Paul's Lutheran Church, and the Rev. David S. Kammerer, retired Lutheran minister and a member of the Rotary Club.

Atty. Daniel E. Teeter, Gettysburg, was guest speaker for the occasion and the subject of his talk was "The Sunday Blue Laws of Pennsylvania." The affair was arranged by the program committee, Clarence J. Krichten Jr., chairman. Visiting Rotarians were George Resh, Hampstead; Severn McLaughlin, Westminster; Gerald Hagemeyer, Gettysburg. David Slusser was a guest of his father, Charles Slusser.

The vocational service committee, composed of Fred W. King, chairman; Lloyd E. Crouse, Mervin Harner, Charles E. Rabenstine, Clarence R. Reck, Richard W. Staley and Lloyd L. Stavely will be in charge of the program at the Rotary meeting next Tuesday at 6:15 p.m. at Schottie's.

CLASS ELECTS

Election of officers took place at the November meeting of the Hustlers' Class of Redeemer's United Church of Christ on Monday evening the church social hall. Elected were president, Mrs. Margaret Wehler; vice president, Mrs. Clement A. Sneeringer; secretary, Mrs. P. Bernard Weaver; treasurer, Mrs. George C. DeHoff.

The business was in charge of the retiring president, Mrs. Glenn S. Kauffman, who heard the reports of Mrs. DeHoff, treasurer, and Miss Malva A. Duttera, retiring secretary. Plans were made to serve the evening meal at the fall rally of the Mercersburg Synod Youth Fellowship on Sunday in Redeemer's Church; also to serve the local Rotary Club on Tuesday, December 12. It was decided to place flowers in the church for the Christmas season. Mrs. DeHoff won the guess package. During the social hour, refreshments were served by Mrs. Sneeringer, Mrs. Arthur Straley and Mrs. William M. Ebaugh. The hostesses for the next meeting on Monday, December 18, in the church social hall will be Mrs. William I. Straley, Mrs. Margaret Wehler, Mrs. Bernard Weaver and Mrs. Ralph A. Straley.

AUXILIARY MEETS

Mrs. Walter F. Crouse, president, presided at the monthly meeting of the Ladies' Auxiliary of the Kingsdale Fire Company on Monday evening in the engine house, along the Littlestown-Taneytown Rd. Mrs. Henry Barnes, secretary, and Mrs. Lester Myers, treasurer, gave their reports. The guess package was received by Mrs. Treva Koontz. Mrs. Arthur Mummert, Mrs. Curvin Mummert and Mrs. Blancie Shadle gave readings and served refreshments. A Christmas party with exchange of $1 gifts and a covered dish supper will be held in connection with the next meeting on Monday, December 18. Arrangements are in charge of Mrs. Walter Sheely Sr., Mrs. Malcolm B. Shadle and Mrs. Edgar A. Wolfe.

Members of the Junior Woman's Club of Littlestown who ordered toys at the demonstration which followed the October meeting are asked to pick up their orders within the next week at the home of Mrs. Richard N. Greenholt, E. King St.

The Junior and Senior Choirs of St. Paul's Lutheran Church will not rehearse this week due to the Thanksgiving holidays. Rehearsals will be resumed on November 30. The Intermediate Choir will sing an anthem at the service on Sunday at 10:30 a.m.

Girl Scout News

Senior Troops 750 and 762 recently toured the Penn-Laurel Council office in York. The new council was explained by the district adviser, Miss Judy Porter. Refreshments were served and songs were sung. This was done in connection with the five-point program. The leaders were, Troop 750, Mrs. William Musser, and Troop 762, Mrs. Arthur Phiel. The mothers of the girls provided transportation.

Intermediate Girl Scout Troop 965 held a birthday party in the United Church of Christ recently to celebrate the troop's birthday and Juliette Low's anniversary. In honor of Juliette Low each girl will plant a yellow tulip bulb. Due to inclement weather it was cancelled until a later date. Registration, Christmas card and calendar money was collected. The girls presented a talent show. Refreshments were served by the troop committee. The leaders were Mrs. Harry E. Baker, Mrs. John Bishop and Mrs. Ernest Overton. Additional guests were Mrs. Larry Parrish, Mrs. H. W. Mayer and Mrs. Harold Streett. The next meeting will be held November 30.

MAYS AGREEMENT

SAN FRANCISCO (AP)— Willie Mays' attorney says the San Francisco Giants' star center fielder will give his estranged wife Marghuerite $15,000 a year.

Bergen Van Brunt said Tuesday Mrs. Mays had agreed to the settlement. She asked for $3,500 a month when she filed for separate maintenance in July.

The settlement entails $10,000 a year for Mrs. Mays and $5,000 for their adopted son, Michael, 3.

Van Brunt said Mays is in debt and behind in income tax payments despite earnings of $85,000 a year from the Giants and $15,000 a year from other enterprises.

McMINNVILLE, Tenn. (AP) — The Warren County United Givers Fund reports receipts of $21,205— and one half-gallon of moonshine whisky.

Mrs. C. F. Rowe, UGF office secretary, said the jug was left by someone who attached a UGF card with the notation: "Amount pledged: ½ gal. Balance due: None." The moonshine was turned over to the sheriff's office.

SACRAMENTO, Calif. (AP) — An Isleton policeman and two other men were arraigned Tuesday on charges of armed robbery.

Dist. Atty. John M. Price accused Officer Arthur Davis, 55, of sharing in the $125 loot.

Price said Davis stayed in his police car in a different part of town while the others robbed a bar and restaurant. Later the three men met and divided the loot, Price charged.

TWENTY-FIVE YEARS AGO

Auto Bowled Over Twice Crashes Into House And Jars Sleeper; None Hurt: An information charging a violation of the motor code has been laid against a Jersey Shore motorist as the result of an automobile collision at the York Springs intersection Sunday morning in which seven countians escaped injury when their car overturned. One person was slightly hurt.

According to information secured by Patrolman Thomas C. Mahalik, of the local substation of the highway patrol, who investigated, the accident occurred as John Hoffman, 42, Dillsburg R. 1, was driving south on the Gettysburg-Harrisburg road with his wife and five children. The Hoffman car was nearly through the intersection when the rear of the machine was struck by that of Charles B. Brion, 24, of Jersey Shore R. 2, which was traveling East on the Hanover-Carlisle highway.

New Oxford High School Sophomore Dies After Being Pinned Under Car: Pinned beneath an automobile that had rolled over several times on the East Berlin road, a mile north of Abbottstown, about 5:45 o'clock Monday evening, Robert W. Slaybaugh, 16, son of Mr. and Mrs. John E. Slaybaugh, New Oxford R. 1, died at 6:20 o'clock, ten minutes after he had been admitted to the Hanover general hospital. A fracture of the base of the skull caused death. The boy did not regain consciousness after the crash.

Two Bands Furnish Music For Santa Claus Parade Friday At 7 P.M.: Gettysburg's Blue and Gray band and the York Springs high school band will furnish music for the Santa Claus Christmas parade to be held in Gettysburg Friday evening at 7 o'clock.

Santa Claus' triumphant entry into this historic community will officially mark the opening of the yuletide season and the turning on of the Christmas street lights will be the signal for the start of the parade which is expected to be one of the most colorful ever held in Gettysburg.

Thanksgiving Holidays: Thanksgiving vacation begins Wednesday for Gettysburg college and seminary students and public and parochial school pupils.

The college and seminary will close at noon Wednesday for the Thanksgiving recess. Classes will not be resumed until 7:45 o'clock Monday morning.

Public schools in the borough close Wednesday afternoon at 3 o'clock and the pupils will return to their regular schedule next Monday morning. The Gettysburg parochial school children will have no classes Thursday and Friday.

3 Bandits Tie 2 Women, Take $1,500 South Of Emmitsburg: Three unmasked "gentlemen" bandits robbed the home of Arthur Shaffer, near St. Anthony's school house, three miles south of Emmitsburg on the Frederick road, at gunpoint Tuesday evening at 8 o'clock and escaped with about $1,500 in cash, a diamond and two other rings and a $35 revolver.

One of the bandits gained entrance to the home by posing as Dr. A. A. Martin, Emmitsburg veterinarian, and then with the assistance of his two accomplices held up Mrs. Mary Shaffer, 64, Arthur's mother, and Amantha McAfee, 15-year-old Shaffer hired girl, and bound the pair with wire tape.

Today's Talk

THE BOOK OF MEN AND WOMEN

Everything we see leaves its impression on our minds. And most of what we see creeps into our minds and lies down totally unknown to us. That is, the unconscious mind is never caught napping.

I have read books and "between the lines" I have often seen, or rather read with my mind's eye, things that the authors omitted though with subtle art included.

We do not utter all the things we think. Two people in silence may interchange silent understanding that needs no words.

Men and women are books. We read from them the life of the world. We see in every face something of the weakness and strength of all struggle, aspiration, failure or success.

Of course some of these books of men and women are simpler and easier to read than others. Then there are those so deep in meaning that few find their way into the fullness of all that is recorded there.

It is easy to critize what a man has written, but who is worthy to take measure of what a man has stamped upon his face or engraved upon his heart?

There are books that one cannot read aloud. Likewise there those in life who must come to one quietly, in full silence, so that one may read deep into all that they have written and acted within them.

Sometimes the choicest books in life are also the unpretentious ones. Thus the beautiful individuals who go about their tasks without any flurry, and in whose hearts are warm, comfortable fires, often mean most to one as a friend.

How beautifully some lives seem to be bound!

Just Folks

THANKSGIVING

Dear Lord, accept our humble prayer
Of thanks for all Thy watchful care,
For yield of field and vine and tree
Our hearts give gratitude to Thee;
Now lies the frost upon the vine,
We see another year decline,
But through the pain and strife and woe
Thy blessings manifestly show.

Dear Lord, for laughter and for song
Which have been ours, for righted wrong,
For steps of progress we have made,
For all the works of art and trade,
For science which has conquered pain
And given hope where hope seemed vain,
For all that helps mankind to live
This day to Thee our thanks we give.

Dear Lord, despite its pain and strife
We thank Thee for our richer life,
For all the strength and wisdom sent
To him who is our President.
We who have suffered still can find
Proof of Thy love and mercy kind.
In all our works Thy hand we see
And bow in gratitude to Thee.

THREE NUNS DROWN

SAN JUAN, Puerto Rico (AP)—The body of Sister Mary Donald Flinner, 27, Prospect, Pa., is to be flown to Pittsburgh, Pa., for burial sometime this week. She and two other Roman Catholic nuns, both from Puerto Rico, drowned Monday when a boat capsized during an outing on nearby Lake Carraizo. Three other nuns and a doctor were rescued. Funeral services for Sister Mary Donald, who came here from Pittsburgh in 1959, were held Tuesday.

PHILADELPHIA (AP) — Research grants totaling $980,760 have been awarded the Albert Einstein Medical Center in the past five months, the center announced Tuesday.

Littlestown

LOCAL COUPLE MARKS 55TH WEDDING DAY

Mr. and Mrs. Samuel Staley, 228 N. Queen St., are quietly observing their 55th wedding anniversary today. They were married on November 22, 1906, in the parsonage of St. James' United Church of Christ by the late Dr. F. S. Lindaman. They are the parents of two daughters, Mrs. LeRoy Gordon and Mrs. Clair Beamer, both of town, and have two grandsons and three great-grandchildren. Both Mr. and Mrs. Staley are enjoying good health. He is employed by the Littlestown Manufacturing Company.

The Starr Bible class was in charge of the program in the Adult Department of St. Paul's Lutheran Church School on Sunday morning. The program was as follows: Group singing, accompanied by Mrs. Harold Messinger; Scripture, Mrs. Irvin B. Kindig; prayer, the Rev. David S. Kammerer, a former pastor; vocal duet, Beverly Hess and Jill Wiseman, accompanied by Linda Hess; selection by the local high school boys' octet, composed of Paul Bowman, James Bowman, Charles Hahn, Robert Hahn, Richard Hornberger, Richard Maitland, Thomas Shildt and Ronald Ruggles; talk on the theme "The Call," Merwyn C. Fuss, Taneytown. Luther W. Ritter is teacher of the class.

The next regular meeting of the Starr Bible Class will be held Thursday November 30 at 7:45 p.m. at the church. The hostesses will be Mrs. George Basehoar, Mrs. Walter Shriver and Mrs. Hoff.

HOLIDAY FOR P.O.

Girl Scout Troop 780 met on Monday evening at the engine house, with Mrs. James H. Spalding, leader, in charge. Plans for December were discussed. The stocking puppets will be finished next Monday and December 4 and 11, the girls will work on their Christmas projects. A Christmas party will be held December 18. The troop is to have things for Christmas on December 4. All calendar sales money must be in by next week, and Christmas gift name exchanging will also take place at that meeting.

Clarence L. Schwartz Sr., Littlestown postmaster, has announced that there will be no regular deliveries or window service offered by the local post office Thursday, Thanksgiving Day. However, mail will be received and dispatched as usual and perishables and special deliveries will be taken to their destination.

S. S. BANQUET

The first annual fellowship and appreciation banquet for the Sunday School officers and teachers and their families of St. Paul's Lutheran Church was held in the church social hall on Monday evening. The banquet was served by the Young Women's Bible Class to the 80 persons in attendance. Luther W. Ritter was toastmaster.

The group then adjourned to the Adult Sunday School room, where the program included: Remarks, Robert B. DeGroft, general superintendent of the Sunday School, and a lecture, illustrated with colored slides presented by the Rev. Dr. Ralph D. Heim, professor of religious education at the Lutheran Theological Seminary, Gettysburg, on the theme "Religious Education the World Over, Always and Everywhere."

Members of the local Lions Club are asked to pick up the fruit cakes ordered, which have arrived and are at the home of Chester S. Byers, E. Myrtle St.

BAZAAR TO OPEN

Most of the community factories, places of business and retail stores will be closed all day on Thanksgiving Day. The regular hours of operation will be resumed on Friday.

The Ladies' Auxiliary of the Fraternal Order of Eagles, Littlestown Aerie No. 2226 will sponsor the weekly public party at 8 p.m. on Friday in the social room of the FOE Home.

A record hop will be held in the Maple Ave. school auditorium on Friday from 8 to 11 p.m. The disc jockey will be Bob Janis, announcer for radio station WSBA, York. The hop is being sponsored by Explorer Post No. 84.

The annual three-day bazaar of St. Aloysius Catholic Church will open on Thanksgiving Day, when roast turkey meals will be served family style from 12 o'clock noon to 2:30 and 4 to 8 p.m. Sea food suppers will be served from 5 to 8 p.m. on Friday and baked ham on Saturday from 4 to 7:30 p.m. For the convenience of patronizing parents, baby sitters will be available during the serving of meals. Other bazaar attractions will be featured and the weekly public party will be held on Saturday evening.

FROSH GRID LAURELS WELL DISTRIBUTED

Many of Gettysburg College's Freshmen football players stood out during the yearling's 4-1 grid season.

Kenny Snyder, Hershey, was the standout in the statistic department. Snyder was the top ground gainer with 62 carries for 279 net yards. He passed seven times completing three for 14 yards and added two pass conversions. He took part in 69 plays and gained 293 yards. Snyder also paced the team in pass receiving with eight catches for 214 yards and two touchdowns. He led the team in pass interceptions, punt returns and kickoff returns and was the team's leading scorer with six touchdowns and four placement kicks for 40 points.

Tony Presogna, Curwensville, was runnerup in rushing with 48 carries for 177 yards. Don Enders, Camp Hill, topped the passers, completing 21 of 48 aerials for 376 yards and three TD tosses. Steve Gotwals, Chambersburg, tied Snyder in the number of passes caught, but gained 86 yards and one TD. Gotwals was a main figure on defense.

Linemen who turned in exceptionally fine jobs were tackles Bob Rudolph, Chappaqua, N. Y., and Bill Lake, York; guards, Bill Samuel, Frankfort High School, Philadelphia, and Van Lurton, from Woodrow Wilson High School in Washington; center, Don DeMaio, Piermont, N. Y., and ends, Bob Shannon, also from Frankfort High, Philadelphia, and Vince Majkowski, Kearny, N. J.

FLAX CHARGES EMMITSBURG IS NEGLECTED

"Emmitsburg and Brunswick are the only Democratic strongholds left in Frederick County. We can — and we will — turn the county over to the Republicans unles we can see some promises made good!"

J. Norman Flax, president of Emmitsburg's three-man board of commissioners, leveled that ultimatum Monday night at the Maryland State Roads Commission. In state highway planning and maintenance, Mr. Flax declared, "residents of the northern end of the county have been treated like the forgotten people."

Outstanding among the instances the commissioner outlined Monday night in support of that claim was his account of how the SRC promised to resurface Emmitsburg's two main thoroughfares and then failed to do so. Mr. Flax said John B. Funk, chairman-director of the SRC, assured him around the end of last summer that he would "look into the situation at Emmitsburg."

NOTHING DONE, HE SAYS

The Emmitsburg commissioner said Mr. Funk told him at that time that he was surprised to know that the two streets (Seton Ave. and Main St.) were so badly in need of repair, and promised to have the necessary steps taken.

"Since then, in the way of resurfacing, we've got nothing—period," Mr. Flax said. The commissioner also pointed out that "we're getting into cold weather fast" and that such work is becoming increasingly difficult to undertake.

Thomas G. Mohler, district engineer for the SRC, when made familiar with the nature of the complaints from Emmitsburg, said his office has never received instructions that call for resurfacing of Seton and Main inside the limits of the north county corporation.

WILL MAKE INQUIRIES

The district engineer agreed that it is already late in the year for such a project, but emphasized it was the first he had heard that any promise had been made.

Mr. Mohler said he expected to be in touch with SRC officials in Baltimore within the next few days and planned to make inquiries tc clear up the Emmitsburg situation.

The district engineer stressed that he knew the resurfacing has been discussed over a period of time, but that "to my knowledge no orders to proceed with the work have been issued."

CONTACTED TAWES

Mr. Flax said he has also been in touch with Governor Tawes in an effort to have the work done. He declared.

"You hear and read how they're building big and beautiful roads in many other localities, and meanwhile even the tourists coming south from Gettysburg—past the nice highway in the vicinity of former President Eisenhower's place—have commented on the condition of the streets in Emmitsburg.

"I know what the tourists mean, too, because when you come south on 15 (U. S. Route 15) and reach the Mason-Dixon Line, it's pathetic."

Mr. Flax frequently interwove his political implication into his charge that the SRC had failed to keep promises. He said:

"We're not asking for much. All we're asking for is a decent repair job. And meanwhile, all concerned should keep in mind that the primaries are coming up in May."

Storms Sweep Across Nation

By THE ASSOCIATED PRESS

Stormy weather, with snow, sleet and rain, spread across wide areas from the Rockies into the nation's midsection today, indicating a slushy Thanksgiving holiday.

A snowstorm which hit New England, dumping the heaviest falls of the season—up to 20 inches in parts of New Hampshire—appeared ended in most areas.

The Weather Bureau in Washington said favorable weather was indicated for most of the nation on Thanksgiving, with temperatures near seasonal levels in the major part of the country.

Heavy snow warnings of four inches or more, with strong northerly winds were posted for much of northeast Colorado, southeast Wyoming, South Dakota, northwest Nebraska, Minnesota, extreme northwest Iowa and southwestern Kansas. More than three inches of snow fell in Wassau, Wis., during a six-hour period Tuesday night.

Police Search For Missing Trucker

NEW YORK (AP) — A missing persons alarm has been issued for Michael James Hines Jr., of Kennett Square, Pa., driver of a large tractor-trailer which was ticketed three times.

Police said the rig had been parked in a prohibited zone in front of the Helen Hayes Theater from last Friday until Tuesday when representatives of the Losito Mushroom Co. of Toughkenamon, Pa., came here and took it back with them.

Officials of the firm said they had no idea of the whereabouts of Hines.

BURY MRS. HARNER

Funeral services for Mrs. Annie Bucher Harner, 90, widow of Abia S. Harner, who died on Monday at the home of Mr. and Mrs. Edward B. Geiman, Littlestown R. 2, where she had been residing for a number of years, were conducted this afternoon at 2 o'clock from Little's Funeral Home, Littlestown. The Rev. William C. Karns, pastor of St. John's Lutheran Church, near Littlestown, officiated. Interment was in Mt. Carmel Cemetery, Littlestown. Pallbearers were: Malcolm B. Shadle, Edgar A. Wolfe, Roy D. Renner, Harry O Harner, Harry DeGroft and Mervin Harner.

WASHINGTON (AP) — Lt. Gen. Eugene Reybold, 77, chief of the Army Corps of Engineers during World War II, died Tuesday Reybold, who retired from active service in 1946, served as executive Road Builders Association in Washington from 1950 to 1956. He was born in Delaware City, Del.

Fairfield

FAIRFIELD — Circle Four of the Zion United Lutheran Church Women conducted the devotions recently at the Adams County home.

Fairfield Homemakers will be guests of Mrs. William Newman, Carroll's Tract Rd., on November 29 at 7:30 o'clock when "Candles" will be made and decorated.

A birthday party was held Saturday afternoon at the home of Mr. and Mrs. Kenneth Ickes for their daughter, Linda. Guests included: Betsy Neely, Susan Sanders, Jeanne Reindollar, Gail Mohler, Rosie Naugle, Joyce Monn, Sandra Sites, Marcia Solomon, Susan Mickley, Patricia Sanders, Nancy, Kenny and Elaine Ickes.

The Fairfield Band Auxiliary will meet Monday evening at 7:30 o'clock. All interested are invited to attend.

Norman Plank was the guest of honor at a surprise party Sunday afternoon in the Fairfield fire hall to celebrate his birthday. The following were present: Pauline Wright, Jim Kittinger, Carolyn and Ted Kane, Mary Herring, Barry Powell, Yvonne Herring, Don Briggs, Sandy Foust, Jim McGlaughlin, Virginia Spence, Joy Metz, Joyce Spence, Viola May, Connie Myers, Carol Reindollar and Annette Sites. Games were played followed by refreshments. Gifts were received.

The Fairfield Community Thanksgiving Service will be held Thursday morning at 8:30 a.m. in St. John's United Church of Christ. Rev. Gerhard Klaassen will speak.

WASHINGTON (AP) — Retailers of emergency drinking water—a distilled product — report brisk sales. And, they add, most if it isn't being stored in fallout shelters.

Word has gotten around that the distilled water makes a fine highball mix.

The water was obtained from Navy surplus stocks.

BU... MRS. SITES

Funeral services were held from Mt. Zion Lutheran Church, Fairfield, Sunday afternoon for Mrs. Eleanor Sites, 73, wife of Lloyd S. Sites, who died at the Warner Hospital Friday morning. Rev. Otto Kroeger officiated and interment was made in the Fairfield Union Cemetery. The pallbearers were Kenneth Sanders, Calvin Riley, Francis Herring and Wilmer Sanders.

GRID SCHOLAR LIKE HAVING SECOND COACH

NEW BRUNSWICK, N.J. (AP) —Alex Kroll is a Henry Rutgers scholar, which frees him from a number of regular courses to do independent research. At last report he was working on a thesis entitled "A Critical Study of Lawrence Durrell's Application of the Einstein Space-Time Continuum to the Modern Novel."

He devotes his spare time to the Alex Kroll application of Rutgers football coach John Bateman's block-tackle continuum of disposing of enemy linemen.

As center and captain of the Scarlet Knights, the 23-year-old, 6-2, 226-pounder from Leechburg, Pa., is within one game of leading his teammates to the first undefeated season in Rutgers history. The finale is on Saturday against Columbia here.

STARTED IN ARMY

Kroll's interest in Durrell got its start during his Army years when he read the writings of the contemporary Irish novelist and, he says, was appalled by the scarcity of critiques on the subject.

His football career began at Leechburg High. After four years, Kroll turned up at Yale, where he played a good sophomore year. He spent the next two years in the Army, where he played tackle for the Fort Campbell team, unofficial Army champions.

His military service over, Kroll came to Rutgers, sat out 1959 and played last year, winning some mention as an All-America candidate.

Kroll is "like having another coach on the field," says Bateman about his tough, agile middleman. "Alex is sensitive to what opposing quarterbacks are doing and has great success in calling defense best equipped to stop them."

Kroll may be doing his hitting next year for the professional Los Angeles Rams of the National Football League. The Rams drafted him after his original class graduated from Yale in 1958.

Traditional Scholastic Grid Games To Close Grid Season

By FRED WALTERS

HARRISBURG (AP) — Pennsylvania high schools will carve up all but a few of the remaining conference championships in the traditional windup of the 1961 scholastic football season Thursday, Thanksgiving Day.

There is only one non-Thanksgiving Day game on the week's schedule and it matches Wilkinsburg against Monessen Friday for the WPIAL's big prize, the Class AA championship.

RUNDOWN

Here's a rundown:

Monessen over Wilkinsburg—The Greyhounds catch the "rabbit."

Marple-Newtown over Springfield Twp.—Throwing the Suburban 2 League into a three-way tie (Plymouth - Whitemarsh is the third team).

Upper Darby over Haverford—A tough one, but Upper Darby should win and clinch the Suburban 1 title.

Central Bucks over North Penn and Pennridge over Quakertown—Another pair of tough ones the winners would be co-champions of the Bux-Mont.

Pottstown over Owen Roberts—Looks easy for Pottstown, winning the Ches-Mont title.

Harrisburg Harris over Harrisburg Penn—But in a rivalry like this, anything could happen.

Easton over Phillipsburg (NJ)—The game will make the season for the winner.

SETTLE CHAMPIONSHIP

Northampton over Catasauqua—Looks easy, although it settles the Lehigh Valley championship.

Pen Argyl over Bangor—Clinching the Lehigh-Northampton trophy.

Old Forge over Taylor-Moosic—Forge preps for the East Penn championship game Dec. 2.

Wyoming over West Wyoming—A nod for the unbeaten, once-scored-upon team.

Wilkes-Barre Meyers over Wilkes-Barre GAR—Meyers repeats as Wyoming Valley champion.

OTHER GAMES

The other games, briefly:

Norristown over Upper Merion, Ridley Twp. over Eddystone, Interboro over Ridley Park, Lansdowne-Aldan over Swarthmore, Sharon Hill over Collingdale, Clifton Heights over Yeadon, Souderton over Upper Perkiomen, Upper Moreland over Hatboro, Council Rock over William Tennent, Neshaminy over Bensalem, Pennsbury over Delhaas, Bishop Egan over Woodrow Wilson, Phoenixville over Conshohocken, Coatesville over Downingtown, Conestoga over West Chester, Phila. Germantown over Phila. Roxborough, Phila. Southern over Phila Bishop Neumann, Norristown Bishop Kenrick over Wyncote Bishop McDevitt.

Allentown Allen over Bethlehem Emmaus over Whitehall, Slatington over Palmerton, East Stroudsburg over Stroudsburg, Nazareth over Wilson Boro.

Lansford over Coaldale, Pottsville over Reading, Shamokin over Mount Carmel, Hazleton over West Hazleton.

Scranton Tech over Scranton Central, Tunkhannock over Clarks Summit, West Scranton over Dunmore, Duryea over Kingston Cath. Pittston St. Johns over Pittston, West Pittston over Exeter, Kingston over Wilkes-Barre Coughlin, Hanover Twp. over Plains, Plymouth over Nanticoke.

(Last week: 14 right, 5 wrong, 3 ties, .737; season: 343-107-17, .762.)

Local Firm Faces Injunction Suit

SCRANTON, Pa.—Violations of the Federal Fair Labor Standards Act were alleged against C. W. Crouse, owner and operator of Crouse's Auto Parts, R. 1, in an injunction suit on file in the U. S. district court here.

The complaint, filed by U. S. Secretary of Labor Arthur J. Goldberg, charges that the defendant failed to pay the required time and a half for hours worked in excess of 40 per work week and failed to keep suitable records.

The court was asked to bar further violations and to order the company to maintain adequate time and pay records.

The legal action followed an investigation by the U. S. Department of Labor's wage-hour and public contracts divisions under the supervision of William Hargadine Jr., regional director, Chambersburg, Pa.

The defendant is subject to federal wage-hour regulations because the defendant is engaged in the purchase and rebuilding of wrecked automobiles and the sale of rebuilt autos and parts in interstate commerce.

NEXT TO COLDEST

This morning's low temperature of 27 degrees equalled a mark set here on November 12 and 19 but the reading of 23 degrees taken the morning of November 11 remained the coldest day so far this month.

DICKINSON 5 TO PLAY HERE DECEMBER 4

CARLISLE, Pa.—Dickinson College will play a 17-game basketball schedule this winter opening December 4 on the road against Gettysburg, Athletic Director David Eavenson announced.

All opponents are members of the Middle Atlantic Conference College Division except Gettysburg and Lehigh, which play in the MAC University Division. Drexel is the only newcomer to the schedule.

Joseph DuCharme will coach the Red Devils for the seventh season. Gene Becker, York, forward and captain, and Bill Schantzenbach, Emmaus, a guard, are the only starters from last year's teams which split even in 18 games.

OTHER CANDIDATES

Other lettermen are centers George Meals, Camp Hill, and Bill Morgan, Kingston, and forward Phil Smedley, Cheltenham. Wesley James, Carlisle, who transferred from Ursinus two years ago and is now eligible to play for Dickinson, and John Butera, Norristown, a center, are other experienced players.

DuCharme's preseason varsity squad also includes Sophomores Edison Eater, Marysville, and Glenn Hitchen, Milford, Del., and the following Freshmen: Garry Heishman, Carlisle; Neil Hermann, Middleburg; Dick Shapiro, Philadelphia; John Treicis, Landisburg, and Robert Weaver, Huntingdon.

COLONIALS TO LACK HEIGHT IN BASKETBALL

A big task confronts Coach Ellis Diviney of the New Oxford High School basketball squad as he prepares for a 21-game schedule, including 18 Adams-Franklin County League games.

Diviney has only two lettermen on his current 12-man varsity squad, Dick Boose and Gary Smith, both Seniors and both 5-8.

Lack of height will pose a problem during the coming campaign, not a single Colonial player reaching the six-foot mark. Despite this handicap the Colonials have high hopes for improving on their 4-17 mark of last year.

In addition to the lettermen, the varsity squad includes:

Senior, Tom Scheivert, 5-8; Juniors, Dick Higinbotham 5-9, Harold Lillich 5-9, John Menges 5-9, Ken Simpson 5-11, Dave Meckley 5-9, Mike Hull 5-6, Craig Duttera 5-11, Larry Diehl 5-11, Nate Lucabaugh 5-4.

There are 14 members on the present jayvee squad which is coached by Maurice Frontz.

JAYVEE SQUAD

Included are: Tenth Graders, Bill Dubbs, Jim Mayer, Ken Sieg, Ken Haverstick, Dale Alwine, Bob Myers, Leroy Wallen; Ninth Graders, Jim Kemp, John Harner, Jim Stipe, Ken Hoff, Dougald Wentz, Larry Phiel and Mike Rusinko.

The Colonials will open their season Friday, December 1, by meeting Northern of Dillsburg at New Oxford.

Other games on the schedule follow: December 8, Dover, away; 16, South Western, home; 19, *Buchanan, home; 22, *Bermudian, away; January 3, *Fairfield, home; 5, *Littlestown, away; 9, *Greencastle, home; 12, *Quincy, away; 16, *Scotland, home; 19, *St. Thomas, home; 23, *Fannett-Metal, away; 26, *Buchanan, away; 30, *Bermudian, home; February 2, *Fairfield, away; 6, *Littlestown, home; 10, *Greencastle, away; 13, *Quincy, home; 16, *Scotland, away; 20, *St. Thomas, away; 23, *Fannett-Metal, home. *—Indicates Adams-Franklin League games.

Scranton Miners Sign Negro Coach

HAZLETON, Pa. (AP) — The Scranton Miners have signed a Negro coach, the first in the Eastern Basketball League.

Herb Cables, a municipal recreation director at Milford, Conn., Tuesday signed a contract to replace Togo Palazzi. Terms were not disclosed. Palazzi resigned as coach but will continue as a player.

The EBL opens play Thursday night with a three game schedule. Scranton is at Wilkes-Barre, Sunbury at Williamsport and Hazleton at Camden, N.J.

FOSS DECLARES AFL DRAFT IS NULL AND VOID

By HAROLD V. RATLIFF

DALLAS, Tex. (AP)—Commissioner Joe Foss of the American Football League has cancelled the controversial secret draft that had the colleges up in arms and the rival National Football League making snide remarks.

In a telephone call to The Associated Press from Washington early today, Foss said he was exercising his power as commissioner and declaring the draft null and void.

Foss declared when the story broke Sunday that he didn't know it had been done but that he would investigate.

The draft, called a poll for negotiation by the club owners, came two weeks before the official draft of the AFL, set by Foss for Dec. 2 in cooperation with the American Football Coaches Association.

RULED FAITH BREACH

When news of the secret draft leaked out, the colleges called it a breach of faith. Bill Reed, commissioner of the Big Ten and co-chairman of the Football Coaches-NCAA Committee which worked out a draft ban until the end of the college season, asked that Foss repudiate it.

Foss told The Associated Press: "After investigating and considering more fully the various ramifications of the negotiation poll conductced secretly by presidents of the American Football League, without the knowledge of myself or my office, I feel such a poll has the aspects of a premature draft and exercise my power as commissioner and hereby declare it null and void. Only the draft in Dallas on Dec. 2 conducted by the commissioner will be the authentic and official one."

GABRIEL AP'S BACK OF WEEK

By MIKE RATHET
Associated Press Sports Writer

North Carolina State passing maestro Roman Gabriel, a top contender for All-America honors and a man marked for distinction by the pros, is The Associated Press Back of the Week.

The 220-pound senior from Wilmington, N.C., who spread his bulk over a well-proportioned 6-foot-4 frame, earned the designation today with an outstanding performance in a 38-14 rout of South Carolina last Saturday.

Gabriel, 21-year-old father of two sons, scored twice, passed for two TDs, completed 17 of 22 passes for 215 yards, tacked on 40 yards running in eight tries and cracked two Atlantic Coast Conference career records.

OTHERS MENTIONED

That performance gave him the nod over Rutgers quarterback Sam Mudie, TCU quarterback Sonny Gibbs, Kansas halfback Curtis McClinton, Minnesota halfback Dave Mulholland and Arizona quarterback Eddie Wilsom.

A certain top selection by the pros in their upcoming drafts, Gabriel set ACC marks for most pass completions, with 279, and most touchdowns either passing or running, with 34. Both eclipsed records held by Wake Forest's Norman Snead, now quarterbacking the Washington Redskins of the National Football League.

Gabriel, the No. 2 passer in the country, threw touchdown passes of 19 and 18 yards to halfback Joe Scarpati and scored himself on plunges of 1 and 2 yards against the Gamecocks.

Lehigh In Lead For Lambert Cup

NEW YORK (AP) — Lehigh moved into first place today in the balloting for the Lambert Cup, emblematic of Eastern small college football supremacy.

The Engineers, who edged Lafayette 17-14 Saturday, captured every first-place vote except one for a rating of 9.9. Amherst, previously No. 1, lost its first game to Williams 12-0 and fell to third place behind Albright.

Following the leaders are Maine Bucknell, Hofstra, Susquehanna and Williams, tied for seventh, Delaware and West Chester, Pa.

PLAY INDOOR GRID CONTEST THIS EVENING

ATLANTIC CITY, N.J. (AP)—The Atlantic City-Holy Spirit high school football game tonight will be about like any of a thousand other traditional rivalries except for one thing:

It will be the first time in 22 years here that football has been played indoors.

The high school contest kicks off a four-game series in mammoth Convention Hall. The series will be climaxed Dec. 2 by the meeting of Pennsylvania Military College and the U.S. Merchant Marine Academy—billed as "the little Army-Navy game."

Between the high school and college games, the Atlantic County Little League All Stars will play Severna Park, Md., on Friday night. The fourth game will be between two semipro elevens, the Hammonton Brewers and the Franklin Miners, on Dec. 3.

Officials at Convention Hall say it is the only structure that can hold a regulation football field—120 yards long by 50 yards wide.

Nobody has ever been able to kick a football to the 135 foot high ceiling, they say. That includes Lou Groza, one of the all-time great kickers in the National Football League. Groza, of the Cleveland Browns, made a trip here once to try.

The indoor series was scheduled by the city as a promotional stunt. That's how indoor football first came to be played back in the '30s, too.

Convention Hall was dedicated shortly before the great depression, and city officials worried about the financial future of "the white elephant by the sea," as it was popularly known.

Indoor football was one of a number of promotions tried in the hall in its early days.

The first game played on Oct. 25, 1930, when Washington and Jefferson defeated Lafayette 7-0 in a college game. A large part of the audience wore formal dress.

After that, 14 more college games, 29 high school games, 33 club or semi-professional games and three between the Atlantic City fire and police department teams were played.

Pennsylvania Military College and Delaware met in seven of the college games, including the last indoor clash on Nov. 11, 1939.

Orangemen Get 2 Bowl Feelers

SYRACUSE, N.Y. (AP)—A Syracuse University spokesman says the school is in receipt of football invitations from both the Liberty Bowl and the Gotham Bowl and "probably will have something to say" about acceptance or rejection "within 24 hours."

The Liberty Bowl is scheduled for Dec. 16 in Philadelphia Stadium while the Gotham Bowl is set for Dec. 9 in New York.

If Syracuse accepts the Liberty Bowl bid it would be the host team from the East. If it rejects, Penn State is considered a likely choice. The Nittany Lions, however, have hosted the Liberty Bowl the past two years, winning both times.

MAC STRIKES AT GAMBLING

SWARTHMORE, Pa. (AP)—The athletic directors of colleges in the Middle Atlantic Conference have voted to ban from post-season representation for two years any college whose players become involved in gambling in the future.

Last winter players from St Joseph's College and LaSalle college, both MAC members, were involved in basketball point-shaving scandals.

The directors also voted to petition the state legislatures of Pennsylvania, New Jersey, Delaware, Maryland and New York to eenact laws carrying fines and prison sentences for persons convicted of offering bribes to athletes and laws punishing any college players convicted of accepting bribes to throw games or shave points.

The action was taken Tuesday at the directors' fall meeting here.

They called on MAC members "to attempt . . . to indoctrinate its students with a more genuine, active and vigorous spirit of loyalty to the institution and their teams."

In other action, the directors realigned soccer teams into a University Division, Northern College Division and Southern College Division. They also voted on an annual college tennis tournament each year beginning in 1963.

ROBINSON IS SENIOR LOOP'S BEST PLAYER

By BOB SALMON
Associated Press Sports Writer

BOSTON (AP) — Frank Robinson, Cincinnati's carefree, lusty-hitting outfielder who backboned the Redlegs to their first pennant in 21 years last season, today was named the National League's Most Valuable Player of 1961.

Robinson made a runaway of the balloting, gaining all but one of 16 first-place votes. One member of a special committee of the Baseball Writers Association of America named the 26-year-old right fielder to second place.

Robinson polled 219 of a possible 224 points. Far back in second place with 117 points was San Francisco's Orlando Cepeda, who paced the National League in home runs and runs batted in.

PRISON IS THIRD

Cincinnati outfielder Vada Pinson, Robinson's roommate, nailed down third place with 104 points.

Roberto Clemente of Pittsburgh was fourth with 81 and Redlegs' pitcher Joey Jay was fifth with 74. Jay received the other first-place vote.

"Wow!" exclaimed Robinson when notified. "This is a wonderful wedding present for me."

Robinson, known as a happy-go-lucky bachelor, disclosed he was married three weeks ago. His bride is the former Barbara Cole of Los Angeles.

Robinson, the league's outstanding rookie when he broke in with the Redlegs in 1956, batted .323 over the 1961 season, hitting 37 homers, driving in 124 runs and stealing 22 bases.

TCU LINEMAN BEST OF WEEK

By MIKE COCHRAN

FORT WORTH, Tex. (AP) — "I'm not much good at talkin'," says Texas Christian University end Buddy Iles, "but that touchdown pass was the greatest thrill of my life—ever."

The modest 21-year-old senior, selected Lineman of the Week by The Associated Press Tuesday, spoke quietly of the 50-yard pass from Sonny Gibbs that upset Texas Saturday 6-0.

Buddy hauled in the pass on the Texas eight and battled into the end zone for the touchdown that snapped an eight-game Texas winning streak and tumbled the Longhorns from their ranking of the nation's No. 1 team.

MATH MAJOR

"I thought I had been tackled before I crossed the goal line," Iles, an educational math major from New London, Tex., said of the pass play. "But I didn't argue, no sir."

When Coach Abe Martin learned that Iles had gotten the nod as top lineman in the weekly poll of sports writer and broadcasters, he exclaimed: "Well, great."

Martin, who called the victory one of the greatest of his career, added quickly that many of his players deserved a share of the honors.

Iles, in addition to his touchdown, played outstanding both offensively and defensively and in the fourth quarter halted the final Texas drive with a vicious tackle at the TCU four.

BOWLERS VIE FOR $48,000

CHICAGO (AP) — Thirty-two of the nation's top bowlers, 16 men and 16 women, today head into the stiff match game competition in the $48,000 world's invitational bowling tournament.

The 16 men finalists, from the 128 keglers who started the tourney last Friday, will shoot 64 head-to-head games starting today with three rounds. Four are scheduled Thursday, three on Friday, four on Saturday the final two on Sunday.

The 16 women who survived into the finals from a starting field of 64 will shoot 48 games in the match-game firing. They will meet in sets of three games.

LEADERS

The leader in the men's division, Joe Joseph, a veteran shooter from Kansas City, Mo., averaged just above 221 for his 36 games in the five days of preliminary shooting. The 15th finalist, Dick Weber of St. Louis, posted an average of 212. The 16th finalist, defending champion Don Carter of St Louis, was seeded into finals. His total for 36 games was 7,435.

In the women's division, Mrs. Marion Ladewig was the top performer, as she has been for several years in major tournaments. She finished in front of the 32 women in the semifinals with a total score of 5,090 for 24 games, average of 212. Doris Knechtges of Detroit, who placed 16th to win a berth in the finals, averaged 193.

IRISH, ORANGE BOTH CLAMING GRID VICTORY

By JOE MOOSHIL
Associated Press Sports Writer

CHICAGO (AP) — Notre Dame has a 17-15 victory over Syracuse in last Saturday's controversial football game but Syracuse is claiming a 15-14 victory over the Irish.

Commissioners Bill Reed of the Big Ten and Asa Bushnell of the Eastern College Athletics Conference issued a joint statement Tuesday that the game officials erred in allowing the Irish an extra play after time ran out in which Joe Perkowski booted a 41-yard field goal to wipe out the 15-14 Syracuse lead and give Notre Dame a 17-15 triumph.

Notre Dame shunted aside the commissioners' statement as "ambiguous and illogical."

Syracuse athletic director Lew Andreas said: "We believe absolutely Syracuse won the game 15-14."

RULE COMMITTEE FINAL

That's the way matters stand. But Walter Byers, executive director of the National Collegiate Athletic Association, said the matter should be settled by the institutions involved in consultation with the commissioners and Gen. Bob Neyland, Tennessee athletic director and chairman of the NCAA Rules Committee. The Rules Committee, said Byers, is the final authority on interpretation of the rules.

Syracuse had hopes that the NCAA would rule on the matter. But, according to Byers' statement, this is not the NCAA's problem.

Notre Dame is in no mood to concede the victory to Syracuse in the manner which Cornell did to Dartmouth in the 1940 season. In that game, Cornell apparently had won 7-3 by scoring a touchdown on the game's final play.

Two days later referee Red Friesdell discovered he had permitted Cornell a fifth down on which the game-ending touchdown was scored.

Syracuse had a 15-14 lead over Notre Dame when the Irish tried a field goal by Perkowski with three seconds to play. The attempt was short but a roughing the kicker penalty was called. Syracuse was penalized 15 yards, although time had run out, and Notre Dame was given another shot. This time Perkowski made good.

The controversy began Sunday long after Gus Skibbie, head linesman from Bowling Green, Ohio, supplied by the Big Ten, had called the roughing penalty.

Under the interpretations of Reed, Bushnell and others, the NCAA ruling is "a foul during the kick, including roughing the kicker, will not extend the perod as the ball is not in (the kicking team's) possession."

Burroughs To Call Defensive Signals

PHILADELPHIA (AP) — Coach Nick Skorich says his present plans call for safety man Don Burroughs to call the defensive signals for the Philadelphia Eagles Sunday in their National Football League game against Dallas here.

Skorich reported Tuesday that Burroughs' eye condition and head injury were clearing up rapidly and he definitely would be a starter against the Cowboys.

The coach further explained why he shifted veteran Chuck Bednarik from offensive center to defensive middle linebacker.

"I felt we had to have someone back there like Tom Brookshier (out with a broken leg. Someone around whom the troops could rally. Brookshier was a never-let-up player. Bednarik is the same type. Because of Chuck's abilities and his many years in the league, he has to command respect.

Says Eagles Not Yet Out Of Steam

PHILADELPHIA (AP) — Someone told veteran Philadelphia lineman Chuck Bednarik that Sam Huff of the New York Giants had said the Eagles "were all burned out" from too early a start in the National Football League.

Bednarik's reply Tuesday: "It's not true. Nick (Coach Nick Skorich) hasn't overworked us. Our only trouble is that we lost our four-leaf clover."

SEE MICHIGAN AND GOPHERS WINNING TILT

NEW YORK (AP) — Chestnuts in your turkey dressing improves its flavor but chestnuts in college football forecasting can ruin your average. Last week's picks showed 37 correct, eight chestnuts for .822.

This week's winners:

Michigan over Ohio State: It is being played at Michigan and there won't be 82,000 fans in the stands cheering themselves hoarse over Buckeye Bob Ferguson's antics.

Minnesota over Wisconsin: Sandy Stephens, the versatile bridegroom, pitches Minnesota to a second straight Big Ten crown.

Louisiana State over Tulane: Little more than a workout.

TV GAME THURSDAY

Texas over Texas A&M: The Longhorns will be all business this time to save their Cotton Bowl invitation. You will see it on your TV Thursday.

Colorado ove. Iowa State: The Buffs are infuriated by their lack of bowl appeal.

Michigan State over Illinois: The Illini are grateful this is the last game in a long winless season.

Arkansas over Texas Tech: Lance Alford has too much speed for the weary Tech Raiders.

Kansas over Missouri: This will be more bruising than any of their previous meetings but John Hadl will engineer a narrow victory.

Purdue over Indiana: They call this the Old Oaken Bucket game because the Purdue line is made of the same timber.

MARYLAND TO WIN

Maryland over Virginia: With the greatest of ease.

Harvard over Yale: The revamped Harvard backfield has too many guns for the young Yales.

Syracuse over Boston College: Syracuse won't have to rely on movies and rulings to pull this one out of the fire. The Orangemen will have it safely won by half-time.

Rutgers over Columbia: Rutgers started this football business 92 years ago and by defeating the Ivy League champs will have its first perfect season.

UCLA over Southern California: The host spot in the Rose Bowl goes to the victor.

HORNUNG GETS PASS TO PLAY

DETROIT (AP) — The Detroit Lions will have a gimmick. But the Green Bay Packers will have Pvt. Paul Hornung.

The U.S. Army is giving the National Football League's leading scorer back to the Packers for their Thanksgiving Day showdown clash with the Lions.

Green Bay, leading the Lions by 1½ games in the tightened Western Division scramble, also will be bolstered by soldier-players Ray Nitschke and Boyd Dowler. The second-place Lions will be strengthened by the return of John Gordy.

TELEVISED THURSDAY

Thursday's battle will be nationally televised (CBS, 12 noon EST and will lure a sellout crown bettering 53,000 into Tiger Stadium.

An Army spokesman said Hornung had received a holiday pass and would leave Fort Riley, Kan., today.

Coach George Wilson of the Lions said he received word the other soldiers would fly here from Ft. Lewis, Wash.

Wilson, fed up with the Lions inability to win at Tiger Stadium, sought—and received—permission to have his players wear road uniforms against the Packers. Five of Detroit's six victories occurred in road games when the Lions wore white shirts.

RELUCTANT TO DISCUSS

The uniform gimmick is something Wilson is reluctant to discuss.

The rest of the NFL teams will enjoy turkey Thursday and wait until Sunday to play. The big one pits first-place New York against Cleveland in a battle of Eastern Division leaders. Philadelphia plays Dallas, Los Angeles meets Chicago, Minnesota plays San Francisco and Washington plays Pittsburgh in the other Sunday games.

TARMAN CITES ABILITIES OF QB GALEN HALL

PITTSBURGH (AP)—It may be against NCAA rules, but Penn State will have a coach on the field in its traditional meeting with rival Pitt next Saturday at Pitt Stadium.

Well, he's not actually a coach. But in the opinion of Penn State's head coach Rip Engle, senior quarterback Galen Hall might just as well be a coach.

"Rip says having Hall running the team is like having a coach on the field," State's publicity man Jim Tarman told a football writers' luncheon Tuesday. "Rip says Galen thinks like a coach.

OTHER PRAISE HIM

"Several times this year an assistant coach sitting up in the press box would phone the sidelines to have Rip send in a special play. But before the play could be sent in Galen would already have called the same play. And it would usually work for good yardage."

Engle and Tarman aren't alone in their praises for the three-year veteran from Williamsburg, Pa., Pitt coach John Michelosen and his assistant Bill Kaliden think highly of Hall, too.

"Penn State has a big front line and they get good running from (Roger) Kochman," Michelosen told the gathering. "But Hall is the man we'll have to stop. He makes that offense go."

GETS JOB DONE

Kaliden, who scouted the Lions in five games this year, said:

"Hall is a good quarterback because he thinks. He likes to jam that race horse offense down your throat. He's good on roll out passes but he knows when to run and is very hard to tackle. Sometimes he looks a little pudgy out there on the field but he gets the job done."

That Hall is the jockey of the Penn State thoroughbred is evident by State's record. The Lions have lost three games this season, but an injury forced Hall to miss most of one game and all of another.

The 5-9, 190-pound standout played in the Lions' 21-17 loss to Maryland, but as Tarman pointed out, Penn State "gained over 400 yards there—enough to win any ball game."

"Actually Hall's biggest contribution to the team is that the kids have confidence in him," Tarman said. "He's only an adequate passer and an adequate runner. But he's the boss out there—the man in charge."

TEXAS LOOKS TOWARD BOWL AGAINST A&M

By ED CORRIGAN
Associated Press Sports Writer

Texas, sidetracked in its rush toward the national championship five days ago, will try to pick up the pieces against Texas A&M Thursday in the top game of a thin collegiate Thanksgiving Day football schedule.

Texas Christian cut down the Longhorns, 6-0, last Saturday, so whatever the outcome against the Aggies, it will provide little solace, except for a berth in the Cotton Bowl.

In other games, Maine and Massachusetts play for the Yankee Conference championship, Richmond meets William and Mry, Virginia Tech tangles with VMI (both Southern Conference contests), Colgate goes against Brown and Memphis State takes on Chattanooga.

NEED TO WIN

Despite the fact that their national title hopes have been shattered Texas still is on the spot against Texas A&M. A loss to the Aggies also could leave the Longhorns on the outside looking in at the Cotton Bowl.

Texas and Arkansas are tied for the Southwest Conference lead, each with a 5-1 record. If Texas whips Texas A&M and Arkansas gets past Texas Tech — as it should—Saturday, the Longhorns and Razorbacks would finish deadlocked for the lead.

The host spot in the Cotton Bowl then would go to Texas on the basis of a 33-7 victory over Arkansas earlier in the season.

MAY DECIDE SOON

Syracuse is expected to decide today whether to play in New York Gotham Bowl on Dec. 9 or Philadelphia's Liberty Bowl on Dec. 16—or no bowl at all.

The Gotham bowl has said it would like to pair Syracuse against Notre Dame in a replay of the Irish's controversial 17-15 victory over the Orange last Saturday. But Notre Dame has a policy of not playing postseason games and no doubt will decline.

The make up the Gator Bowl in Jacksonville, Fla., on Dec. 30 was tentatively set Thursday night.

Georgia Tech will face Maryland if the Terps win their season finale from Virginia Saturday. Yellow Jacket players voted unanimously to accept the bid. Official acceptance, under Southeastern Conference rules, must await Georgia Tech's final game against Georgia on Dec. 2.

SHAGGY GUARD STANDS GUARD FOR 2 MONTHS

SHELL LAKE, Wis. (AP)—This is a shaggy dog story, but with a heart.

Two months ago, Tory Ingebretson, 87, went for a walk in dense woods near his farm in this northern Wisconsin area. With him went his fuzzy dog, Penny, weighing at most about ten pounds.

Neither returned. Washburn County authorities searched fruitlessly for them.

Their fate was a mystery until Sunday when Daryl Alexander of Rice Lake, a deer hunter, worked his way through heavy brush and heard a small dog barking furiously.

GUIDED TO BODY

It was Penny. She guided him to the spot where Ingebretson had fallen and died last September.

Alexander went to notify officers, who were unable to relocate the body until Monday night. Penny was still there.

Sheriff L. W. Stegeman said Penny, who apparently had lived off the land during her long vigil, had been turned over to Ingebretson's niece, Mrs. Loyal Schaub, of nearby Spooner.

Recheck Of Votes Changes Results

BRADFORD, Pa. (AP) — A proposal to change this city's form of government was approved, not rejected by voters in the Nov. 7 election, a recheck of votes has shown.

Election officials said Tuesday, the plan carried by a 1,238 to 334 margin instead of the 691-690 defeat recorded earlier. An official blamed the error on tabulators who counted the wrong column.

A mayor and four councilmen now run the city, but a board will study possible changes to another form of government.

Fire Demolishes Plant; Cuts Power

BRADFORD, Pa. (AP)—Fire demolished a refractory tile-making plant in nearby Clermont Tuesday night and knocked out the community's electric power for over an hour and a half.

Five volunteer fire companies battled the blaze at the Kaul Clay Products Co. Some of the firm's 85 employes were in the plant when the fire started, but there were no reported injuries.

A plant official said the fire started in the electrical vibrators in the boiler room.

Army To Resume Volunteer Policy

WASHINGTON (AP)—The Army expects to resume in January its program of accepting volunteers into the Reserves after only six months of active duty, a Pentagon source reports.

The program was suspended Sept. 1 when the armed services began to build up their forces in the face of Soviet demands over Berlin.

The official said Tuesday, however, that resumption of the six-month duty program does not mean that personnel called into active duty after Sept. 1 will be released earlier than the planned one year of service.

The POWER of FAITH

by Howard Brodie

The short painful life of Robert Louis Stevenson is a testimony to the love of life.

"For 14 years I have not had a day's real health," wrote the beloved author of Treasure Island, "I have written in bed . . . out of it, written in hemorrhages . . . torn by coughing . . . when my head swam for weakness." Yet, "Since I am sworn to live my life . . . I bear a banner in the strife."

He manifested his faith in prayer: "We thank Thee . . . for the hope with which we expect the morrow; for the health, the work, the food, and the bright skies . . . our friends in all parts of the earth . . . give us the strength to encounter that which is to come, that we be brave in peril . . . temperate in wrath . . . and down to the gates of death, loyal and loving one to another.

SAYS U.S. HAS LOST PRESTIGE

BEDFORD, Pa. (AP)—A Republican congressman who just returned from a NATO conference and a visit to East and West Berlin Tuesday night berated the "do nothing" policy in Berlin.

"Nineteen sixty-one has been a great year—for the Russians," Rep. J. Irving Whalley of Windber, Pa., said. "We would have been better off to have kept Vice President Johnson at home and our 4,500 new troops out of Berlin, rather than bring them in and then do nothing."

Rep. Whalley, a member of the House Foreign Relations Committee, spoke to the Bedford County Council of Republican Women.

"Our policy of making loud noises and backing them with nothing has led to a tremendous decline in our prestige among our allies and in the rest of the world," Rep. Whalley declared.

Another speaker at the meeting, State Senator Stanley G. Stroup, R-Bedford, turned his fire on the Lawrence administration in Harrisburg.

Sen. Stroup accused the administration of "willfully killing the education program in the 1961 Legislature by a variety of delaying tactics."

Five Pilgrim Women Are Responsible For Thanksgiving As National Holiday

By JOY MILLER
AP Women's Editor

If it hadn't been for a handful of women who never let their better judgment interfere with what they set out to do, Thanksgiving might not be a national holiday.

It might not have taken place at all.

History books usually make the first Thanksgiving sound as festive and uncomplicated as a backyard barbecue before Pop became a gourmet chef.

The Pilgrims, in their devout way, and the Indians, in their aboriginal way, whooped it up for three days in celebration of a bountiful harvest.

But who was doing all the work of serving a continuous round of vittles to 50 Pilgrim men and about 90 Indians?

Five wives.

Of the 100 Pilgrims who landed in November, 1620, only half survived the first terrible winter, And of that surviving 50, only five were women. It seems pretty obvious that the wives and mothers, with their share of rations already at starvation point, had denied themselves so their families could have a little more.

INDIANS WERE DELIGHTED

When the next fall came, and the larder seemed pleasantly full, the Pilgrims (undoubtedly the men) decided to have a Thanksgiving feast. And as guest of honor they invited the chief of the friendly Wampanoag Indians.

Chief Massaoit was delighted to come. Probably thinking the occasion was a white man's version of the Indian's Green Corn Dance, he brought along 90 braves.

When the guests, who so completely outnumbered the hosts, arrived, the Pilgrim women understandly could have put down a sensible foot and nipped a 340-year-old tradition in the bud.

But the hardy colonist women rose to the challenge. While the men played games and exhibited their athletic prowess, and Miles Standish marched and countermarched his little band of soldiers, occasionally shooting blank volleys and blowing bugles for the entranced Indians, the women:

Broiled venison and turkeys and geese on spits.

Roasted lobsters and oysters in coals.

Simmered clam chowder and venison stew in iron kettles over outdoor fires.

Set out dried summer fruits — gooseberries, strawberries, cherries.

Parched corn made biscuits and bread.

MADE POP CORN

Possibly popped corn in earthen jars over the fire and then drizzled maple syrup over it to make balls for the few youngsters.

And although the Indians contributed five deer, the women likely watched sad-eyed but uncomplaining as mound after mound of food disappeared. The next winter was to be a very bleak, hungry one.

The only bright aspect: No dishwashing problem. Utensils consisted of a few knives for cutting up meat and a few wooden spoons. The celebrants probably used clamshell spoons and wooden trenchers. Forks were not in general use in America until the late 1600s.

A ROUSING SUCCESS

The Pilgrim women made the first Thanksgiving a rousing success. It remained for another dauntless woman to turn it into a national holiday.

Although George Washington set aside a day for Thanksgiving each year, most subsequent presidents ignored it. It was up to the states' governors to declare a Thanksgiving or not, as they pleased.

When Sarah Josepha Hale took over the editorship of Godey's Lady's Book in 1841 she began a campaign to have Thanksgiving declared a national holiday. Through her editorial columns and hundreds of letters written to prominent people over the years, she waged an unceasing fight.

It was President Lincoln who succumbed to her vigorous onslaught. In 1863, in the midst of the Civil War, the nation paused to observe a national holiday of Thanksgiving It has been an annual celebration since.

WHITE HOUSE BABY WILL BE YEAR OLD DEC. 2

By FRANCES LEWINE

WASHINGTON (AP) — John F. Kennedy Jr. will be one year old Saturday and to mark the occasion his parents are showing him off by displaying his picture.

The two photographs—one of him beaming in his mother's arms and one of him at play—were issued by the White House for publication Monday night.

They are the first full-face views of the President's son to appear in a public photograph since his christening last December.

The pictures were also a forerunner of an expected double celebration, for the Kennedys' two children have birthdays only two days apart Caroline turns 4 next Monday.

RECEIVE 800 CARDS

The White House didn't provide any birthday photograph of Caroline, however. She has been in the public eye much more than her baby brother.

Gifts and greeting cards have been pouring in. So far, the White House reports, more than 800 cards have been received with some 40 gifts including toys and hand-made clothes.

Mark Shaw, the New York fashion and advertising photographer who took the pictures of John Jr., describes him as being "a lovely, bouncy, jolly and happy young man."

Shaw said he made the pictures in the White House Nov. 9 in the upstairs Oval Room of the Kennedy living quarters. It took just a half-hour, but he had to wait awhile becacuse John Jr. was taking a nap.

He weighs 23 pounds, is 30 inches tall and has seven teeth. He also says "ma-ma" and "da-da," crawls, pulls himself up and walks around the furniture.

STILL LOSING FROM '60 GAME OF BLACKJACK

WASHINGTON (AP) — James B. Cash Jr. says he has been fired as deputy commissioner of the Federal Housing Administration because of a columnist's report that he lost $7,000 last year in a blackjack game at a builders convention.

Cash said Monday he had been given the chance to resign when it became known that a column by Drew Pearson reporting the card game would appear Tuesday.

Cash said he refused because he felt a resignation might be construed as an admission of improper conduct — "This I would not concede."

HAPPENED IN 1960

Cash said it happened in 1960 at the convention of National Association of Home Builders in Chicago, before he was appointed to his position with the FHA.

At the time Cash was on the staff of the Senate Banking Committee. He declared Monday night there were no implications the incident could ever "influence my official actions."

In his statement—obtained by telephone—Cash told of the card game and of the $7,000 which he said he didn't have to pay:

"Approximately two years ago a sociable and friendly card game was permitted to reach ridiculous proportions.

LONG AFTER DAWN

"Subsequently, the other party agreed that the whole affair had been an unintentional mistake and that it should be forgotten by both of us.

"I am confident that he had forgotten the incident until it was revived in the press.

"Neither then or since have I had any reason to suppose that anyone would seek to use this incident to influence my official actions or to compromise my position of public trust."

Cash wouldn't identify the other players in the card game, which apparently lasted for hours and wound up, with Cash badly behind, long after dawn.

Seifert Verdict Upheld By Court

A $6,126 jury verdict for A. B. Seifert and Son, Inc., York general contracting firm, was upheld in opinion written by Judge Robert I. Shadle for common pleas court in York.

The opinion, handed down Monday overrules a motion for a new trial for the defendants, Eli D. Bernheim Jr. and Jacques T. Bernheim, trading as Berheim and Sons, Philadelphia.

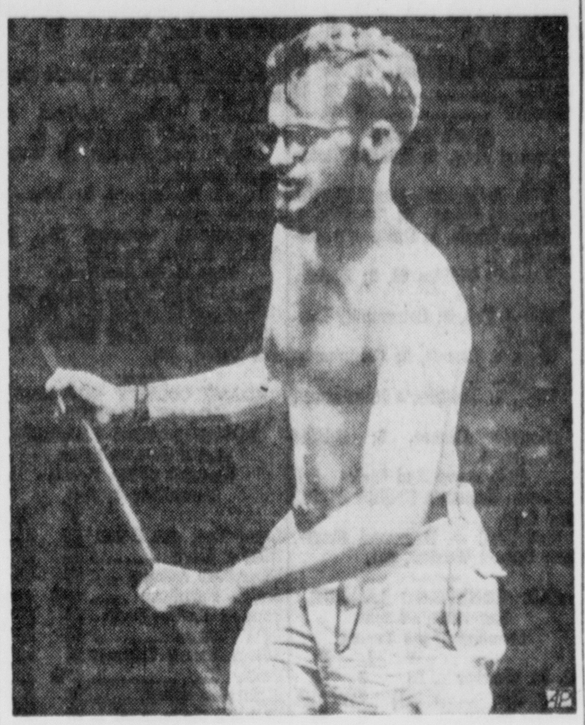

Teh Seifert firm sued the Philadelphia company after the latter withdrew its low bid to supply furniture for a new women's dormitory at Gettysburg College for which Seifert was the general contractor.

Seifert sued to recoved the difference between the amount of defendants' bid and the combined cost of manufacture and installation of the furniture.

Kills His Girl, Then Suicides

CARLISLE, Pa. (AP)—A 25-year-old Cumberland County man shot and killed his girl friend and himself Monday night, a few hours after he had been released from jail for pointing a gun at the girl.

State Police listed the deaths of Marlin W. Bitner and Donna Mae Beam, 21, as murder and suicide.

Officers said Bitner, of Newville R. 1, had been arrested Monday on a complaint lodged by Miss Beam who said he had pointed a gun at her Saturday.

Bitner, an employe of the Letterkenny Army Ordnance Depot at Chambersburg, was released early Monday night on $1,000 bond.

The shooting occurred at Miss Beam's home in Walnut Bottom, South Newton Township, about 10:50 p.m., officers said.

2 ACTORS ARE SLOW ON DRAW; FAST WITH BUCK

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — Two giants of the West are fighting it out yonder in Culver City—bank accounts at 26 paces.

Joel McCrea and Randolph Scott, who have starred in more Westerns than either would care to remember, have finally joined horses in a film, "Guns in the Afternoon."

A reporter could hope that there might be bad blood between them, and so I asked McCrea: "Is it true that Randy Scott is the slowest gun in the West?"

"GUY IS LOADED"

"I don't know about that," McCrea replied quickly, "but I know he's the richest gun in the West.

"The guy is loaded. You know what he does? He plays golf with those Texas millionaires and in the locker room afterwards, they say, 'Randy, we're drilling a new field—like to let you in on it.'

"Hope and Crosby do the same thing; they get in on the ground floor and make a mint. I just happened to be looking into a natural gas investment and a broker told me, 'There's a guy in your business who knows as much about it as anybody—Randolph Scott.'"

I tramped to Scott's dressing room and tried to fire him up. "McCrea says you're the richest gun in the West," I said.

BIG CATTLE DEALER

"Look who's talking," Scott said with a tight-lipped smile. "Why, McCrea is one of the really big cattle dealers. He got in it early and made a fortune.

"And look at the land he's got. He bought up 2,500 acres for a song, and now they're worth a fortune. He just sold off part of it—just a few acres—and he made something like $1.3 million. Just a few acres!"

McCrea confessed: "I've been lucky. I made some dough because I invested in the only thing I know about—land."

So it was a standoff. I couldn't even get them mad over billing. Scott's name goes on top, and he won it fair and square.

"We flipped a coin," said Scott. "Actually, I didn't even know it was happening. We were having lunch at the Brown Derby with the producer, Dick Lyons, and the director, Sam Peckinpah, and I thought they were flipping to see who got the check."

Don't leave lights burning on the tree when away from home and inspect it ofen to see whether it is drying out.

A Lovelier You

By MARY SUE MILLER

JOYOUS THANKS. History records that the Pilgrims celebrated a joyous Thanksgiving. It seems they knew what some of

us have forgotten, that joy shared with others is the outward sign of true thankfulness.

They gathered in everybody—one hundred and twenty in all, ninety of them Indian guests. A huge number indeed, by today's reckoning. And, mind you, the celebration lasted for an entire week, not just a day.

Contrary to popular myths, there was nothing stiff-necked or unbending about it. The settlers were in a festive mood after months of grinding work to bring in a plentiful harvest.

In high spirts they entertained their guests with running and jumping contests. The company feasted on "waterfoule, wild turkey, deer, corn puddings and pompion pie," prepared over outdoor fires.

All this was managed by four women with a "few maidekins" to assist. It must have been a labor of love, if ever there was one. But what fruit it has born in tradition, in a celebration that has become our common heritage.

When the women among us make this day a joyous, festive occasion, they do honor to tradition. But more, they create a custom for warm, gracious relationships in the family circle. And there is a reason for thanksgiving the year through.

U.S. Ship Plows Through 600 Miles Of 10-Foot Ice With Fuel For Antarctic

By FRANK CAREY
Associated Press Science Writer

ABOARD ICEBREAKER GLACIER (AP) — This mighty U.S. Navy vessel today smelled victory in its battle to make history's earliest convoy penetration of the formidable antarctic ice pack and relieve a crucial shortage of aviation fuel plaguing America's scientific task force on the polar continent.

Crashing through ice up to 10 feet thick, the Glacier had only 7½ miles to go to free a pathway for a tanker bearing a million gallons of precious fuel.

Followed by two cargo ships, the Glacier and two smaller icebreakers have fought through 600 miles of ice in the 2,000-mile trip from New Zealand. The commodore of the unit, Capt. Edwin McDonald, a veteran of antarctic exploration, said prospects look excellent for the Glacier to reach its objective almost three weeks earlier than the United States or any other nation has ever ripped out a convoy trail through the thick ice that forms around the continent every winter.

WE'LL CHANGE SCHEDULE

McDonald said the achievement would probably open the way to annual early invasions of the ice pack by cargo ships, greatly reducing the need for expensive and potentially dangerous use of aircraft to get annual summer operations started.

Since late September huge Globemasters have made more than 70 cargo flights between New Zealand and Antarctica, and there have been trips by other planes as well. Getting cargo ships through the ice early will save the Navy hundreds of thousands of dollars a year, McDonald said.

6-MILE HOSE LINE

So critical is the fuel shortage threatening to limit the operations of the American armada of 30 aircraft that a 6-mile-long hose will be stretched across the ice from the mainland to the tanker Chattahoochee when the Glacier rams close enough.

As we stood on the bridge of the 310-foot, 8,6060-ton Glacier with her skipper, Cmdr. Edward G. Grant of Manteca, Calif., the icebreaker pounded ahead in 150-foot thrusts, each time drawing back to two ship's lengths before whacking away with her massive, armor-plated hull.

PENGUINS KEEP PACE

Some 35 miles off the port beam rose Mt. Erebus, Antarctica's only volcano, belching a plume of white smoke. Off the starboard towered the majestic peaks of the Royal Society Range overlooking America's main station on McMurdo Sound.

About a mile astern the Coast Guard icebreaker Eastwind and the Navy's Burton Island widened the path opened by the Glacier. Trailing behind was the Chattahoochee and the cargo ship Mizar.

Twice Monday the Glacier had to back almost a mile to break ice that had re-formed during the night. As she struggled and trembled, a flock of waddling penguins almost kept pace with her. At best, in this tough ice of the home stretch, the Glacier can make only about two miles a day.

MANILA (AP) — Politicians' tempers cooled Tuesday as President Carlos P. Garcia promised to "graciously bow to the voice of the people" and concede the presidential election once he is satisfied that he lost.

All tabulations by government and private organizations of last week's election showed Vice President Diosdado Macapagal of the opposition Liberal party elected president by a wide margin, along with his running mate, Emmanuel Pelaez, as vice president.

club last November and December, months that were considered as the bottom of the recession. "It's evident" said he "that the American people had confidence in the strength of our economy and were ahead of some business and government leaders in anticipating the recovery. After all it took courage to start a savings program when not even national leaders were sure of the economy."

NOT ALL FOR CHRISTMAS

The 1961 accumulation represented savings in all 500 states and the average was $112 per member compared to $110 per member in the 1960 club. A recent survey shows that the total will be used as follows: Christmas purchases, 30%, $453,138,000; savings and investment for future use, 42%, $634,393,200; taxes, 17%, $256,778,200; year-end bills, 5%, $75,523,000, and miscellaneous, 6%, $90,627,600.

The year 1961 marks the 10th successive year that the club disbursement have exceeded a billion dollars and the 1961 accumulation, following the trend of the past several years, is about 3.9% larger than in 1960.

New York led the 50 states with 2,652,959 members and $305,407,064 in savings. Pennsylvania was second with 1,681,195 members and savings of $201,229,371. New Jersey with 1,148,940 savers who saved $154,415,150 shared third place honors with California whose 882,660 savers accumulated $156,231,490.

Fairfield Club Names Committees

Committees for the distribution of food baskets to needy persons and the Fairfield Christmas decorations were announced by President Allen Weikert at a meeting of the Fairfield Lions Club Tuesday evening in the social hall of the Lutheran Church.

Weikert appointed Harvey Walter, Robert Reindollar and Frank Bell to the food baskets committee and the following to the decoration committee: Doyle Rebert, chairman; William Shultz, Kenneth Sanders, James Weikert, Mervin Weikert and Earl Schmidt.

The club donated $5 to the retarded childrens' fund and $5 to the Pennsylvania Lions' Sight Conservation and Eye Research Foundation.

Rev. Edwin Coddington, pastor of the Gettysburg Baptist Church, gave the annual Thanksgiving address.

The next meeting will be held December 5. Thirty-seven members and two guests were present.

Titan Missile Is Fired 5,000 Miles

CAPE CANAVERAL, Fla. (AP)—The first Titan missile launched by an all-Air Force crew successfully flew 5,000 miles Tuesday night and tested a nose cone being developed as a target for the Nike-Zeus antimissile missile.

Air Force troops manned all blockhouse positions as the 98-foot rocket blazed away from the Cape and streaked to a bullseye off Ascension Island.

Previous Titan launches here were conducted by civilian personnel of the Martin Co., which makes the missile.

Data from Tuesday's flight will be used in computing intercept patterns when Zike-Zeus is launched from Kwajalein Island in the Pacific next year in an attempt to knock down Atlas missiles launched from Vandenberg Air Force Base, Calif.

The Atlas nose cones—the actual Zeus targets—will be like the cone which capped the Titan.

Hanover To Build School For 1,000

Tentative plans for a new senior high school for approximately 1,000 students were approved by Hanover School Board at a joint meeting Tuesday night with Hanover School District Building Authority.

The plans, prepared by Hunter, Campbell and Rea, Altoona architects, will be submitted to the state Department of Public Instruction for final approval before construction specifications are prepared.

The building, which is proposed to be erected on a 58-acre tract of land just east of Moul Ave. and adjoining the new Washington Elementary building, will be of one-story construction.

children, pay the costs and file the usual bond.

The nonsupport charge against James H. Ritchie, 10 S. Franklin St., was continued generally following a hearing when it was found that his income was insufficient to permit support. He was ordered to pay the costs.

OTHER COURT ORDERS

Robert Kauffman Jr., Mt. Alto, was ordered to pay $15 per week for support for his wife, pay the costs and enter into the usual bond.

Roy J. Wolfe, York, was directed to pay $22 per week for the support of his children, pay the costs and post the usual bond. No support was listed for the wife when she told the court she would not move to York where her husband is employed.

Clifford J. Sutton, New Oxford, was directed to pay $20 per week for the support of his four children. He and his wife, who now resides in Alabama, were divorced in 1960.

JAILED IN OLD CASE

Eugene Hill, Gettysburg R. D., was ordered to pay $7.50 per week for the support of three children and ordered to pay the costs and post the usual bond.

Raymond Rosenberry was ordered to pay $7.50 per week for the support of a son and the costs, and a prior arrearage was excused.

Frederick White, York Springs, was ordered to pay the costs in a 1954 court case and was recommitted to jail until the costs were paid. White disappeared in 1954. He told the court that he was in Ohio caring for two uncles who had raised him. He then returned to Adams County and was arrested on a process dating back to 1954.

York Springs

MRS. F. E. COULSON

YORK SPRINGS—At the recent meeting of the York Springs WCTU members of the Youth Temperance Council led the devotions. Mrs. Ben Fadenrecht reported on the recent state convention held in Philadelphia. The next meeting will be held at the Methodist parish house December 8 at 7:30 p.m.

The Wesleyan Service Guild of the York Springs Methodist Church will hold a Christmas bazaar, chicken corn soup and bake sale Saturday at the parish house beginning at 11 a.m.

The Lafimore WCTU will meet at the home of Mrs. Ruth Grove Monday night.

The York Springs Thanksgiving service will be held in the Lutheran Church this evening at 7:30 o'clock.

Jack Pearson and family, Chevy Chase, Md., spent Saturday with their aunts, the Misses Hazel and Jean Pearson. They recently returned from an 8,000-mile trip, having visited with his parents, Col. and Mrs. R. W. Pearson, Saratoga, Calif., and his brother, William Pearson, Palo Alto, Calif.

Mr. and Mrs. James C. Behney entertained with a pheasant dinner in honor of their aunt, Mrs. Margaret Franquist's birthday. Other guests were Mrs. Lewis Elliott, York Springs, and Lewis Criswell, Carlisle.

Other discussion at the committee meeting concerned public rest rooms and the borough manager plan for Gettysburg. Atty. Donald Oyler, in charge of the borough manager program, reported that he address a letter to council citing Gettysburg's need for a borough manager and it had been referred to a committee. He said he has received no word to date as to the progress of the matter. He was urged to follow up on the plan.

The committee will not meet during December.

Give Pamphlets On Child Safety

Police Chief Jack Bartlett announced today that 1,500 booklets on child safety are being distributed to students in the elementary and parochial schools.

The booklet, entitled "Official Safety Manual," concerns regulations and safety in all areas, such as fires at home, work and play.

The booklets were made possible through the courtesy of Cliff Arquette's Soldiers' Museum; Moose Lodge; M. A. Hartley and Company; Gettysburg Shoe Company; Avenue Diner; Tobey's; First National Bank of Gettysburg; Varsity Diner; Gettysburg Garment Company; American Legion; Gettysburg Construction Co.; Battlefield Gulf Service; Gettysburg National Museum Inc.; Eagles; Swope's 66 Services; McDermitt Inc.; Bix-Sway Men and Boy's Shop; Lamp Post Tea Room; Agrotors, Inc.; A. R. LeVan and Son; Snyder Body Shop; B. C. Schuchart, Inc.; Stockholm Motel; Teeter's Stone, Inc.

Chief Bartlett several weeks ago distributed pamphlets concerning safety as passengers, and another pamphlet with the "eight don'ts for children."

Completes Army Ranger Course

Lt. James A. Musselman, 21, son of Mrs. P. C. Musselman, 106 Main St., Fairfield, recently completed the eight-week ranger course at The Infantry School, Fort Benning, Ga.

Musselman received training in demolitions, communications, field-craft, survival hand-to-hand combat, patroling techniques and mountain, jungle, swamp and waterborne operations. The training included a 17-mile forced march with full field equipment. He also received instruction at the Mountain Ranger Camp, Dahlonega, Ga., and the Florida Ranger Camp, Eglin Air Force Base, as well as at the Infantry School, itself.

He is a 1957 graduate of Fairfield Joint High School and a 1961 graduate of Florida Southern College, Lakeland, Fla.

stormy 66-day journey, the Pilgrims taking shelter before they sailed across the bay to settle permanently in Plymouth.

It was in the Plymouth settlement in the following year that the first Thanksgiving was held. Friendly Indians introduced the Pilgrims to the turkey, now the traditional staple of the holiday feast.

"OPEN HOUSE"

At Plymouth, there will be the customary open house ceremony with cider and doughnuts served to visitors. Costumed townspeople will re-enact the Pilgrims' armed march to church on that first Thanksgiving in 1621.

In foreign lands around the world, American servicemen will be remembered with holiday feasts. The Pentagon announced that the menu will feature shrimp cocktail, roast turkey with giblet gravy, bread dressing, cranberry sauce, mashed and candied sweet potatoes, buttered peas and succotash, assorted crisp relishes, hot rolls and butter, pumpkin pie with whipped cream or mince pie, assorted fruits and candy, tea, coffee, milk.

New York City expects 1½ million children—of various ages—to line Broadway for the annual Macy's Thanksgiving parade. Millions more will watch on national television networks.

CHARITY DINNERS

The down-and-outers on the Bowery in New York, and along the skid rows of other cities from coast to coast will be treated on the holiday with turkey dinners served by charitable groups.

Special prayers of Thanksgiving will be offered in New York at St. Patrick's Cathedral, the Episcopal Cathedral Church of St. John the Divine, the Jewish Temple Emanu-el on upper Fifth Avenue, and the Salvation Army Memorial Temple on the lower West Side.

Members of the Jewish, Presbyterian and Methodist faiths will gather at the Central Synogogue at Lexington Avenue and 55th Street for the 26th annual interfaith service.

While the rest of the nation feasts on turkey with trimmings, 250 vegetarians will sit down to Thanksgiving dinner at a West 38th Street restaurant, where the menu will feature "vegetable roast."

Either cocoa or powdered (instant) coffee may be added to cream that is to be whipped and sweetened. This combination makes a delectable cake frosting.

Weddings

Zinn—Murren

Miss Anna Mary Murren, daughter of Mr. and Mrs. Eugene A. Murren, Hanover R. 4, became the bride of John R. Zinn Jr., son of Mr. and Mrs. John R. Zinn, Hanover, in a nuptial mass celebrated Saturday at 9 a.m. in the Annunciation of the Blessed Virgin Mary Catholic Church, McSherrystown. The double-ring ceremony was solemnized by the Rev. Francis Lahout. The church was decorated with baskets of yellow and white mixed blooms. Music was furnished by a children's choir accompanied at the organ by Mrs. Bernard Henry. Bridesmaid was Miss Sandra Bolin, Hanover, a cousin of the bridegroom. Gerald Zinn, Hanover, a brother of the bridegroom was best man. Ushers were Jay Smith and Ronald Geisler, Hanover. A reception was held in the McSherrystown Fire Hall at 7 p.m. for 250 guests. The couple will make their home at Hanover R. 4. The bride is a 1961 graduate of Delone Catholic High School and is employed by the Sylvania Shoe Mfg. Corp. in McSherrystown. The bridegroom, who attended Delone High School also, is employed at the Hanover Wire Cloth Co.

Topper—Adelsberger

Miss Carolyn Mae Adelsberger daughter of Mr. and Mrs. Norman H. Adelsberger, Fairfield R. 1, became the bride of Paul Eugene Topper, son of Mr. and Mrs. Roger Topper, Fairfield R. 1, at 2 o'clock Saturday afternoon in St Mary's Catholic Church, Fairfield. Rev. Fr. John McCAnulty officiated at the double-ring ceremony.

The altar was decorated with candles and white mums and ferns. Mrs. William Rombin, Fairfield R. 2, was soloist, accompanied by Mrs. Paul Knott, Fairfield R. 1, organist.

The bride, given in marriage by her father, was attired in a ballerina length gown of peau-satin featuring a low scalloped sleeves. It featured a bell skirt accented with floral appliques. Her only jewelry was a cultured pearl necklace, a gift of tse groom. Her silk illusion finger-tip veil fell from a cap-type headdress trimmed with pearls and sequins. She carried a white mum bouquet with a white rose corsage center.

RECEPTION IS HELD

The attendants were: Matron of honor, Mrs. Melvin Hewitt, Hewitt, Fairfield, sister of the groom; senior bridesmaid, Janet Adelsberger, Fairfield, sister of the bride; junior bridesmaid, Bonnie Flenner, Fairfield R. 2, cousin of the bride; and flower girl, Patti Hardman, Fairfield, cousin of the bride. All the attendants wore a moss green street-length dress and a sequin tiara. Each carried a bouquet of white chrysanthemums.

Lawrence Martin, R. 4, friend of the groom, was the best man. The ushers were Donald Topper Fairfield R. 1, brother of the bride. The ring-bearer was Roger Topper, Orrtanna, nephew of the groom.

A reception was held at the Fairfield community hall immediately following the ceremony. For their wedding trip of unannounced destination, the bride chose a black suit dress with a black, gray and white plaid coat, with black accessories. Upon return they will reside at Fairfield.

The bride is a 1960 graduate of Fairfield High School and is employed as a typist in the Blue Ridge Pipe and Nipple Company, office at Greenstone. The groom is a 1959 graduate of Delone Catholic High School and is employed by I. Z. Musselman, fruitgrower, Orrtanna.

Out-of-town guests were from Baltimore, Emmitsburg, Catonsville, Waynesboro, Gettysburg, Orrtanna, Philadelphia and New Oxford.

and a station wagon were employed when 19 youngsters were injured in August, 1960, near Hoffman Home was discussed as a basis for expectation that there may from time to time be need for use of numerous ambulances at one time.

The emergency setup adopted by Baltimore following two such major disasters was outlined. Baltimore established its emergency setup following a fire in a dance hall, which resulted in 250 persons injured, and a train wreck near Baltimore in which large numbers of persons were hurt.

Dillon and Dr. Stoner in outlining the emergency plan set up for the Warner Hospital said that up to 20 injured persons could be easily handled by the hospital and that additional beds and facilities could be used if more than 20 persons were brought in at one time. One of the emergen- boiler room and the boiler room coridor as an admittance area. Dillon said "we could receive patients as afast as the ambulances could bring them in."

The group meeting Tuesday night decided to name a committee to visit Hanover, Westminster, Carlisle and Waynesboro hospitals to discuss with officials the their plans and facilities so that in event of an emergency direction could be given to prevent "swamping" any one hospital with too great a load of patients.

At CD Director Weaver's request it was decided to name a county ambulance director for Civil Defense purposes and to name area ambulance directors who would be called in immediately in event of major emergency to control disposition of ambulances.

and 1,009 expanded, providing 100,000 new factory jobs.

"GOOD CLIMATE"

Pennsylvania's Department of Commerce is "spending more money for industrial advertising than any other state. The ads in the Wall St. Journal, New York Times and trade journals are bringing in many responses and we have a full time staff providing information to those answering the ads.

"Industrially Pennsylvania is not dying on the vine, far from it. We are making tremendous strides, but the problem is that these gains are not net gains. We are gaining more industry while at the same time automation is cutting the number of jobs. Today we can produce 40 per cent more steel in Pennsylvania than ever before—and we do it with fewer workers. Twenty years ago we had 170,000 miners employed; today we have 20,000. Partially this is because of the decline in the use of anthracite, but it is also due to mechanization in the bituminous coal business where we are producing more coal with fewer men.

"We feel we are creating a good climate for industry. We are in an area where one-third of the nation's population resides. Thus Pennsylvania, this whole area, is attractive to industry; it has the customers. We feel that our system of highways, our railroads, our airplanes prvoide a network for easy transportation. One other important factor considered by industry is the satisfactory living conditions provided for the employes and Pennsylvania has much to offer there.

PRAISES CHAMBER

"I want to praise the Gettysburg Chamber of Commerce for what it has done so far. Your community is limited in the number of workers and money available. But you have done an outstanding job, better than some larger cities which have more potential.

"You have established an Industrial Development Corporation and you are now in the process of establishing an industrial park area. I believe that if your community gives you 100 per cent support you can secure much new industry. It must be remembered however that what your committee is doing is like setting up a store on Main St. When you are getting ready to do business, you have to have merchandise to offer. You are getting merchandise, as it were, when you set up your corporation and your industrial park. You have to have available all other facilities needed by industry, because that too is part of the merchandise you are offering in competition with other 'stores,' and then you have to go out and sell it."

SEE STATE FILMS

James T. Hayes reported on progress of his committee in securing a site for the proposed industrial park. A number of sites is available, he said, but no selection has been made.

Chamber of Commerce President Julian Estep praised the industrial committee for its work so far, but warned, "You cannot become complacent now that your efforts are beginning to pay off."

A movie showing the advantages of Pennsylvania for industry was shown.

Chairman J. Howard Gaines presided at the meeting. The speaker was introduced by Atty. John MacPhail.

carries into everyday action the spirit of Thanksgiving we in America express on one Thursday in every November.

* * *

At this time in Protestant churches throughout the United States, there is being launched the 1961-62 appeal for the Share Our Surplus program carried on for the churches by Church World Service to finance free distribution of U.S. government-donated food supplies to millions of those in need overseas.

* * *

In Catholic churches there is being made the Catholic Bishops' Thanksgiving Clothing Collection—an appeal for wearable used clothing, shoes, bedding supplies, etc., for similar distribution.

* * *

Concurrently the United Jewish Appeal, as the instrument of the American Jewish community, is asking funds to help Jewish men, women and children in need throughout the world, including new immigrants to Israel and Jews in distress in other countries.

* * *

In each of these efforts our people—each through his own faith—has opportunity to give evidence of his gratitude to God for the blessings we in America enjoy.

Each by his response—in the measure of the thanksgiving that is in his heart—will put his gratitude into action that will make millions of others thankful.

What has the United States done to explain and promote its policy on Berlin to other countries?

The United States Information Agency has released the following report on this question:

* * *

The USIA has assigned continuing priority to output in all its media—through films, radio, television and newsreel, materials for press and periodicals, exhibits, pamphlets, libraries and lecture programs—on themes related to the Berlin situation. Purpose has been to inform a worldwide audience of the truth of what has been happening in Berlin and to show how those events relate meaningfully to the lives and aspirations of people everywhere.

The Berlin crisis is "Khrushchev's crisis," manufactured in Moscow. The danger to Free Berlin is a danger to free people everywhere, for it is but one point of continuing any global Communist ambitions. The Allies are united in their determination to maintain Free Berlin, but remain ready to negotiate to prevent armed conflict. The August 13 Berlin sector closing was a stark confession of the bankruptcy of communism in East Germany and dramatic evidence of the irresponsibility and desperation of the Soviet-controlled Ulbricht regime.

* * *

Following is a rundown of what USIA has done and is doing about the Berlin situation and evidence of use and impact:

* * *

The Voice of America, broadcasting over 100 hours daily in 36 languages, has dwelt heavily on Berlin developments in its shortwave news coverage, commentaries and features heard by an estimated daily audience of more than 20 million. "Berlin 1961," a one-hour documentary, was distributed on tap in muliple languages for rebroadcast on overseas medium-wave stations, as was a three-part series, "The Manufactured Crisis" and a seven-part series, "The Berlin Story." In September alone, VOA aired 80 commentaries and features on the Berlin situation in addition to extensive news coverage.

"The Berlin Story" was widely used abroad. It was carried, for example, during peak listening time by the Persian radio stations in Tehran, Tabriz, Meshed, Isfahan and Khorramshahr. Two networks in the Argentine and 16 stations in Bolivia broadcast the series.

President Kennedy's address before the U.N. on September 25 was broadcast live in English worldwide. It was rebroadcast at peak listening times in 35 other languages throughout the world. These broadcasts provided virtually the only means whereby people behind the Iron and Bamboo curtains could learn of the speech, for the Communists heavily censored their own accounts of it. Tapes of the speech were air-shipped to agency posts abroad for placement on local medium-wave stations. The President's earlier Berlin speech, on July 25, was given the same worldwide treatment.

RIAS, the agendy's radio station in Berlin, has been on the air 24 hours a day in medium, short and long wave and frequency modulation, telling the truth to the captive East Germans. Seventy-five per cent of the population of the Soviet Zone is known to listen regularly to RIAS despite Communist efforts to jam the broadcasts. In September the voice of RIAS was further strengthened by the construction of antennas beamed to East Germany to permit a five-fold increase of power at night, and the purchase of four mobile studio units to permit on-the-scene coverage in Berlin.

* * *

USIA has produced seven documentary films and 24 newsreels on Berlin and distributed them in 35 languages to 106 countries.

The President's U.N. address was filmed and 16 mm. prints were air-expressed to 95 countries abroad; a 35 mm. film of the speech highlights, with visual cut-ins to illustrate the President's words, was distributed worldwide in 29 languages. Earlier, the same procedure was used with the President's July 25 speech. Upwards of 900 prints of each of these films are currently in circulation abroad.

* * *

"Journey Across Berlin," a 20-minute documentary providing a comprehensive roundup of the Berlin situation, was released worldwide in 30 languages. Showings have had a great impact abroad. Bolivia's biggest newspaper called it "a sensational documentary," Rome's TV showed it to an estimated audience of five million. In Copenhagen and Reykjavik, leading theaters showed it to widely approving audiences. Mogadiscio called for more prints in Arabic and Italian. Rio reported than 1,400 theaters across the country showed it, called for 15 additional Portuguese prints, said "the demand is fantastic." The film proved so popular in the 2,000-seat Buyuk Theater in Ankara that it was held over for 10 days despite customary change of feature film every five days.

* * *

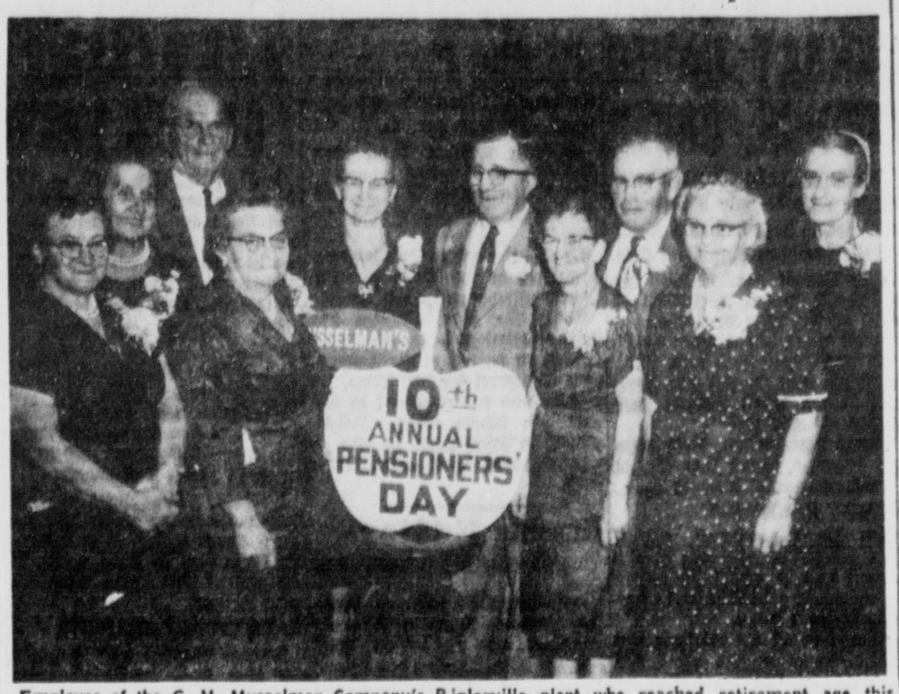

(Editor's Note: This represents about half the work of the USIA on the Berlin crisis.)

THE HAGUE, Netherlands (AP)—It will be a miracle if Michael Rockefeller is found alive, a top New Guinea expert said Tuesday.

A. Boendermaker, 51, deputy governor of Dutch New Guinea, said in an interview the sea canoe trip the American youth and his Dutch companion was making was highly dangerous "because this is a most forbidding coastal strip."

"No one ever dreams of making this trip by sea," he said. "The coast here is virtually unreachable.

"It will be very difficult to spot him if he has reached the coast. Meanwhile he has little to live on."

DIRECTOR OF NSA FORCED TO RESIGN POST

WASHINGTON (AP) — The security director of the National Security Agency, S Wesley Reynolds, has resigned on request of the Defense Department. He was asked to quit under a rule banning acceptance of favors from those doing business with the government.

It was the second high level resignation within the supersecret agency to come to light this week. It also came a day after James B. Cash Jr. was fired as deputy commissioner of the Federal Housing Administration.

Reynolds was asked to resign under the Defense Department's "standards of conduct" directive, the department announced Tuesday.

The directive prohibits employees from accepting "any favor, gratuity or entertainment" from any person or firm doing business with the government. The terse announcement gave no details.

"RATHER MINOR"

"I feel the whole thing was rather minor and doesn't warrant comment," said Reynolds, 47, a former FBI agent. "My resignation largely was voluntary. They felt and I agreed that under the circumstances, we had best part company." He didn't explain what the circumstances were.

The Defense Department said it had acted "upon a lead received from the House Un-American Activities Committee" and "the investigation is continuing."

It was the Un-American Activities Committee that announced Monday that NSA's personnel director, Maurice H. Klein, had been forced to resign on grounds he lied in filling out his job application 12 years ago.

Cuba Suffers From Scarcity Of Food

TAMPA, Fla. (AP) — Cuba is suffering from a scarcity of food, clothing, consumer goods — and enthusiasm for the regime of Fidel Castro, says a young housewife, recently departed from her homeland.

There's a scarcity of everything except informers, the woman told a newsman.

She and her husband, a factory workers, left the country legally several days ago.

SELECT BEST SMALL TEAM

By THE ASSOCIATED PRESS

The all-winning Pittsburg (Kan.) Gorillas, who rolled up 299 points and yielded but 25 in sweeping all of their nine games, were chosen today as the top small college football team in the nation in the final Associated Press poll of the season.

Pittsburg succeeds Ohio University, the 1960 champions. Ohio U. was elevated to major college status this year.

The Kansans were followed in the rankings by four other untied-unbeaten teams. They were in order: 2. Baldwin-Wallace (9-0); 3. Fresno State (9-0); 4. Florida A&M (8-0), and 5. Whittier (9-0). All but Florida A&M have finished their regular season competition.

The final rankings (points figured on 10-9-8-7-6-5-4-3-2-1 basis from first through tenth places; first place votes in parentheses):

1. Pittsburg (Kan.) (5)	70
2. Baldwin-Wallace	60
3. Fresno State	46
4. Florida A&M	42
5. Whittier	34
6. Lehigh	34
7. Linfield (1)	26
8. Southeastern Louisiana	21
9. Lenoir Rhyne (1)	16
10. Butler	13
10. Mississippi Southern	13

Demands Dilworth Statement On '62

PHILADELPHIA (AP) — The chairman of the Republican Alliance has called on Democratic Mayor Richardson Dilworth to announce his candidacy or the Pennsylvania gubernatorial nomination if he plans to seek the office.

In a letter to Dilworth Tuesday, Dr. Robert L. Johnson said:

"If you are a candidate for the gubernatorial nomination, then you should announce it and resign your position as mayor as demanded by the city charter."

Dilworth had no immediate comment. But two weeks ago he strongly indicated he would enter the 1962 race.

BAYLOR GIVEN DEFERMENT AS LAKERS LOSE

By THE ASSOCIATED PRESS

The high flying Los Angeles Lakers breathed a collective sigh of relief today at the news that their scoring ace, Elgin Baylor, won't report for Army service until Jan. 2.

Originally, Baylor, the highest priced star in the history of professional basketball, was scheduled to report to Fort Lewis, Wash, on Nov. 26.

Baylor, who scored 26 points for the Lakers Tuesday night although they dropped a 108-102 decision to the Detroit Pistons, indicated he had appealed his call to active service.

"I do have a wife and family to support and I help my mother financially, too," he said.

OTHER ACTION

In the other NBA games Tuesday night, the Chicago Packers defeated the New York Knickerbockers, 109-107, in the other half of the Los Angeles-Detroit doubleleader at New York, and the Philadelphia Warriors turned back the Cincinnati Royals, 125-118, in Cincinnati.

The Lakers, riding atop the Western Division with a 13-3 record, led most of the way and held an 83-75 margin going into the final period. For the next six minutes they couldn't hit on a field goal and the Pistons went into the lead, 96-87.

Walt Bellamy led the Packers to their victory over the Knicks with 20 points. They had to fight off a last-ditch Knick rally spearheaded by Richie Guerin, who wound up with 47 points.

Wilt Chamberlain, playing with a pulled neck muscle, paced the Warriors with 45 points. The Royals were making a runaway of the game, leading 48-24, when Chamberlain suddenly got hot

41 POINTS SET NEW ABL MARK

By THE ASSOCIATED PRESS

The infant American Basketball League had a new individual scoring record in the books today.

Dan Swartz connected for 41 points Tuesday night to lead the Los Angeles Jets to a 142-119 victory over the Chicago Majors. Connie Hawkins of Pittsburgh and Rossie Johnson of Cleveland shared the old record, 38.

In other games, the Kansas City Steers downed the Washington Tapers, 124-110, and the Cleveland Pipers whipped the Hawaii Chiefs, 91-74.

The Jets had only a three-point lead at the half, 60-57. But in the third period they scored 44 points.

The Tapers held a 55-53 advantage at the half and stayed within hailing distance until the final minutes.

The Pipers took the lead over the Chiefs early in the second period and remained in command all the way.

BERLIN (AP)—The East German regime has built a steel baffle across the highway into West Berlin to keep refugees from crashing through in cars.

The barrier went up Tuesday at Babelsberg, the last Communist checkpoint before West Berlin.

West Berlin police reported there are two steel fences several yards apart. They start from opposite sides of the highway and reach half way across. Cars have to slow down and zigzag sharply to get through.

CHICKEN EVERY SUNDAY UNDER COUNCIL ORDER

ERIE, Pa. (AP)—Chicken every Sunday may be only a saying to most people but it's now a reality for the Lombardi family of Erie.

City council has ordered the Lombardis to eat a chicken a week for the next 28 weeks.

It all came about when neighbors complained that Mrs. Mary Lombardi had turned her backyard into a small chicken farm housing 40 chickens.

James McLaughlin, Erie housing inspector, ruled that all but 12 chickens would have to go.

NEARLY IMPOSSIBLE

But Albert Lombardi, son of Mrs. Lombardi, protested to city council that it would be nearly impossible to get rid of that many chickens in a week.

"They are all old chickens and nobody wants to buy old chickens," he said. "We can't even eat that many in one week."

However, Victor Glembocki, Erie Streets director, emerged with a solution.

"Every chicken gone is an improvement, right?" he asked. "Therefore, if they eat one chicken a week, they could get rid of four chickens a month."

A check will be made to insure that the chickens dwindle in number.

Vice President At PSU Resigns

UNIVERSITY PARK, Pa. (AP) —Pennsylvania State University's vice president for business has resigned, effective Jan. 31.

Dr. Eric Walker, Penn State president, said Tuesday he accepted the resignation of Albert E. Diem with "reluctance and regrets."

He said the university's business operations in the three years o Diem's administration has become "one of the most efficient and most economical in the country."

Diem, a native of Barnesboro, gave no reason for his action. He said he was not prepared to discuss his future plans. Before coming to Penn State in 1958 he was employed by the Dictaphone Corp.

Russian Editor To Get Interview

WASHINGTON (AP) — President Kennedy plans to grant an exclusive interview to Soviet Premier Khrushchev's son-in-law, Alexei I. Adzhubei, editor of the Russian newspaper Isvestia.

The White House said Tuesday for the interview will be Saturday at Cape Cod, where Kennedy will spend the Thanksgiving weekend.

Presidential press secretary Pierre Salinger said he believes no president ever has granted an interview to a representative of the Soviet press.

HELSINKI, Finland (AP) — President Urho Kekkonen left today to meet Soviet Premier Khrushchev in Siberia for discussion of the Soviet demand for Russian-Finnish talks on joint defense against West Germany.

4 ARRESTED FOR PASSING BOGUS $20'S

PHILADELPHIA (AP) — The Bucks County, Pa., prothonotary and three other men have been arrested in connection with passing of counterfeit $20 bills in the Philadelphia, South Jersey and Wilmington, Del., areas.

The prothonotary, Lennox B. Markley, 45, of Bristol Township, Pa.; William Kiefaber, 49, Philadelphia; Samuel Gold, 57, also Philadelphia and Edward Ellis, Clayton, N.J., were arrested Tuesday after a U.S. grand jury handed down secret indictments.

Markley, a Republican who has been prothonotary since 1957 but did not seek reelection in November, was due to leave office at the end of this year when his term expires.

WAVE OF COUNTERFEITS

He was charged with "conspiracy to defraud the United States by possessing and passing counterfeot 20 federal reserve notes" and held in $10,000 bail by Judge Alfred Luongo of U.S. District Court. The other men also were held in $10,000 bail each.

Joseph P. Jordan, special agent in charge of the Philadelphia office of the Secret Service, said the investigation had been underway since last April.

He linked the arrests to the wave of counterfeit $20 bills which flooded South Jersey seashore resorts last summer.

"GOOD QUALITY"

Jordan said the bills were of "fairly good quality."

Jordan did not elaborate as to how the alleged ring operated or the amount of money involved.

After the secret indictments were returned by the federal grand jury Luongo issued bench warrants for the arrest of the men.

Markley and Kiefaber were released in $10,000 bail early today by U.S. Commissioner Edward L. Furia. Ellis also was released in $10,000 bail after a hearing in Camden, N.J.

EX-UNION OFFICIAL

Gold, unable to make bail, was taken to Moyamensing Prison.

Capt. Clarence J. Ferguson o the special investigations police squad in Philadelphia said other members of the alleged counterfeit ring were being sought in Newark, N.J., and Detroit, Mich. He said two prisoners at Eastern State Correctional Institute also will be arrested as members of the alleged ring.

Markley, who earned $6,500 a year as prothonotary, formerly had been secretary of Local 501, United Plant Guard Workers of America. He had been employed as a guard at the Kaiser Metal Products Co. in Bristol. Recently Markley had been under fire from the county's Democratic minority for alleged absence from his office.

3RD OFFICIAL CAUGHT

He is the third elected official in the county to be arrested while in office over the past five years. Russell T. Ferris was convicted in 1956 of embezzlement while in office as a county coroner. Last year Edward Boyer was arrested on charges he received bribes while chairman of the county commissioners. Boyer was acquitted.

Kiefaber was arrested last week in connection with the looting of $100,000 from a food warehouse.

Last August Gold was taken into custody in the theft of some $6,000 in general merchandise from a stolen express truck. Earlier Tuesday Gold was arrested by members of Ferguson's squad on a charge of using and possessing dangerous drugs.

TOKYO (AP) — About 35,000 of the 57,000 Japanese workers on U.S. military bases in Japan struck or 24 hours today demanding a 13.88 per month raise in pay. The union said wages now average $58.31 a month and U.S. officials had offered an average raise of about $4.

HEAT *makes your life easier...*

Short of moving South, you can't do much to prevent weather like this. But—with the help of electric heat—you *can* enjoy easier, safer, more comfortable living all winter long. See your dealer or electrician for the details on these new developments.

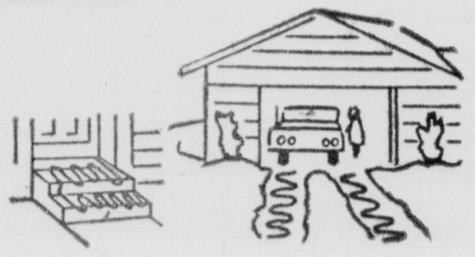

ELECTRIC HEAT *for roof gutters and downspouts*

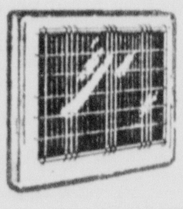

In cold weather, ice dams can cause water to back up and seep through shingles. Result—the trouble and expense of water-damaged walls and ceilings. Electric heating cables, tapes or bands prevent heavy ice and snow formation, and keep channels open for easy drainage. Electric heat is also a helpful way to keep exposed water pipes from freezing. Plug into regular convenience outlet.

ELECTRIC HEAT *for driveways, walks and steps*

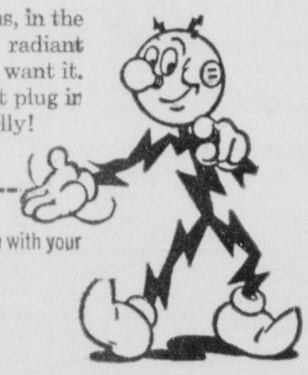

Forget about shoveling snow or scraping ice—stop worrying about icy steps and walks. Electric heating elements, embedded below the surface of your driveway, steps or pavement, can be turned on as soon as snow starts to fall.

ELECTRIC HEAT *throughout the house...wherever it's needed*

It's a simple matter to add electric heat in those hard to heat rooms, in the baby's room, bathroom or recreation room. Baseboard units or radiant panels are easy to install and keep the temperature exactly as you want it. For the garage, workroom or laundry portable electric heaters that plug in any outlet are ideal! Think of electric heat next time you're chilly!

If you'd like to know more about the comfort—and reasonable cost—of heating your entire house electrically, get in touch with your electrical contractor or with us. Our free Advisory Service will bring you all the details, without obligation.

Houses for Sale 93

HERE IS YOUR OPPORTUNITY To own a 3-story house with 2-car garage and large back yard. This 3-story brick building is located at 207-9 Baltimore St. and is the property of the Prince of Peace Episcopal Church. The house is divided into 4 apartments—two on the first floor, one of which is a duplex: one on the 2nd floor and one on the top floor. For the person who would like to live rent free in the city and walk to work, this big house with four apartments offers a grand opportunity for just such living. One apartment could serve as quarters for the owner and the other three let at prices above the standard because of location. Rental from the three apartments would more than meet all expenses pertaining to financing the deal. Also ideal for commercial as well as residence. The church finds it needs more space for Sunday School classes and other activities, so an undercroft to the church is being planned to meet such requirements. If interested in this property kindly call EDgewood 4-1570 and ask for Mr. Reynolds.

Career In Home Economics Makes Good Homemaker, Professional Wage Earner

By MRS. HELEN D. TUNISON
Extension Home Economist

A career in home economics can prove to be one of the most satisfying and interesting to many young girls. In no other area does training equip the girl for a two-fold life — that of homemaker and professional wage earner.

Among the many professional occupations to choose from are: Teaching, extension service, business, institution management, dietetics, research, health and welfare.

To help you decide which of these areas you should choose, consider your personal qualifications. You should possess a strong interest in at least one area of home economics — child development, clothing, foods, home management, home furnishings or household equipment. You must be interested in people and their welfare. You must be able to make wise judgments and have a good sense of what is important in life. You must be intelligent and have a warm personality, enthusiasm and energy. You must be able to get along well with others. You must be able to foresee change and move ahead of these changes.

MRS. TUNISON

CONSIDER YOUR WORK

In narrowing down your decision, consider how you work. Do you like a more routine schedule? Perhaps teaching should be your choice. Are you an organizer? The extension service may be for you. Either of these careers requires a keen interest in people and their well-being. If you have creative ideas or have artistic ability and a flair for promotion, opportunities in business are available where you can work for newspapers, magazines, public utility companies, radio and television stations or with manufacturing firms or retail stories. If your special interest is foods, consider hotel, restaurant or tearoom management. Hospital dietetics will appeal to those interested in food as related to health. Research is a wise choice for a girl who has a scientific and inquiring mind and likes to know the "whys and hows" of things and is prepared to spend more than four years in preparation for a career.

In deciding upon which area of home economics you will choose, consider all factors involved: Work setting, requirements of the job, duties, rewards, personal associations, economic outlook, possibilities of obtaining a position.

MAKING APPLICATION

After you have decided upon a career in home economics and you are somewhat certain of the specific area in which you wish to major, your next step toward a successful career is selection of the college or university you wish to attend. Not all institutions of higher learning will offer the courses you may need, so do some real investigation before coming to a final decision. Talk to people who are employed in the field you have chosen. Visit the guidance counsellor in your school.

When you have learned which schools will prepare you adequately for your career, write to the dean of admissions for a college catalog. This catalog can give you information concerning the history and background of the school, the courses required in your chosen curriculum, scholarships which may be available, extra curricular organizations and activities, information regarding faculty and staff members and fees and expenses.

STUDY SCHOOL CATALOGS

Study the catalogs from several schools even if you have partially decided upon one of them.

When you have reached a decision, write a preliminary letter of application to the dean of admissions, or use the standard printed form included in many of the catalogs. This letter should be written on plain business-size paper and be either typed or hand written in black or blue ink. Be sure to include information concerning your educational background, age, work experience both in and out of school, and don't forget to include your return address.

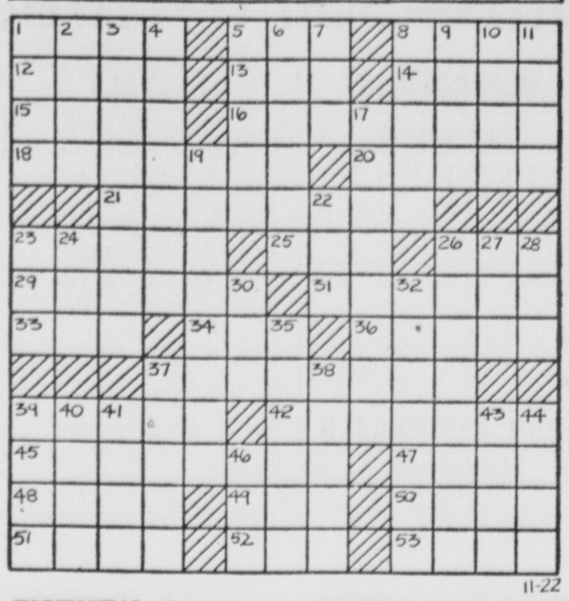

GIVE FULL INFORMATION

It is sometimes smart to also apply to the college which is your second choice, but making application to several is unwise since you may be accepted at all of them. Colleges have quotas and they may turn away other students assuming that you will register and in this way you could be keeping someone else out of the college of his choice.

You will receive several pages of application and health information to be completed. Take care of this immediately and correctly. Be sure to give all the information requested in the form in which it is requested. After your application has been reviewed you probably will be asked to come for a personal interview. This is the college's way of getting to know you personally before you arrive on the campus and it gives you an opportunity to look around and become familiar with the facilities and personnel with whom you will come into contact.

This first application should be made now, early in your Senior year of high school. You still may be accepted if you apply later but do apply later.

NAB COUNTIAN FOR LARCENY

Leon Gerald Little, w6, of Hanover R. 4, Adams County, was arrested by Hanover police Sunday at noon at his home and charged with robbery, larceny and receiving stolen goods involving two Hanover business establishments late Saturday night and early Sunday morning.

Little signified his intention to plead guilty to the charges in York County court when he was arraigned before Justice of the Peace William J. Naill, Hanover. He was committed to York County jail without bail to await court action.

Hanover police charged Little with entering the office of Shriver's used car lot, Hanover, Saturday about 1 p.m. and removing keys for eight cars parked on the lot.

Police said Little moved a compact car from the lot and drove to Steele's Laundry, Hanover, where he broke a window to enter the building and removed three men's jackets, 21 pairs of men's trousers, a shirt and a bag filled with men's socks and handkerchiefs.

According to police, Little placed the articles in the trunk of the compact car and drove to the Centennial Fire Company building, Hanover R. 4, where he parked the car and walked to his home, about a half mile away.

Police stated they recovered the articles and car when they were informed of the parked vehicle Sunday morning and launched an investigation.

Police also accused Little of removing a license plate from a car owned by O. L. Rowland and parked near his home in Hanover to display on the compact vehicle.

YORK, Pa. (AP)—Jack R. Grey of York was re-elected president today of the Pennsylvania Canners Association.

Others chosen at the group's 4th annual convention were:

Ruby M. Mears of York, secretary; D. E. Winebrenner, Hanover; R. H. Pollack, Chambersburg, and E. J. Sharpless, Kennett Square, all vice presidents.

Wrap Gifts Smartly, Carefully

Half the fun of receiving Christmas presents is in admiring beautifully wrapped packages. Fortunately, it's easy to create unusual and pretty packages, and it's fun, too!

Here are a few suggestions for wrapping your gifts this Christmas:

When selecting ribbon for a package, remember to use light ribbons when wrapping with dark paper as dark ribbon would make your package look heavy. Be sure to wrap your package snugly, without bulges, tying ribbons firmly.

The secret of a neat package is in using the right size of wrapping paper to avoid bunchiness. Cut your paper to allow for a 2-inch over-lap lengthwise, leaving the ends approximately 1 inch longer than half the depth of the box. Fasten paper firmly around the box with seals, paste or sticky tape.

If you are using paper with a large design on it, check to make sure the design is showing on the face of the box before you fasten your paper into place.

Once your packag is wrappd, draw ribbon around the box and tie it securely with a square knot. You can vary your design many ways, simply by changing the direction of your ribbon.

The cross-corner-tie is achieved by drawing your ribbon slantwise to top of box, under upper right corner up and over lower right, under lower left, back to your starting point.

The sunburst tie can be made by winding ribbon in parallel bands around your package; cut ribbon, crossing one of loose ends over and under bands; tie, drawing bands together firmly and evenly.

Equally distinctive and smart is a series of bands around the package, or even one band. The simple 2-way tie is used a great deal and is equally attractive.

After you have tied your package, fashion a bow for it. There are many types of bows that can be made easily from ordinary ribbon.

A CHRISTMAS MASTERPIECE—Compose your own dramatic setting for holiday entertaining with fine china, silver, lovely linen and your own creative ingenuity. Use pine branches, bright styrofoam board, multi-colored Christmas balls and white-sprayed pine cones—add tall candlesticks, fine china and your finest silver flatware and hollow ware—and lo, you have the perfect background for your festive foods. The gay color of cranberries, cool celery greens and shiny black olives add taste appeal to your turkey or ham entrees, says Sally Wallace, consumer consultant for Wallace Silversmiths, who created this setting.

The simplest is the shoestring bow. Hold your ribbon by its edges, between your thumb and middle finger, with forefinger behind ribbon to steady it. Form two equal length loops, cut ends slightly longer than loops, trimming ends on sharp slant. Tie a narrower length of ribbon around your bow with a square knot; fasten it to your box. Two shoestring bows tied together form an even lovelier bow.

The "spring" bow is another simple - to - make bow that has many delightful variations. To form this bow, wind ribbon around the tip of your thumb, making graduated loops equal in distance from each other until bow reaches desired size. Continue holding bow firmly between thumb and forefinger as you slip a narrow ribbon through center loop and tie it with a square knot. Spring bows can be used singly, doubly or triply, and in clusters.

If you lack the time or patience to make your own bows, choose from the many lovely pre-tied styles that can be purchased at most stores. They come in all colors and sizes and give a truly professional look to your gift wrapping.

Holiday Cards Now In Many Languages

Foreign-language greeting cards, once available only on a limited basis, now are available for a number of foreign countries.

For example, if you wish, you can send holiday greeting cards in respective languages to such countries as Norway, France, Germany, Italy, Spain, Lithuania, Sweden, Hungary Poland and Czechoslovakia.

The cards are available in many colorful designs ranging from religious motifs to the traditional symbols of Christmas such as holly leaves and candles, church scenes, angels, bells and Christmas decorations — all familiar scenes on American cards — are prominently featured on these foreign counterparts.

Whether the message on the card says "Smagui Kaledu," "En God Jul," or "Buon Natale," it is a universal wish, "Merry Christmas to You."

Evergreens Are Beloved Yule Symbols

"O Evergreen, O Evergreen, how faithful are thy branches." The gaily - decorated evergreen tree has become such a beloved symbol of the Yuletide season in the United States especially and throughout many other parts of the world, that it is even celebrated in song.

The custom of setting up a tree in the home during the holiday season began in Germany. Originally the trees were used in medieval mystery plays, to represent the Paradise tree or "Tree of Life."

When these plays became prohibited in the churches, the symbolic Paradise tree was taken into the home. At first the trees were decorated with white wafers. These gave way to cookies cut in the shape of stars, angels, hearts, flowers and bells. Eventually they were festooned with paper roses, apples, gilded nuts and candies.

The custom was brought from Germany to France by the Princess Helen of Mecklenburg when she married the Duke of Orleans. Another royal marriage was responsible for England's introduction to the Chistmas tree. Prince Albert of Germany, consort of Queen Victoria, decorated trees for his children at Christmastime, and the custom was quickly adopted by the English.

Americans became acquainted with the Christmas tree when Germans emigrated to this continent in 1830. The immigrants followed their beloved tradition of setting up the Paradise tree each Christmas, and soon their neighbors picked up the charming custom.

It has spread until there is scarcely a home, place of business or public spot that does not proudly and gloriously show off a brightly - ornamented tree at Christmastime.

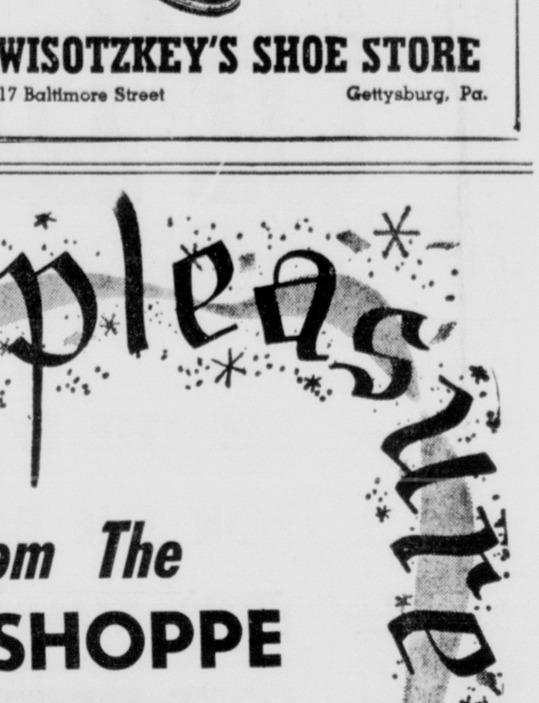

MAKE THIS CENTERPIECE TREE with help from the kitchen. Using a three tier tray as your base, place holly leaves or evergreen on each tier. Put holly and berries inside the center of flexible, golden-metal Kurly Kate pot cleaners — you find them at all the markets — and place the gaily-bedecked pot cleaners on each greenery-covered tier. Top the tier tray with a foil bow or other ornament — and lo, you have a perky, sparkling tree for table or mantel.

Santa's Helper Comes From Viking Story

Thank the Vikings for that jolly elf we know as Santa's Little Helper. In ancient times in Scandinavia, long before Leif Erikson discovered America, little children were told stories of Jul Tomten, a little elf with long white whiskers, who saw to it that the earth gave abundantly of good food and that the animals and birds were taken care of.

When the Vikings became Christians, Jul Tomten became the giver of presents, just as our Santa Claus is today. Children would leave a bowl of porridge on the kitchen table for him, and he in turn would leave gifts for good boys and girls.

Over the years, travelers to the North brought back the legend of Jul Tomten, and eventually he became a part of our own Christmas tradition, as the busy little elf in Santa's workshop.

Turkey Is The "National Bird" At Christmastime

Next to the eagle, the turkey comes closest to being the national bird of Americans! At Thanksgiving and Christmas time, roast turkey traditionally occupies the No. 1 spot on the holiday menu.

A cold roast turkey platter is a favorite buffet attraction with hostesses who like to prepare the party dish a day ahead. Thus they can enjoy the company without the interruption of kitchen duties.

A top professional, Frank Forster, distinguished member of the American Culinary Federation, American Academy of Chefs, tells how he prepares his holiday cold turkey platter. Home cooks who follow his method should score a culinary hit with family and friends.

Here's how to do it—

Wash the dressed turkey thoroughly; season with salt and pepper, inside and out. Rub the whole bird with butter. Place turkey "on its side" in uncovered roaster and put in 350-degree oven. (Chef Forster notes that by roasting the turkey on its side, rather than on its back or face down, the juices are better able to run to the breast bone, keeping the breast meat from drying out).

As soon as the one side is browned, the turkey should be turned over and cooked on the other side.

Chef Forster favors 15 minutes per pound as cooking time. For the final quarter of an hour, turn the breast up in order ot brown it a little more. Baste every 15 minutes during the roasting.

When done, place turkey on platter, slice as desired and store in refrigerator.

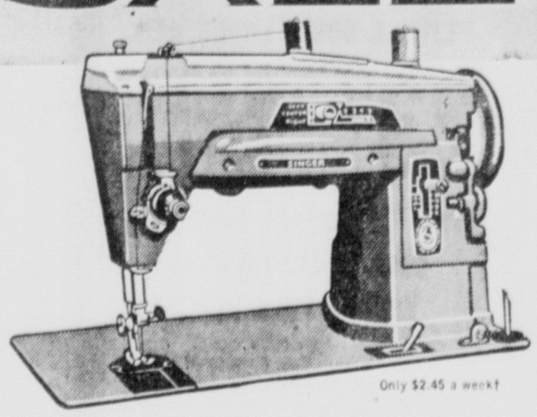

So as not to waste succulent pan juices from the roasting, Chef Forster suggests a zesty gravy to be used with the leftovers (if any) at a later date.

This is his recipe—About an hour before the turkey is one, add one coarsely diced carrot and a large diced onion. When turkey is removed from roaster, place the pan, containing the juices, on top of the stove over an open flame. Reduce the juices, stirring until the fat is cleared. Pour off all the fat. Stir in two tablespoons of flour. Add two cups of broth or water. Simmer for a few minutes and strain.

Have your holiday cold turkey platter, and gravy, too—both delicious.

Pleasing Presents!

For some reason or other, gifts of gloves and Christmas seem to go hand in hand. This year, there's no problem at all in making your selections—thanks to the fit-them-all virtues of new stretch gloves.

You'll find smart styles in string or yarn and leather combinations that are ideal for driving and winter sports, smart leather or suede stretch styles with fur cuffs and lining or soft, supple leathers with knit linings.

For wear with everything this side of formal wear, there are lovely stretchies in crochet-look styles.

For day time as well as date time, there are a host of shorty, 4, 6 and 8-button lengths in everything from stretch knits to stretch satins.

Complementing the season's short-sleeved and bare-arm fashions, the above-the-elbow glove, in most elegant fabrics, wins honors in the s-t-r-e-t-c-h.

DICTIONARY, A GOOD GIFT

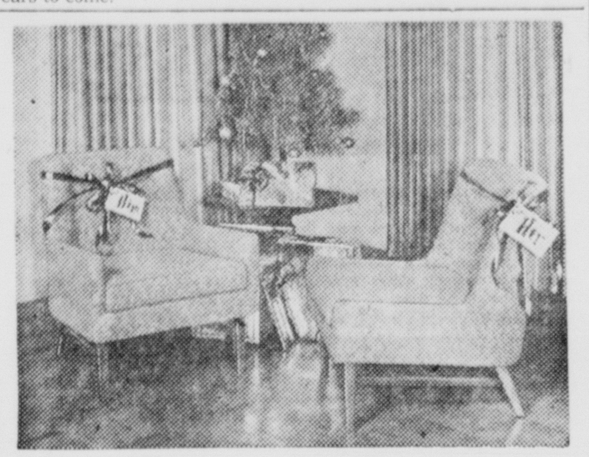

This Christmas may be the strategic time to present your favorite student with the gift of a big, new unabridged dictionary.

Getting the habit of looking up precise meanings of words, says the G. & G. Merriam Company, publishers of the familiar Merriam-Webster dictionary, can give the young student an important boost in his or her education.

An effective speaking and reading vocabulary are basic to top performance in business, as well as in school and social life.

THERE'LL BE A STAR-STUDDED CAST ready and waiting on Christmas morning for you home movie story. The cast, the set and location are always in focus— from a few feet to infinity—with this simple aim-and-shoot Brownie 8 movie camera. In full color or black and white . . . with its cast of stars, you'll screen a real hit for many years to come.

A CHRISTMAS DELIGHT FOR ANY COUPLE are these handsome chairs in a form-fitting, button accented style with fretwork design and covered in richly-textured Chromspun acetate. His chair has upholstered arms, hers doesn't. These chair styles will complement any decor whether modern or traditional.

Some "How-To's" For Xmas Cookie Makers

A cookie press is a wonderful time saver in making clever Christmas cookies, but there are a few hints to follow in order to assure success.

The cookie dough must be soft and pliable. Variations in flour and the size of eggs sometimes make it necessary to omit or add a tablespoon or three of flour. When dough is too stiff, an egg white should be added.

When dough is mixed by hand, it may be necessary to use a bit less flour than the recipe calls for. Do not chill the dough.

Dough may be tinted with a few drops of vegetable color.

The custom of giving gifts at Christmas is traced to the Roman feast of Saturn which was celebrated during the 17th, 18th, and 19th of December.

Dancing Adds Extra Fun To Holiday Party

Christmas, traditionally a family holiday, sees relatives and close friends of all ages gathering to enjoy Yuletide festivities.

To make the holiday extra special this year, plan a real fun get-together with tree-trimming, music and dancing.

There's a greater sense of participation for all if you put off trimming the tree and putting up the decorations until the clan has gathered.

Then every one can join in the decorating jamboree to make it a real event.

After the tree has been trimmed, refreshments enjoyed, then its time for music.

If there's a piano or other musical instrument in the home, then everybody can join in with Christmas carols. Even without musical accompaniment, carols sung by the whole family add meaning to the holiday.

When more active entertainment is indicated, there's nothing better than dancing to put everyone on their toes.

All you need is a little floor space, a source of music and an energetic twosome to start the dancing.

If you've a recreation room, give it a ballroom air with evergreen boughs, lights and ornaments. Or roll up the rug in the living room and let everyone join in.

Because dancing has no age limit, grandparents can join in the fun along with their grandchildren to "dance all night" for an added attraction to the family gathering.

Try These Tricks For Holiday Trimmings

Add gay sparkle about the house this Christmas with holly leaves, evergreens, berries and of all things—pot cleaners.

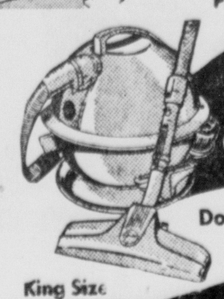

You've seen thse bright-gold-color metal "rings" at your market. They're flexible and can be stretched to any shape. And, you've probably used them at pot washing time.

Now they take on new glamor as they come out of the kitchen to decorate table settings, mantels, holiday wreaths and trees.

The makers of Kurly Kate pot cleaners suggest that you stretch your imagination for novel decoration as you stretch these metallic rings round your punch bowl, glasses, candle holders and big candles. Just add bright berries and leaves to them with glue or pins and you have gay decor notes.

Try slipping the pot cleaners over the branches of your tree, add ornaments to the gay metallic trim and see how your tree takes on extra sparkle to outshine the brightest tinsel.

Casual Shoes In New Styles Now Afoot For Christmas

Put the men on your gift list feet-first into leisure this Christmas with smart, casual leather shoes, suggests the Shoe Fashion Service of Leather Industries of America.

The shoe industry has really multiplied its number of styles, colors and leather textures in footwear—for a man's afterwork and weekend leisure.

Suedes and brushed leathers in colors that range from golden stag and brick red to loden green and rust brown supply a bright color accent to conservative colors like black and char-brown. Smooth leathers are used principally in conservative and dress casuals—brown or black—in both slipon and tie-on styles.

Popular weekend casuals include new brushed leather slipons with elastic goring hidden inside the tongue or visible at the sides to make the shoes snug but easy to put on. Some styles are dressed up with a half-inch band of smooth leather around the collar, while one group substitutes a full collar of elasticized leather for conventional gore.

In the trend to dressier, more conservative apparel for leisure and sports, casual shoes favor trim leather soles which keep a neat, smart outline for the life of the shoes.

Rugged and weather-resistant, leather makes an ideal casual shoe material for cold weather wear. The outdoor leather casual usually has a heavier but flexible leather sole and higher sides or tongues to keep the wind at bay.

At-home shoes—not to be confused with soft slippers—have firm leather soles and cushioned leather insoles and can be worn any number of hours without foot strain. Included are low slipons or high boot styles in glove-soft deerskin and cowhide leathers. Suntan, cordovan, walnut and black are all popular colors.

Both fantasy and realism are significant trends in the stuffed animal section of Toyland. Youngsters may fondle replicas of their favored pedigreed pooches or felines, or cuddle up to fantastic animals inspired by cartoon characters or sheer imagination on the part of designers.

MUSICAL CHRISTMAS GIFTS such as this versatile accordion is a wonderful choice for either a youngster or adult. The fundamentals of music — melody harmony and rhythm come easily with this popular instrument.

Lots To Choose In New Leather Apparel For All

Make the most prized and practical gift for a man's casual winter wardrobe—a warm, masculine jacket of fine leather. In deep shearling lined suede or rugged cowhide, a leather jacket at Christmas will keep him warm and comfortable through the seasons ahead.

Since a Christmas gift should be interesting and attractive as well as practical, look for some of these new styles in leather wear:

Waist-length jackets of all-leather or leather with bulky knit trim have elasticized waist bands; or are boxy with nonelastic bands in dressier styles. Large shearling or wool knit collars that can be worn up to protect the neck and ears are popular on both smooth leather and suede models. Colors range from black leather with black, gray and white trim to loden green, cocoa, tan, cream, silver gray and even pure white.

All-leather suburban coats cover the hips, and some are nearly knee-length. Warmer than ordinary overcoats, these quilted or pile-lined leather coats are snow- and sleet-proof. They're roomy enough to wear over a suit but the right length for driving. Both boxy and belted styles are popular; diagonal flapped side pockets, double breast pockets and double breasted closings are among the new style features.

For Father, the daddy of all apparel gifts is a full-length trench coat in black or ivory leather. It's a continental idea adapted to American tastes. Most leather trench coats show belt and buckle; more sophisticated but equally masculine styles have a self-leather belt without a buckle that ties in a loose knot in front.

PRACTICAL FOR BOYS

Sponge-washable smooth leathers and washable or dry-cleanable suedes have made it possible for practical-minded mothers to gratify their sons' Christmas wish for a leather jacket "like the other kids have."

The newest idea for boys is a grown-up looking leather car coat. In hard-wearing cabretta or cowhide, these hip-length coats are ideal for bike-riding or cheering on the school team. For warmth, pick one with a wool shearling, or a quilted lining. Style details such as toggle closings, slashed knit trimmed pockets and knit shawl collars appeal to young Beau Brummels.

Fine split cowhide is used in new dress-up, double breasted suburban coats for school or Sunday visiting. Lined in shearling or fur, with leather, wood or gold buttons, it's a gift that ranks with electric trains in boyhood popularity.

Flatter Men With Gift Of Jewelry

Jewelry accessories for men make very special gifts, the Jewelry Industry Council reminds Christmas shoppers. Many men hesitate to buy for themselves those tie clips, cuff links, chains and watches that add so much to their appearance.

As vests return to fashion, the pocket watch with all its handsome trappings of pocket chains and knives suggests the ideal fashion gift.

The stylish Continental trend, calling attention to the new ties and shirts, is beautifully accessorized with gold tie clips or tie tacks in unusual designs, often sporting real or facsimile stones and matched to elegant stone-set cuff links.

The handsome traditional look of natural-shoulder fashions suggests some special jewelry accessories in the same fashion mood.

Neat, tiny gold tie tacks or tacks set with a single cultured pearl are traditional companions to knit and foulard ties.

Fine slim jeweled-lever watches, often paired to alligator or other leather bands, are also favorites.

Every man treasures handsome pocket accessories: gold pens and pencils, lighters, cigarettes or cigar cases, fine wallets, pen knives, extra watch bands are all "ideal" gifts for him.

Leather Novelties Suit Most Masculine Tastes

To many a woman with a long male gift list, Christmas is coming fast, but the ideas aren't. All the guys seem to have all the ties, socks, sweaters and mufflers they need.

Here, however, is a run down of personal leather articles, desk and den accessories and other small leather goods that most men like. They're easy to shop for, since there's no size involved, and they have a traditional masculine appeal of leather.

In the cash-carrying category, most men can use a new billfold or wallet. Handsome new variations on the slim breast-pocket wallet or the compact billfold are available in pigskin, grained or smooth cowhide, alligator and lizard. These are often lined with brightly colored patterned silks.

For his credit cards and other identification cards, select a separate card case with transparent acetate "windows." Idea: match it in the same leather as his wallet, and complete the set with a slim leather key case, complete with pocket for driver's license and registration.

For home or office desk, a complete matched leather accessories set is a gift that will add warmth and an important look to his work area.

Practical, prestige-giving accessories include a large blotter-holder, cigarette box, cigar and calendar stand, tobacco humidor and pipe rack, lighter and ash tray, pen and calendar stand, pencil mug, date book or waste basket. A leather cigarette box with a compartment to hold a transistor radio is new. The radio can be taken out and carried in a leather over-the-shoulder case.

All these come in rich smooth leathers in deep antiqued green, maroon, red, indigo, brown, tan or black.

For the lady executive on your list, the same articles come in white and a wide range of feminine pastel colors.

For the traveling salesman or other motorist, a car rest covered in smooth or ostrich-grained leather is handier and handsomer than a glove compartment. It rests on the seat and acts as an arm rest and seat divider. The top opens up on a roomy compartment that holds most small driving necessities.

For play and pastimes — the number of leather gifts ideas reflect the increasing amount of leisure time in today's life.

For the young music-lover: an LP record case, bound in hard-wearing luggage leather, holds up to 50 records in their jackets . . . the chess devotee will treasure any of a dozen different leather cases—resembling attache cases—with beautifully carved ivory or wood chessmen resting in individual felt compartments . . . For card-players: a gold embossed leather case holds two decks, a scoring pad and gold pencil.

For the recreation room, a gift everyone can enjoy is a console game case in luggage leather that includes chess, checkers, roulette, backgammon, cards, chips and other game requirements.

The topmost ornament on a Christmas tree is called a gipfel.

Gay Doorway Give Greeting To Passersby

A most hospitable way to greet all callers at your home during the holiday season is to dramatize your door with Christmas motifs. There are limitless ways to dress up your doorway so that friends and neighbors passing by will be greeted in the spirit of the season.

If your door is painted either red or white, one simple but effective display is to treat your door as though it were a huge Christmas present, gaily wrapped in ribbons and a big bow.

To achieve this effect, simply tack very wide ribbon across your door, both horizontally and vertically. With another length of the same kind of ribbon, fashion a large bow . . . it can either be a very fancy cluster or a simple bow-knot. A few sprigs of holly will complete the Christmas package look.

A spray of evergreens, highlighted with Christmas decorations, also makes a charming motif for your door. To do this, simply cut several well-shaped, small evergreen boughs and wire or tie them together. Fasten your decoration in front of the spray . . . you can use brightly colored glass balls or pine cones for this purpose. Or you might use an ordinary walking cane, wrap it with red and white crepe paper to simulate a candy cane and place it diagonally across your evergreens. Finish off the whole thing with a big bow of red ribbon.

If you have several little boxes around the house, put them to good use as decorations for your front door. Wrap them up in colorful Christmas paper and ribbons, then tie them against a background of greens. They'll make a bright cheerful display to see!

At Christmas, most stores feature pine roping that can be used to trim the lintel and sides of your doorway. A large holly wreath on the door itself will add the final festive touch to this type of display.

Whether you utilize the decorations that you already have on hand to fashion your own distinctive design, or choose your display from the wide selection offered in your local shops, you can be sure that a gaily decorated front door is the cheeriest and friendliest way to say "Merry Christmas" to everyone passing by.

No man can resist that mood when he unwraps his packages and finds it so dazzlingly expressed in a fun-inviting sports shirt, corduroy jacket and slacks set, lounging pajamas with complementing bathrobe, princely slippers or a host of other handsome things to wear.

BEAUTY FOR HER BOUDOIR—Lovely jeweled vanity accessories will be at her fingertips with gifts like these. There are a handy brush comb, tissue box, a cotton duet for dispensing cotton pads and balls and ash tray. For birthdays, etc., match her accessory line-up with a waste basket, lint brush or powder box from the wide variety of pastel, rhinestone-sparkled vanity beauties available.

There's Lasting Beauty In Gift Of Living Plants

A well-rooted Christmas tradition is the thoughtful custom of giving living plants as gifts. From the colorful poinsettia to the sophisticated dracaena, living plants are always welcomed. While some, like the poinsettia, are seasonal, many plants will live indefinitely with proper care.

Here are a few essential tips to aid in the selection and care of potted plants:

Make certain the plant you choose is healthy. Sagging stems or drooping leaves are often danger signals . . . Be sure the plant is in a red clay pot. The natural porosity of a red clay pot helps maintain the proper air-moisture balance of the soil, and safeguards against over-watering.

Keep plants out of drafts, away from radiators, and avoid sudden changes in temperature . . . Test before watering. If the earth around the plant is moist, giving easily under slight thumb pressure, it doesn't need watering.

Each plant species has its individual needs. Your florist or nurseryman can tell you what they are, and in many cases will furnish a printed card of such pointers.

St. Francis Introduced First Christmas Creche

Christmas today would seem incomplete without representations of the stable at Bethlehem, with the Babe in His crib, and figures of Mary, Joseph and the shepherds. Yet the first crib or "creche" did not come into existence until 1223.

It was in that year that St. Francis of Assisi found himself faced with a problem as the holy season approached. In the little town of Greccio, he had been laboring to revive a dead faith in the hearts of its people. So far, he had had no success, and now he cast about for a way to make these people understand the beauty and meaning of Christmas.

He decided to set up the Bethlehem stable scene itself, right in the village church. After receiving permission for this unusual undertaking, he and his followers set to work.

They borrowed animals, hay and wood from helpful parishioners, and invited all the peasants of Greccio to attend church that Christmas Eve.

As the villagers arrived, they were rewarded with a wonderful sight. There, before their eyes, was the story of Christmas.

To the illiterate peasants of Greccio, that simple scene conveyed the message of Christmas far more clearly than all the sermons in the world. This "praesepe," as it is called in Italy, became an annual custom and then quickly spread throughout the rest of the Christian world.

The season that we now know as Christmas was originally a time of pagan rituals. In ancient times, December 25 was the day of the Sun Festival and the twelve days following were devoted to the expulsion of all evil.

During this time, torches were lighted, bells jangled and kettles clattered in a great hue and cry that rose to ear-splitting proportions in order to drive out all wandering witches, ghosts and demons.

Written Message Makes Greeting More Personal

Christmas cards are one of the happy expressions of America's Yuletide spirit, as more than 2,000,000 senders demonstrated last year with beautifully decorated cards that many recipients used in their homes' holiday decorations.

However, no matter how decorative the card, it does not fulfill its real meaning of friendship unless it also carries a personal message from you, says Jerlyn Madison, consumer consultant for the Sheaffer Pen Company.

Such a message should be in your own handwriting, says Miss Madison, and should make recipients feel that you were thinking just of them when you sent the card.

The card's message need not be long, but it should have a feeling of warmth, such as "To remind you that my thoughts are with you this Christmas."

If you are sending many cards, order them early so as to have plenty of time to write your messages, she suggests. Don't try to write them all at once.

Do them leisurely when you have time to think. Make sure that your address book is handy, have a good fountain pen and colored inks—if you like them — to emphasize the Christmas spirit.

If time permits, write a sho newsy note on the back of t card; if you have any new sna shots of you or the family enclo one with the card. These are t little extras that give your Chri mas greetings and card the mea ing it should have.

Kris Kringle is not a Germ term for Santa Claus. The nar is a modification of "Kristkind who, according to German lege is a white-robed angel—a messe ger of the Infant Jesus, bringi gifts to children.

If you burn a bayberry can during the Christmas holida and the candle burns bright a clear, legend says that you w have good luck throughout t year and a long and happy life

MORE TOP NEWS

And, in the exciting topper department, there are a host of dramatic blouses—vibrant or subtle in color—plain or print—tuck-in styled or overblouse—tailored as can be, or wedding-cake fussy.

She'll especially love your selection if you choose it in drip dry or any of the new fabrics that require the barest minimum of ironing and special attention. Yes, you can show her you care with "wash and wear."

LOOK A-HEAD

If the gal on your list has a busy social schedule that includes the theater and dinner parties, then here's a special tip. She will go for one of the little millinery fancies designed for festive occasions.

There are little hats, big in fashion importance, that sit spritely a-top feminine heads. Tiny pillboxes of plumage feathers, slips of beautiful bows clipped with jewels, and petite rings of furs, feathers and fabric fancies—show off in gay circles.

For the gals who concentrate on casual living, there are lots of separates that go together with informal doings. Check out smart stretch pants, "kookie" tunic tops in gay colors, handsome bulky sweaters, whirl-of-pleat skirts, knee-length or ankle-length muu muus or relaxing lounging pajamas.

And on and on the list goes. This is the hinting season, so listen carefully, look around, and you'll surely find the right gift she'll try on for signs of pleasure

GIFTS FOR YOUR SPECIAL GUY in jewelry and accessories. For example, he'll go for a fine gold combination pen and pencil; a good lighter is always welcome as is a combination key chain and knife; an attractive gold-filled mesh watch band if his watch is good; or give him a new automatic-wind watch. Other ideas are two-tone gold tie bar and cuff links set, travel alarm, a fine ring or a religious medal with pin back.

Wonderful New Toys For Girls And Boys

This Christmas, the world of toys encompasses the widest variety of play activities ever.

More than a billion and a half dollars' worth of toys, games and accessories will come from Santa's pack to delight the boys and girls of the nation.

From the latest in scientific developments to Wild West-inspired toys and accessories, atomic-type submarines and the latest missiles will take their place side by side with home furnishings, sport cars, industrial equipment, et cetera . . . all reproduced in miniature, reports Melvin Freud, president of Toy Guidance Council.

Science kits which reproduce famous inventions of the past, such as Alexander Graham Bell's first telephone and Edison's electric light—are included in exciting educational kits.

Dozens of playroom projects based on electronics can help serve as stepping-stones for scientific careers later. Other kits reproduce the manufacture of plastics, and a new zoom microscope that can be adapted to viewing large or small objects will thrill junior biologists and other young folk.

Realism brings a new purpose into play with live action replicas of building equipment, made of heavy gauge steel. New thrills await the operators of a sturdy new mobile crane complete with two hand-operated levers that control the operation of the bucket and that position the boom.

Other new and exciting novelties include a hydraulic sanitation truck; an airlines lift truck, and a ramp side truck, the latest in light delivery trucks. New in the industrial equipment field is an oil refining plant for junior engineers.

The Toy Guidance Council also points to new "toys" which help youngsters prepare themselves for careers in business — learning sales promotion, customer relations, care of stock—even bookkeeping—while at play.

Little homemakers can enjoy the sizzle of bacon in a frying pan or the gay perk of a percolator—in their own pint-sized kitchens.

The new thrills that await electric train operators are too numerous to mention — but there's something exciting and different for every railroader.

There are new musical pianos; a megaphone which can be heard 300 feet away; midget auto racers for indoor speedways, and a host of others.

New showings of Wild West regalia include stage-coach strong boxes with maps and simulated silver dollars; play guns and holster sets for the "fast draw" crowd and an exact replica of the Winchester 94 which was standard equipment in the "Winning of the West."

Confection For Holiday Tastes

For a spectacular Christmas dessert, try a cranberry chiffon pie. It's easy to make, especially when a graham cracker crust is substituted for its 9-inch baked pie shell.

First, dissolve 1 package lemon-flavored gelatine in ½-cup boiling water, and put aside. In saucepan, combine 1 can unstrained cranberry sauce (whole cranberries), 1 T. lemon juice and ⅛ tsp. salt.

Heat mixture to boiling point, then remove from gas range and add gelatine. Stir until dissolved, then chill until it begins to thicken. Beat 2 egg whites until stiff and gradually add ¼ cup sugar. Do not underbeat. Whip separately ½ cup heavy cream, and fold both egg white meringue and whipped cream into baked pie shell or graham cracker pastry shell and chill until set.

Birds Make Unique Gift At Christmas

If you're looking for a really unusual Christmas gift—one which brings lasting enjoyment—try a pet bird. Cage birds make ideal pets for either city or suburban living.

There are many varieties from which to choose, ranging from canaries and parakeets to exotic finches, myna birds, love birds, and even cockatiels and parrots.

Colorful little parakeets are affectionate and playful and readily integrate into family life. What's more, they can be taught to "talk" and to do tricks. Parakeets require little in the way of special attention. A natural feeding diet, complete to the last vitamin, is available in package form at the grocery store.

To really dramatize your gift, select a parakeet in your recipient's favorite color (they come in a wide variety of hues) and present the bird in a pretty cage. If you want to include a booklet on parakeet care and training, write to French's Pet Bird Laboratories, One Mustard Street, Rochester, N. Y., for a free copy.

Slip Slippers Under Tree For Every One In Family

Come Christmas Eve, though stockings may be hung by the chimney with care, early Christmas morning will find everyone in the family with high hopes for gifts of new leather slippers to wear for the morning's festivities.

Once "bedroom" slippers were just that—slippers for the bedroom. Today, handsome new leather slippers in radiant colors with metallic or luster finish are all-important accessories to elegant lounge wear. Glove - soft, smooth and grained leathers, and textured suedes sparkle in a wide range of reds, blues and greens to perk up a hostess gown, or set off brunch coats and fancy lounging pajamas.

Keep the family's foot comfort in mind when you play Santa this season, advises the Shoe Fashion Service of Leather Industries of America. Gift selections will be no trouble at all as every name on your Christmas list can be matched to a modestly-priced leather slipper style just for him or her.

Women's slippers range from flat, tailored versions to prettily-feminine ones in different heel heights. Many have jeweled detailing for added attractiveness.

If you have a lady in the house who looks well in those form-fitting toreador loungers, she'll delight in the new leg-high glove-soft leather slippers that take their inspiration from doughboy puttees, and roll on above the ankle to meet pants cuffs at mid-calf. In antique gold, silver-sheen, subdued greys and boned whites, many have jeweled designs that make these pretty puttees dramatic.

FOR THE GIRLS

Teen-age girls understudy the lady of the house in leather slippers that have the Persian look. Exotic blues and shades of red appear in smooth and grained leather slippers with upturned toes and vamps trimmed with beads and jewels. There's even a lighter interpretation of the Persian look for very young ladies who are fashion-conscious.

FOR THE BOYS

It's nice to have a debonair man around the house, and your own man can be a fashion plate in a pair of handsome smooth leather slippers that set off his Christmas smoking jacket. Soft but masculine leather slippers in natural tan, deep brown or elegant red put at-home ease on a smart footing.

Then, too, there are many masculine - looking warm shearling lined slippers for men and boys in all leather textures. While tans, browns and black remain favored colors, he'll like color mixtures such as brown with black cuffs. Some show texture interest, with complementing colors in brushed leather on a smooth leather slipper.

GIFTS FOR AT EASE—Slippers are perfect footnote to a comfortable Christmas. They spell comfort, ease and smart good looks for everyone in the family. This year's terrific selections point up soft-as-butter lightweight leathers: in moccasin styled slippers for Dad; brilliantly decorated flats for Mom and older girls; beaded Indian moccasins for Junior and real wool shearings for sis.

Diamond Gifts Need Not Be Exorbitant

Put a sparkle in her eyes with a gift of diamonds, suggests the Jewelry Industry Council, pointing out that this Christmas such gifts are within reach of almost every budget.

Today, diamonds are used beautifully and imaginatively in jewelry that highlights their ancient beauty, while keeping the cost within reason.

There are pieces of fine diamond jewelry priced well under $100 that would enchant any woman. A single diamond set in a tiny pendant on a fine gold chain is one example. A single sparkling diamond set like a drop of priceless dew on a fin gold leaf is still another.

One of the most practical luxuries any woman can own is a diamond pin. Many of these pins have special attachments that enable them to be worn as pendants on pearls or a chain. They can be worn in their hair for evening and with almost every type of dress or suit.

In the "king's ransom" category there is extraordinarily beautiful diamond jewelry with a whole new look this season, combining diamonds with colorful precious jewels such as emeralds, rubies or sapphires.

Whether it's a tiny, perfect-cut single diamond or a glittering collection, a diamond gift is sure to lift any woman's heart at Christmas.

The Legends Of Flowers Bloom Anew

Of all the legends and stories that surround the Christmas festival, among the most beautiful are those concerning the flowers of Christmas.

The most popular floral decoration for the holiday season is the spectacular poinsettia It is said to have originated when a poor little girl wished to offer a gift to the Mother of Jesus, and was heartbroken because she had nothing. So, she sadly plucked a few scrawny flowers to present to Mary, as the Mother of Jesus approached her. Suddenly those plain little flowers were transformed into the brilliant red bloom that we know was the poinsettia.

The Christmas rose is also surrounded with a similar legend. In this instance, it was a shepherd maid who wept because she had no suitable gift to lay before the Babe in the manger. An angel appeared to her, and upon hearing why the maid wept, touched the ground where her tears had fallen. Immediately, beautiful white Christmas roses sprang up in their place, and the joyful maid gathered them up to offer to the Babe.

The chrysanthemum is said to have appeared for the first time on Christmas Eve to the Three Wise Men, as they approached the manger. It was a sign that they had reached that which they had been seeking.

The snowdrop is associated with the Virgin Mary, because it is considered an emblem of the candles she lighted on that first Christmas.

Sainfoin, or "holy hay," as it is called, is said to have cradled the infant Jesus, as he lay in the manger.

Classic coat and pullover styles in pajamas top either long or short pants in the Christmas line-up of comfortable, handsome pajamas for the man in your life.

A new range of exciting fabrics help a guy keep comfortable in any weather. And there's a terrific selection in easy-care, light-weight fabrics in all sorts of distinctive patterns and colors.

Polish-Up Your Home For Brigh Christmas Glow

While you are planning to your home in its prettiest garb Christmas, be sure to put a sl on your furniture and floors match the glow of your Chr mas lights.

You Don't Have To Know Size To Choose Fitting Gift

Betty, Mary, Sally or Sue . . . Joan, Jean, Jane or Lou—whatever the names on your gift list may be—no matter what their age or size—there's a wonderland of exciting gifts for each of your leading ladies this Christmas.

Don't let size bewilder you. You can always make inquiries from friends and relatives to secure the proper information. Try to find out favorite colors, too. If you can't get the facts, man, choose from a host of gifts where size and color are not important.

GIFTS SHE'LL WEAR

No gal—sixteen or sixty — has too many pairs of hosiery. Her size problem is by-passed by the wonderful new sheer and semi-sheer collections of stretch-to-fit hosiery — in new and flattering shades.

Lingerie too, can be a simple gift to select since many petticoats, half slips, dusters, robes, gowns and baby-doll p. j.'s come in small, medium or large sizes.

Purse accessories—such as cigarette cases, wallets, cosmetic cases, key holders and organizer kits—come in a wide assortment of fine leathers, beautiful brocades or jewelers' metals

FOR HER BOUDOIR

Every woman loves the elegance of boudoir essentials—such as lovely tissue holders with matching hand mirrors, lotion dispensers and waste baskets.

There are lovely partitioned boxes for dresser top or vanity, to hold jewelry—or sewing essentials—manicure needs and other personal notions.

Or she may welcome see-through shoe and hat boxes that stack neatly and smartly on closet shelf or floor. These handy storage items come in a variety of sizes and shapes to hold lingerie, sweaters, blouses or jewelry. You'll find them in clear plastics as well as in lovely colors.

SOME FINE NOTIONS

To help organize her wardrobe and give her closet a look of elegance, choose handsomely made garment bags, with matching shoe bags and hat boxes.

"Personal size" boudoir chests and shoe chests—chests for closet shelf or 'neath the bed—are also grand gifts for the apartment dweller or the woman who gives up her space for the youngsters in the family.

Some of the many other gifts where personal size is not paramount are jewel boxes and jewelry to put in them; compacts and powder cases; jeweler-designed lipstick holders; perfume bottles in fine crystal, or measured-spray atomizers . . . to name but a few.

Still stumped? Then, how about an elegant pair of gloves in stretch fabrics—or, a gaily-colored scarf in square or oblong shape — or, an exotic muu-muu that's all the better if it's a little bigger—?

If the lady in your life is a sportswoman — then a piece of equipment or accessory for her favorite sport. There are many exciting addenda for the skier . . . from novelty headband or cap to a pair of the latest snow goggles And, so on down the line for the golfer, fisherwoman, tennis enthusiast, bowler, et cetera, et cetera.

For gals who travel—whether on business or pleasure—the gift list is endless: from a new fitted train case to handy packages of cold-water soaps, complexion care packets, dainty clothespins and lines and inflatable hangers.

And so the list grows and grows . . . it takes a bit of thinking and pre-planning to choose "fitting and proper" gifts for the gals you know—but it always helps where size is concerned—that the gift is "properly fitting" without a care or worry as to how tall or how thin or plump she may be.

SHE'LL LOVE THIS luxurious looking hostess robe for her leisure moments. In a fine knit Eastman Chromspun acetate and nylon, the fabric drapes itself into elegantly classic lines.

Dolls Are Now "Almost Human"

This Christmas dolls are more like people than ever before. Any such happy surprises for doting doll mothers as a doll that really kisses with a good loud smack are included in doll collections, reports Toy Guidance Council.

Infant dolls are more embraceable than ever; new adaptations of plastics give a soft pliant quality to arms, legs and neck, characteristic of the newborn baby.

Doll families are real playmate size, with muscular flexibility paralleling real youngsters on the score of agility.

A fascinating array of miniature dolls in the 8 to 12-inch categories are exponents of the latest fashions. New boy dolls, too, are outfitted in ivy league styles.

Nowadays little girls have a wider scope of experience than ever before, thanks to extended travel and TV viewing. In tune with this sophistication in the playroom—dolls, too, are outfitted for a wider-than-ever round of sporting and social activities. They boast airplane style luggage and smart travel costumes, with wardrobes for skiing, ice skating, dude ranch fun, as well as outfits for school and ballroom.

Meticulous detail is lavished on infant doll care kits. These help provide a basic course in baby care which should prove useful for the young doll mothers later in life, reports Dr. Emma Sheeby, chairman of Toy Guidance Council's Educator Advisory Committee.

"FLOPSIE" BABY DOLL is wonderfully life-like, thanks to the use of plastic recreating the floppy arms and legs of real infants, to the delight of little mothers.

Little girls will love the wide variety of doll furniture planned to fit different sizes of dolls. Conventional doll beds quickly turn into auto beds and new luggage is designed to carry all dollies' possessions.

Most spectacular new developments are the child size replicas of home furnishings in fiberboard. A new method of tough interlocking construction makes these bedroom suites and reproductions of the latest kitchen appliances entirely practical for hard play. Beds and vanities and wardrobes are provided to fit the dolls that now have "grown" to be 36 or even 40 inches tall.

CARDS FEATURE NATIVITY

Still the most popular theme for modern Christmas cards is the Nativity scene. Hundreds of interpretations have appeared, many of which are reproductions of the old masters.

ADVERTISE IN THE TIMES

FOND RELATIVES, ESPECIALLY GRANDPARENTS will treasure a portrait photograph of their favorite youngsters. In addition to being a lifetime memento, handsomely framed portrait photographs are winning honors as decor notes for the home.

Pretty Pendants Will Thrill Christmas Eves

The pendant drop necklace highlights this season's jewelry fashions and makes one of the most popular Christmas gifts.

There are enormous pearshaped pearl drops, dramatic jeweled drops or fine gold-tassel drops on the new necklaces.

Give a finished, well-planned look to her costume with a pair of matching drop earrings. The longer, more visible drop earring is right for the ear-covering hair styles and helps to balance the fuller bouffant cuts.

Looking for a very feminine, gay and sentimental Christmas gift? The Fashion Coordination Institute suggests the new, rigid bangle bracelet that carries a single big charm.

The newest bracelet fashion fills in the shortened sleeves on suits and dresses, and is the latest version of the traditional charm bracelet. There's an almost invisible clasp to make the charms detachable and interchangable in an endless assortment.

Helpful Hints For Photographing Your Youngster

Planning to surprise some one with a delightful photo-portrait of your youngster this Christmas? Before you go to the photographer's studio, be sure to follow these helpful rules for the best results.

Arrange to have your child's picture taken early in the morning, or right after his nap. Be sure to give him a snack at home before the sitting, as the slightest hunger pangs may make him restless.

Little girls shouldn't be dressed in ruffles and flounces, as they will only distract from what should be the focal point of the picture, the child herself. Avoid tight curls on your little girl. Little boys should avoid slicked-down hair styles. The camera tends to make such hair styles look too extreme.

Don't frighten or excite your child by stressing the importance of his role. Keep calm and quiet when you get to the studio, and chances are your youngster will follow suit.

Let the photographer take over from there . . . he has the experience necessary to set your child at ease. Above all, don't try to pose the child. Your photographer knows what he wants and he knows the best way to achieve it.

HOW TO HANG PHOTOS

Giving a portrait photograph for Christmas? Then why not include a copy of "Portrait Photographs—The Personal Touch in Home Decor" with it. Published by Eastman Kodak Company, the 16-page color booklet is available free at portrait photography studios or by sending 20 cents in coin to Room 700, 305 East 45th Street, New York 17, N. Y.

"Serving You With Quality Furniture Since '22"

BALTIMORE STREET GETTYSBURG, PA.

Popular Toy Now Is Now In Its Fiftieth Year

Don't bat an eyelash if a robot clanks in to wake you on Christmas morning. It's just a little something Junior put together with his Erector set.

Dad may have fond memories of his Erector bridges and elevators but Junior is more likely to spend his time constructing atomic rocket launchers, walking robots and other miniature reproductions of the space age.

Like the Teddy bear, Erector has remained virtually unchanged since it was first introduced nearly fifty years ago. The only changes have been in the addition of more parts, motors and packaging. Almost anything worth mentioning can be built with Erector, and it has been put to some novel, worthwhile uses.

The first working model of the Bailey Bridge of World War II fame was made with an Erector set. Its more humane uses include serving as part of the first successful heart-lung pump, now in the Smithsonian, and in the construction of an agitator used in cancer research at the University of Minnesota.

This "toy" has also exerted an influence in the choice of career for thousands of scientists. M.I.T.'s Claude T. Shannon, a world authority on electronic computers and cybernetics (the theory and application of control mechanisms, including those of the human brain), first became fascinated with science when he was given an Erector set at the age of eight.

The basis for the success of any toy is whether children like it; the sale of more than ten million Erector sets seems to indicate that boys and girls think it's good fun.

GIVE THAT YOUNG ROCKETEER AN ERECTOR SET FOR CHRISTMAS to encourage his interest in science. He'll enjoy setting up the automatic launcher and revolving radar screen shown here, plus many, many other space projects.

Decorate All Of The House For Holidays

Let the spirit of Christmas pervade your home, with gay, colorful decorations in every room of the house. Instead of confining your display to just the living room, let every room be a cheerful reminder of the holiday season.

Although you will probably want the traditional Christmas tree in your front room, there are many decorations that can be used in other rooms.

For example, in your bedrooms—corner windows with cornices can be used to display-advantage with boxes wrapped in plain tissue paper and decorated with designs cut from last year's Christmas cards. Stack these "presents" along the top of the cornices and continue the holiday theme down to eye level with large bells hanging in front of your drapes, and more packages on the nearest table.

In the hallway—use your hall mirror to reflect the holiday spirit with Christmas candles placed before it. There are many beautiful candles for the Yule season available in local stores.

In the kitchen, even pegboard can achieve a holiday look! With green knitting yarn, make the outline of a Christmas tree, placing tiny bulbs at the point of each branch. If you don't have pegboard, the same design can be fastened on any kitchen cabinet with transparent tape.

Make a ribbon tree as a perfect centerpiece for your dining room table. For this lovely display, cut a 14-inch cardboard circle and cover it with aluminum foil. For the center post use a tall candle or cardboard tube. Attach four ribbon stripes at one side of the base, bring up over tube and attach at other side of base. Decorate it at the top with a bow, and attach glass ornaments to each ribbon.

In any room where you have a fireplace, here's a variation of the stocking - hanging - from - the-mantel theme. Using a child's sock as a pattern, cut felt into various sizes for each member of the family and stitch sides together. Sequins, glitter or any other holiday trim can be attached if desired. Stuff the socks with cards, flowers or candy canes and place them on top of your mantel.

Tiny "trees" in each room will also add to the festive look of your home, and are easy to make. Using Styrofoam block as a base, insert a 13¾ inch knitting needle for the trunk. To form the body of the tree attach glass balls in graduated sizes to the needle with wire hangers.

Colorful decorations such as these, strategically placed throughout your house this Christmas, will serve as happy reminders that "'tis the season to be jolly!"

Say "Merry Xmas" With Photo Cards

A Christmas card can be like a gift—cherished long after the holiday season is over. For a more intimate greeting, your own photography helps make your holiday message original and distinctive.

There's still time to take pictures for your greeting; snapshots need not be elaborate nor even seasonal. They can cover hom, hobbies, family or pets.

Try for unposed pictures. When photographing the family, have them concentrate on something other than your camera. If you want a prop, the simplest is usually the best. For example, a few decorated green boughs — strategically placed—can suggest an entire Christmas tree. Remember, color pictures are particularly effective for Christmas cards.

Take you favorite snapshot, and its negative to your photo-finishers. Select a suitable card from his varied assortment of photo greeting designs, ranging from smart slim-line cards to de luxe folders. Let your photo-finisher handle the details.

SEND PHOTOGRAPHIC GREETING CARDS this year for a more-personalized, unique Christmas message. Snapshots of family, pets or favorite scenes slipped into beautifully-designed special holders will make your card extra-special, extra-welcome.

FOR THE MAN OF THE HOUSE

If winter after winter, Dad faces the familiar sidewalk battle of clearing off the snow—the family's gift to him could very well be a de luxe snow thrower.

This time-and-labor-saving device has a 3 h.p. engine, handle-mounted controls and a reversible discharge chute. It'll be a welcome gift for the family's snow shoveler, says the Dura Corporation, makers of Moto Mower equipment.

It Is Time To Gift Her With A Lovely Watch

A woman's passion for changing her mind or her fashions finds an exciting new outlet in watches this season, and poses exciting gift ideas for Christmas.

Gone are the days when a fine jeweled - lever watch only told time. Watches are now designed to live a showcase life on milady's wrist. They complement her costume and whatever mood or occasion she dresses for. Today, most women need more than one watch to fill all their needs.

The active part of a woman's life calls for a sturdy, fine jeweled-lever watch that can take knocks and wear and come up ticking accurately.

The newest automatic, water-and-shock resistant watches fill this need, paired with bands that stand dish-pan dunking and hard wear.

For daytime wear, the newest precision jeweled-lever watches in free-flowing graceful forms are as attractive as they are practical.

For timely after-dark glamour, watches studded with diamonds or other stones accent any evening costume beautifully.

A watch wardrobe, in whole or in part, is perhaps the gift of all gifts that will combine beauty with function in many a woman's Christmas scheme of things.

TO PLEASE LITTLE GIRLS—A doll stroller made of "Wataseal" vinyl in a star-burst pattern. It is authenticall styled with ample room for a girl's favorite doll and all her accessories. It is collapsible for storage and traveling.

A churchman, John Pierpont, composed the gay Christmas song, "Jingle Bells," which has been popular for over a century.

Greet Advent With Traditional Decor Notes

The season of Advent, which directly precedes Christmas and serves for many Christians as a time of preparation for the coming of the Christ Child, this year begins on December 3. In many Christian homes it is often marked by lovely old customs.

The Advent wreath is one such tradition that is observed while awaiting Christmas. Although it is believed to have originated with the pagan fire wheel, it eventually came to represent the thousands of years the earth awaited the coming of Christ. It bears four candles, each of which is lighted on the four Sundays before Christmas.

Any kind of Christmas wreath may be used to make the Advent wreath and there are many ways to display it. It may be set on a kitchen or dining room table, or suspended by four purple ribbons from a light fixture in the ceiling.

Another delightful Advent custom is the "stir-up" or traditional English plum pudding, which is brought to the dinner table for family and guests to stir. Each guest makes a wish as he stirs. The pudding is then steamed and put away until Christmas arrives. Warmed brandy or rum is added and set ablaze.

These Tasty Cookies Make Delicious Gifts

Cookies—in a variety of shapes, flavors and festive frostings — make wonderfully warm and friendly gifts for neighbors and friends—especially when they're packed in re-usable containers, nestled in colorful shredded cellophane and then wrapped in gay paper and topped with a perky bow.

Containers may be inexpensive straw baskets, spray-painted, or dime-store trays in gay Christmas colors. Use kitchen utensils or apothecary jars. Cookies stay fresh when they are wrapped in aluminum foil or transparent plastic.

Here, from the test kitchens of the R. T. French Company, Rochester, N. Y., are two new recipes to add to your Christmas cookie collection. They can be made in advance and frozen. Take them out of the freezer and into the oven—to solve your very last minute gift problems.

Peppermint Candy Cookies

1 c. butter or margarine
1 tsp. French's Vanilla Extract
½ c. sifted confectioners' sugar
2½ c. sifted all-purpose flour
½ c. nuts, finely chopped

Cream butter and vanilla; gradually add confectioners' sugar, creaming well. Add gradually flour and nuts. Mix thoroughly. Chill while preparing Peppermint Fudge Filling. Shape chilled doug into balls, using a rounded teaspoonful for each. Make a deep hole in center of each and fill with about ¼ teaspoon Peppermint Fudge Filling. Reshape and seal. Place on ungreased baking sheets. Bake in moderate oven (350 degrees F.) 12 to 15 minutes until firm but not brown. While warm, roll them in remainder of peppermint candy-sugar mixture. When cool, re-roll in candy mixture. Store in tightly covered container Makes 3½ doz. cookies.

Peppermint Fudge Filling

½ c. (¼-lb.) crushed pink peppermint stick candy
1 c. sifted confectioners sugar
2 tblsp. (1-oz.) cream cheese
1 tsp. milk
1 drop French's Red Food Coloring

Combine crushed peppermint candy with ½ cup confectioners' sugar. Reserve. Blend together cream cheese and milk until smooth and creamy. Gradually add remaining ½ cup confectioners' sugar, 3 tablespoons of the peppermint candy - confectioners' sugar mixture, and red food coloring. Mix well.

Directions for freezing: Shape and fill cookies, place on baking sheets, cover with plastic wrap or foil and freeze When frozen remove to plastic bag for storage. Bake when ready to use and roll in peppermint candy - confectioners' sugar mixture.

Nutmeg Cookie Logs

1 c. butter or margarine
2 tsp. French's Vanilla Extract
2 tsp. French's Rum Flavor
¾ c. sugar
1 egg, unbeaten
3 c. sifted all-purpose flour
1 tsp. French's Nutmeg

Cream together butter, vanilla, rum flavor. Gradually add sugar, cream well. Blend in egg. Sift together flour and nutmeg: add gradually to creamed mixture, mixing thoroughly. Shape pieces of dough on lightly floured surface into long rolls, ½ inch in diameter. Cut in 3-inch lengths. Bake on ungreased baking sheets, in moderate oven (350 degree F.) 12 to 15 minutes, until light golden brown. Cool. Spread with frosting, mark with tines of fork. Decorate with French's Cake Decorations. Makes 8 doz. cookies.

Frosting

3 tblsp. butter or margarine
½ tsp. French's Vanilla Extract
1 tsp French's Rum Flavor
2½ c. sifted confectioners' sugar
2 to 3 tblsp. cream or milk

Cream butter, vanilla, rum flavor. Blend in sifted confectioners' sugar alternately with cream or milk Beat well after each addition until spread consistency.

Bake and freeze cookies; frost when ready to use.

America gave the world its most beloved Christmas plant—the poinsettia. The plant is a native of tropical America.

DON'T FORGET THE PETS AT CHRISTMAS—Play Santa to the pooch in the family with a gift of a fancy new collar, a brand-new lead or a sweater for inclement weather. A doubly-good gift idea is that of an identification tag with Fido's name, your name, address and phone number on it, says Bob Bartos of the Friskie Research Kennels.

It's The Women Who Buy New Pipes For Their Guy

There's a spirit of peace and contentment in pipe smoking. And at Christmas, the new pipe is usually one of the first gifts a man uses, once he's opened his packages.

According to the Pipe and Tobacco Council, tastes and buying habits of the nation's 18,000,000 pipe smokers are undergoing small changes.

Now, men seem to prefer a set of two pipes, enabling a change of pipes after each smoke. Many new two pipe sets are now available: each pipe different in shape and style.

There are some changes in tobacco tastes also. Often the woman of the house prefers the male to smoke an aromatic blend. Young smokers also prefer aromatic smoking tobaccos. Dad or grandad may enjoy the heavier blends.

Ideal gifts for the young pipe smoker or new pipe smoker are combination packages of smoking tobacco. New smokers like to experiment. The blending kits or combination packages of smoking tobacco thus enable them to mix or blend to suit their taste for adventure.

According to the Council the 18,000,000 pipe smokers in the United States own an average of three pipes each, many of which are purchased by women at Christmas. Pipe smokers always welcome another pipe for their collections.

The Council offers this advice for Christmas pipe shoppers:

Buy name brands or combination packages of pipes and smoking tobacco from a reliable tobacconist, drug chain, supermarket or department store tobacco department.

When purchasing a pipe, consider the man's taste in clothing and his interests. If he is a sportsman — purchase a sandblasted bowl. If he reads a lot, buy him a calabash, which is comfortable for the reader and student. For a taller, thin-faced individual, buy a Canadian shape. A stout pipe smoker would use a pear or apple shaped pipe. Let the clerk show you the proper shape and style to fit your pipe smoker.

Once you purchase a pipe, there are many other gifts you can choose from for other special occasions. These include humidors, pipe racks, reamers and pipe knives, as well as new tobacco blends and many other accessories which are useful and most welcomed by the pipe smoker.

Give Choice BoxOfCigars

If you're stuck for a gift for a man, remember a box of cigars is among the easiest of presents to pick up these days as they are available everywhere. The gift-buyer is only minutes away from a gaily-wrapped remembrance, if he takes a quick look at the guy's favorite cigar label or box name.

A gift of cigars is good too, for the business man who does not smoke them, but likes to keep a supply on hand for his business associates who do.

If there is uncertainty about Dad or Grandpop's or Uncle's preference, the gift-buyer can successfully "guess - timate" Dad's pleasure, from among a choice of these popular types: Perfecto — medium in length, shaped at both ends—suitable for the regular all-day smoker. Panetela — straight and slim—for the younger man. Corona—large, long cigar—for relaxing after dinner and TV-watching. Cigarillo-type — pencil-thin, short cigar—for young smokers, or for quick enjoyment by all smokers between larger cigars.

Gifts For The Home Glow In New Leathers

Some gifts are personal; others, a family affair. Gifts for the home —that add color, warmth and comfort—are usually enjoyed by the family.

Handsome, luxurious, leather-upholstered furniture heads the list of major Christmas gifts. An occasional chair of leather, a love seat or even a full-size sofa is a versatile asset to any home. Leather fits in with almost any decor, period style or contemporary.

Now there are more than 500 colors available in leather upholstery; leather wears longer than most furniture coverings—its colors mellow with age.

Apricot, pink, flame, gold, burnt orange, lilac, and combinations of black and white, blue and green, and purple and green are just a few of the new colors in leather upholstery.

In soft, feminine no-glossy leathers or in sturdy masculine leathers—there are smooth and plain surfaces or tufting, quilting, stitching, embossing or trapunto decoration.

You'll find a selection of Swedish - influenced modern furniture featuring leather seat and back cushions with natural, blond and light walnut frames. Especially popular for dressing up family or TV rooms is the long casual leather-and-wood or leather-and-cane sofa.

For more traditional tastes, there are elegant period pieces combining antiqued leather with gracefully carved walnut, mahogany or ebony wood frames. There are baroque and regency pieces in delicate-appearing but hard-wearing white leather with gold trim and gold wood.

Prized leather chairs or sofas in the home can be accessorized with coffee tables or end tables topped with matching inlaid leathers. There are also hundreds of beautiful leather lamp bases, table lighters, cigarette boxes, book ends, as well as leather-and-bead curtains, wall coverings and even decorative leather wall plaques to please leather lovers at Christmas.

A GIFT SET FOR HIM—Whether he's a young shaver or an old hand at the job, he'll welcome this handsomely packaged set of a fine adjustable razor and Foamy shave cream. Both designed for real smooth shaving.

Don't Forget The Pooch At Christmas

If there's a pet in the home, be sure Santa has him on the list for gifts too.

Fido will welcome a new collar, Kitty some catnip in toy form and the parakeet—a bird plaything.

If you plan to buy a new collar for the pooch, here are some things to remember, says Bob Bartos of the Friskies Research Kennels:

Unless you have a long-necked dog of the poodle variety, stay away from extra-wide collars; they make other breeds look ungainly and are often uncomfortable.

The light-weight rolled-leather variety is an extremely comfortable collar for most breeds. If fitted properly.

The chain type or "training" collar is also a good collar for dogs, and smooth edged, flat leather types are generally comfortable, too.

Choose one fun collar for your pet for "dress up occasions" in rhinestones, velvet or bright stone studs.

Cats want to join in the holiday fun too. And, there are dozens of imaginative items for Tabby—assorted catnip toys, a catnip rug to roll on, a scratching post, nylon lead or a gaily-colored lightweight collar.

Parakeets are naturally playful birds and they enjoy tinkly, rolly bells, plastic dumbells to carry about, ladders to climb and other fun toys.

December 25 was set as the day for the observance of Christmas in the sixth century.

Children Love Exciting Fun Of Game Gifts

Thought-provoking, educational, competitive and really diversified—the wide variety of games fresh from Santa's pack are all this and real fun, too.

Games of all kinds draw their inspiration from Civil War history, today's global politics, TV show formats, juvenile book classics and big time sports

A new and large group of games is based on strategy. From the pages of history come such novelties as the "American Heritage Game of the Civil War" in which an astute armchair general can achieve a victory for the South. This strategic foray is completely documented by an accompanying outline of Civil War history.

Another game taking maneuvering skill is "Stratego"; its playing pieces are elegantly-decorated figures representing marshals of France from the Napoleonic era.

A topical game—"Summit" —has its players manipulating "foreign aid," conduct drives to obtain spheres of influence and trying to dominate a summit conference. All reminiscent of contemporary headlines.

Games inspired by favorite TV shows are popular: there's a new edition of "Concentration"; "Video Village" which represents a TV show stage; while Deputy Dawg, Shotgun Slade and The Rifleman are heroes in the western game sector.

Every youngster can try to become a millionaire with the new "Game of Life" — developed by Art Linkletter, of radio and TV fame.

Games which reproduce favorite outdoor sports with complete realism are also destined for the best seller list.

Among these are a family skeet shoot set, with targets that go up into the air by the player's foot on a pneumatic device; National Football League Electric Football Game that provides realistic action for armchair coaches; "Fun House" and "Hit the Duck" are typical carnival sports games: each stand five feet high for "more fun than a circus."

From juvenile book classics come such novelties as Babar, the Bobbsey Twins, the Happy Little Train and other favorites—to perform their exploits on game boards.

Books Are Perfect Gifts For Children

When it comes to selecting children's gift books at Christmas, most grown-ups are confused as to what types of books to choose.

Modern children have been conditioned, mainly through television, to enjoy stories about Wyatt Earp, tales of outer space, and hair-raising acccounts of crime an horror—while adults recall their childhood reading of such tales as those about Dorothy from the Land of Oz, Rumplestiltskin and Aladdin.

THE REALM OF READING will beckon children as they learn to love the beautiful verses included in this lovely volume of poetry. "The Looking Glass Book of Verse" offers an unusual variety of best-loved poems from the works of great writers.

Now the publishers of the Looking Glass Library offer the answer—by reviving the children's favorites from long ago, as well as introducing modern stories of adventure, imagination and entertainment—in easily available, inexpensive editions.

Looking Glass Library was aware that along with technological developments and changes in reading habits the desire to enjoy good books does not change—no matter when written or what the subject

In the final analysis, a good book is an important, wanted mainstay of living which starts in childhood and never really ends.

It is a gift that will not break, be outgrown or discarded. The world of literature, at its finest, is the gift that is appreciatively received and remembered by children of all ages.

The Puritan Government banned the celebration of Christmas in England in 1643 in an attempt to do away with all forms of frivolity.

Feast Favorites Around The World

What will you feast on this Christmas? It depends largely on what part of the world you live in, for countries differ greatly as to traditional menus for Christmastime.

In many countries, including France, Ireland, and the Scandinavia countries, goose takes the place of honor at holiday tables. In Scandinavian homes, the tables are also laden with meats and fish during the Yule season

Germans add apple stuffing to their Christmas goose, while the Dutch like theirs with highly spiced dressing and plenty of puddings, fruit cakes, honey cakes and dessert breads.

England serves her beloved roast beef during the holiday season and Latin countries choose lamb for their Yuletide feasts. In Portugal, the traditional dinner has fish and fowl.

And in America, of course, the turkey reigns supreme as the favorite holiday dish.

New Sweaters Easy To Keep New Looking

A perfect gift suggestion to meet the requirements of even the hard - to - please male on your Christmas list could be a "sporting look" jacket or sweater.

Handsome styles, many with convertible hoods, include hidden-zip cardigans, Scandinavian patterns and sculptured knits in solid colors. You'll find jackets and lightweight Dacron linings or fleece-like linings and jaunty turtleneck knits. All are equally adaptable to the campus, city, home or the ski slope.

On the best-seller sweater list, along with nature's own fibers, comes a vast array of man-made yarns and fibers—many of them unfamiliar to the averge shopper.

It's important to realize that these new synthetics not only provide warmth without weight but are completely washable. Even jackets with fluffy fleece-like linings will respond beautifully to modern automatic-washer laundering.

Here are some tips for easy care of sweaters from the Maytag Home Service Department: for light to moderate soil on sweaters, use cold water wash and rinse, regular agitation and a heavy-duty liquid detergent.

Use warm water wash-cold water rinse regular agitation and heavy duty (liquid or powder) detergent for heavily soiled sweaters. If you have a dryer, use the "wash and wear" setting.

Remember to use a fabric conditioner withh the final rinse wate

It will help keep knits and fabrics, fleece and other pile-types as bright, soft and comfortable as the day Santa delivered the sweater or jacket.

For three centuries following His birth, Christ's nativity was celebrated at various times in January, March, April, May, September, and October by Christian groups.

FINGERTIP SPORT COAT in pure wool is the last word in warmth and good looks; features cape shoulders with welt stitching, plus zip-in lining.

Gift Him With Neat And Simple Ties For Xmas

Two words tell the story of neckwear for Christmas choosing—simplicity and neatness.

Those who are shopping for ties to brighten-up a man's wardrobe will discover "simple and neat" does not mean that new cravats are dull, uninteresting or prosaic. The new ties have a really fresh look via the orderly handling of their designs.

New popular panel fabrics have side borders created by either color or pattern—center panels have both bold and controlled motifs, and some ties carry just a hint of pattern working its way into the center section of the tie.

Gifts Of Perfume Always Welcome

A gift of perfume or cologne is a gift that bespeaks your thoughtfulness and consideration of a woman's femininity!

This year's fragrance collections are chock-ful of wonderful excitement! There are gay and lovely containers . . . beautifully fashioned boxes in novelty designs . . . assorted perfume and cologne duos, trios with perfume, cologne and dusting powder or sachet. Yes, from all the famous toiletry houses and perfumeries in the world comes a bright assortment of dainty and sultry fragrances (and tweedy, really masculine scents for the guys!).

UNUSUAL GIFT WRAP

Here's a different way to wrap your Christmas gifts this year! Instead of covering each package with one sheet of paper, try wrapping the lid and bottom of each box separately.

It's easy to do — just secure the paper to the inside of the lid and bottom, on all four sides, with transparent tape.

In this way, your package can be opened without its decorative paper being torn, and afterwards the empty box can be kept under the Christmas tree for the remainder of the holiday season.

How To Make Fruit Cake More Tasty

For a rich, moist fruit cake, baking time and temperature are just as important as the ingredients. Dry, crumbly, flavorless cakes are caused by too-high temperatures or over-baking.

According to Margaret Spader, home service editor for the Gas Appliance Manufacturers' Association, a 2-lb. fruit cake (baked in a 1-lb. coffee can) should bake at 300 degrees for 2¼ hours in a gas oven.

A one pound cake should bake at 250 degrees for 2½ hours. Individual cakes baked in muffin pans will take 30 minutes at 250 degrees.

The legend is that one night, Santa dropped some gold coins down a chimney and the coins fell into a stocking that had been left by the fireside to dry.

Some Sterling Gift Ideas For Christmas

The silversmith's art is having a new and happy upsurge as fine sterling silver flatware finds increasing use in modern living. This new flowering of an ancient art offers some beautiful gift suggestions for Christmas this year.

Modern sterling knives and forks are works of art and things of lasting beauty, as elegant sterling takes its place in today's living. The most advanced styling in today's sterling looks as new as a rocket. Forks may have three prongs, knives may be shortened almost to the shape of a surgeon's scalpel and spoons are squared off.

Some sterling pieces emphasize beauty rather than advanced design. Handles are shaped by skilled artisans, to fit and balance the palm of the hand, to make the new sterling a delight to use as well as to see. Handles are often ornamented with designs as carefully cut as diamonds, to give sparkle and elegance to the gleaming silver.

This Christmas the young homemaker will find place settings of her chosen sterling a memorable gift, while all homemakers will be delighted to receive additional pieces of their sterling.

16 Classrooms Have 3 Walls

CINCINNATI (AP) — Visitors strolling the corridors of Finneytown School get a cutaway view of 16 of the 40 classrooms.

The rooms have been built without a wall on the corridor side, so that passersby have an unobstructed view of everything inside.

"I would call it a controlled experiment," says Telford A. Whitaker, superintendent of the school district.

After discussing the idea with architects, Whitaker said, school officials decided that perhaps ventilation and lighting would be better in open than closed classrooms.

MAY BUILD MORE

The first unit of the campus type school was built in 1958 and officials expect to decide in about three more years whether to continue the open classrooms and perhaps build more of them. If they decide against the open classrooms, present ones can be walled off.

Steady Industrial Prices Keep Cost Of Living From Rising, Says News Analyst

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—Consumers are still plagued by the high cost of living. But one major contributor to rising prices in the past is absent just now. That is advancing industrial prices.

Such prices, in fact, are holding remarkably steady despite the recovery of industry from the last recession. In other postwar recoveries these prices have advanced sharply.

And because of this stability there is a growing hope that the general rise in the cost of living can be held in check this time. Adding to the prospect is an increasing belief that labor cost advances will be moderate in the next few months, perhaps about in line with offsetting increases in productivity.

SOME HAVE WEAKENED

Some industrial prices have weakened during the recovery—notably aluminum and other nonferrous metals. Steel prices haven't risen in spite of all the talk about it a few weeks ago when labor costs rose.

Prices of some building materials have dropped, with excess capacity or changing construction demands credited.

Many other industrial prices are holding in a narrow range close to recession levels.

Industrialists point to this to argue that any recent rises in consumer prices can be laid at other doors.

Services have been the most active risers in recent months. Some say this is a delayed reaction to earlier cost boosts at the manufacturing and labor levels.

COST OF DISTRIBUTION

In general the rise in prices during and since the recession has been traced largely to the added costs of distribution, processing and retailing. The cost of the basic materials have remained fairly steady.

Food is its own story. Its original price is influenced by weather and government supports. After that the processing and distributing costs are added. Often the store price seems far away from the farm price.

But this time at least such creeping advances in the cost of living as have shown up in recent months can't be traced to soaring industrial prices.

In the recovery from the 1949 recession the jump in industrial prices was 15 per cent. After the 1954 recession industrial prices rose by 10 per cent, and after the 1958 slump, 3 per cent.

STABILITY NOTED EARLY

Noting this diminishing percentage and the lack of any jump this time, the Federal Reserve Bank of Cleveland wonders if industrial prices haven't achieved a stability that could even withstand the impact of increasing defense and other government spending.

The price stability was noted well before the recovery period. One of the major disappointments—to consumers at least—was that the cost of living continued to edge higher through most of the recession months. Prices didn't fall just because industrial activity did.

The reason given was that industrial materials might be in less demand but the cost of producing goods and services depended more on other things—labor, convenience processing, transportation, distribution outlets.

But if industrial prices should take a sudden spurt, you'd be sure to feel it in time in your monthly bills. That they are stable now is one happy factor for consumers to note.

FAMOUS DISH OF MACARONI IS RECREATED

VENICE (AP) — An American who started out writing about the heart and ended up writing about the stomach believes he has recreated the famous dish of macaroni which got Casanova out of jail.

Arthur Leonard Louis Levinson thought he had figured out the formula for the dish while researching for his book "The Affairs of Casanova."

He tried it out, with noted Venice Chef Natale Pavan.

They both agreed: Whether it got the great lover out of the prison of the grand inquisition here 205 years ago or not, it still was mighty tasty pasta.

As the old story goes: Casanova was imprisoned in Venice, but found a crowbar and started digging a hole out of his cell. Jailors found the hole, but not the crowbar, and Casanova smuggled it into his new cell.

NO MORE DIGGING

But he was under such close watch he could do no more digging. He whispered with the prisoner in an adjoining cell and the other man agreed to do the digging. The problem was: How to get the crowbar to him.

So Casanova, who was known almost as much for his cooking as for his wooing, talked jailors into letting him whip up a tasty birthday dish for the fellow prisoner. Jailors, of course, could dip in.

When it was done he called for the jailor to carry the bowl to the other cell on a big Bible he had in his cell.

It was hot and brimming full. The jailor's attention was so fixed on not spilling any that he never noticed the crowbar protruding an inch from both sides of the Bible.

In his book Levinson includes the recipe for the sizzling hot casserole of macaroni, parmesan cheese, butter, veal meat balls, tomatoes and a spicy white sauce.

$140,000 DAMAGES

CHICAGO (AP) — A Superior Court jury Monday awarded Clayton Farneth, 51, of Beaver, Pa., $140,000 damages for loss of a right leg in an accident on the Pennsylvania Railroad. The accident occurred at Conway, Pa., while Farneth was a brakeman for the railroad.

HELPED BY STARS

BALTIMORE (AP) — Harry Brecheen, pitching coach for the Baltimore Orioles, says the two pitchers who helped him when he first came up with the St. Louis Cardinals were Lon Warneke and Curt Davis.

Wrap Packages For Mailing With Extra Care

Sending gifts through the mail this Christmas? Here are some suggestions for making sure your package arrives safely at its destination.

First of all, be sure to protect the items you are sending by wrapping them in heavy corrugated cardboard or in a strong cardboard box. Pack the contents of the package tightly; the post office can refuse to accept any package if its contents shift around.

When mailing Christmas cards, be sure to use the correct postage. A Christmas card deserves first class postage, in a sealed envelope with a four-cent stamp. Be sure to put your return address on the envelope, in case the person concerned has moved, or in case you have addressed the card incorrectly.

Protect any fancy wrappings, bow and frills with corrugated cardboard or a swash of tissue paper.

Use strong, plain wrapping paper that is new, tying large or heavy packages with enough twine to encircle the package both ways at least twice. Be sure to use strong twine.

Packages going to foreign countries must be sealed. Domestic mail packages may be sealed, provided they carry the label, "May be opened for postal inspection."

Use two printed mailing labels —one on each side of the package. Print the name and complete address of the person your package is going to, plus your own name and address.

Print carefully and clearly so that those busy people in the post office can read it easily . . . and send it speedily on its way to that friend or loved one.

On Oct. 3, 1941, Hitler announced that Russia was defeated, never to rise again.

WEST LAGGING IN PROMOTING WOMEN RIGHTS

LONDON (AP) — Mrs. Vijaya Lakshmi Pandit of India, who has made for herself a world name in a man's world, thinks the West lags behind the East in giving women equal rights.

"The strange thing is," she says, "that the countries of the East have given women equality, whereas the far more socially advanced countries of the West still suspect their women. . . .

"But I think that there is no question but that as time goes on even the slow-moving West will catch up with us and give women more places of responsibility."

UNPARALLELED CAREER

A living symbol of the twin emancipation of women and of Asia, Mrs. Pandit, now 61, returns to India and a new life of writing and perhaps politics after a long tour as Indian high commissioner in Britain. Her unparalleled feminine career in diplomacy has also included:

India's first cabinet minister, Indian ambassador to the United Nations, ambassador to the Soviet Union, ambassador to the United States, and president of the United Nations General Assembly.

Mrs. Pandit, sister of Premier Nehru of India, succeeded Krishna Menon as high commissioner (ambassador) to London in 1955. She soon created an image of an India where women have an honored place — far from the picture once held of an India where women were chattel fit only to be burnt on their husbands' pyres.

TAUGHT MEN ERROR

Mrs. Pandit says: "Except for some men who found it awfully difficult to accept me as an ambassador, I had absolutely no problems as a woman. I soon taught these men the error of their ways."

About the place of women in life, one of her favorite subjects, she says:

"Women have gained equality, not in the minds of men, but in the factual sense that whenever they are put in a position of trust they fulfill it in a very real way."

The West, she remarks, "treated women more or less like people to be admired and protected."

Indian women today want to be the comrades of their men folk, she says, "but that doesn't mean that she wants to give up her femininity . . . a woman can look very beautiful and hold and do a man's job."

ARE AMERICAN WOMEN BORED WITH HOMES?

By VIVIAN BROWN
The Associated Press

Do many American women work because they are bored with their homes?

A new arrival from Germany, army bride Elisabeth Kriegisch McDonald of New Haven, Conn., thinks so.

The freckle-faced 21-year-old, whose three sisters also married American men, has been in this country six months. But she feels it will be difficult to find women friends who share her point of view—that a home is fun.

"You glamorize work out of the home by emphasizing the advantages of being a career girl," Elisabeth says.

And she notes that women who do not work stay out of their homes as much as possible, abetted in many instances by a second family car.

PREFERS GERMAN WAY

Elisabeth prefers the German way.

"We were taught sewing, cooking, embroidery, laundry, everything about the home in school. German women look forward to having their own homes, even if they must do laundry by hand. Women here talk about their awful household chores and they have more home conveniences than any other women of the world."

If U. S. women were educated to know and enjoy homemaking, the country could wipe out unemployment, Elisabeth is convinced. Her solution: "Get the American women interested in their homes and they will leave their jobs to the men."

As for that second car, Elisabeth says, "Germans are happy with just one car. They don't use a car for every trip to the market."

LIKES GERMAN FOOD

Husband Mike McDonald likes Elisabeth's German dishes — sauerbraten, sauerkraut and red cabbage—and she has learned to eat and enjoy beans and smoked ham. She explains Germans eat pork shoulder or fresh ham.

The couple met in Frankfurt, Germany, when Mike was assigned to military duty and were married a year ago. Now a civilian, 21-year-old Mike works as an automatic teletype operator.

Elisabeth confesses she is homesick for Germany, which may be a factor in her criticisms of this country.

WILL ADJUST LIFE

But she is sure she will get over her homesickness and adjust to the American way of life in about a year. It took her sister Erica that long, she says, and "now she would never go back to Germany except to visit."

GIFTS FOR USE AND PLEASURE come in fine leathers for masculine tastes. A jewel case, slim necktie case, a fitted travel case and an expandable toiletry kit — are but a few of the many diversified gifts available in handsome leather.

CHESTNUT AND SAUSAGE GOOD BIRD FILLING

By CECILY BROWNSTONE
The Associated Press

This Thanksgiving give your turkey epicurean treatment. Stuff the bird with a dressing rich with chestnuts and sausage.

We wavered a bit before we tried this combination because we're addicted to the buttery crumbly dry bread stuffing that's traditional holiday fare in our own and many other households. But at our Thanksgiving dinner rehearsal—yes, we had one!—the chestnut sausage dressing got such a big hand that we recommend it to you with enthusiasm.

A few cautions about chestnuts. To make sure the nuts are in their best fresh state, choose ones that are large and heavy for their size, with shells that are shiny and free from cracks. Store the chestnuts in a cool airy place until you use them.

12-POUND TURKEY

Follow the recipe directions carefully for roasting the nuts. High heat is called for because it keeps the chestnuts from drying out. Make absolutely certain that you slit the nuts well, or they are likely to blow up in the oven—and that's a big nuisance.

This recipe for dressing will do beautifully for a nine to 12-pound ready-to-cook turkey. After stuffing our bird we rubbed the entire outside with soft butter and put the turkey on a rack in the roasting pan. Then at the start of the roasting, we placed a sheet of extra-strength aluminum foil (creased down the center to make it into a "tent") loosely over the bird; this method does away with the usual fat-drenched cloth. You can anchor the foil at one end by pressing it down over the end of each drumstick. But don't enclose the bird tightly, or it will steam instead of roast.

ALLOW LEEWAY

From time to time we basted the bird with the good drippings in the bottom of the pan, using one of those wonderfully handy giant tube-type basters. If you like to use a low (325 degrees) temperature, you'll need to roast the bird at least four or five hours. But allow yourself plenty of leeway because sometimes turkeys have a way of needing an extra hour.

CHESTNUT SAUSAGE STUFFING

1½ pounds chestnuts
3 tablespoons butter or margarine
1½ pounds link sausage (sliced)
¾ cup minced onion
1½ cups hot water
Salt to taste
¼ teaspoon pepper
6 cups soft bread cubes

Wash chestnuts; make long slit through shell on both sides. Bake 15 minutes in hot (500 degrees) oven. Remove shells and brown skin; chop corasely. Melt butter in a large skillet; add sausage and onion and cook until sausage is done through. Add chestnuts and remaining ingredients; toss together lightly. Makes enough stuffing for a nine to 12-pound turkey.

The young McDonalds live in a four-room furnished apartment. "It is all we can afford right now," says Elisabeth, "but it is wonderful to look forward to a little house, our own furniture and some of those wonderful American kitchen appliances.

"Then, who knows, perhaps I'll get bored with so much time on my hands."

Suicide

Capt. Julian Harvey of the ketch Bluebelle committed suicide in Miami, Fla., Friday after learning of the rescue of 11-year-old Terry Jo Duperrault from the ill-fated vessel. Terry Jo's story, released at a Coast Guard news conference in Miami Monday, indicated that Harvey was responsible for the deaths of her mother and brother. Terry Jo told the FBI she saw the bodies of her mother and brother on the floor of the Bluebelle's main cabin. (AP Wirephoto)

YCAZA DOUBLES AGAIN

SARATOGA SPRINGS, N. Y. (AP)—Manuel Ycaza won both ends of the daily double during the first week of the Saratoga meeting. It was the third time this season that the Panamanian rider won a New York double. He did it June 2 and June 30 at Belmont Park.

MANTLE PASSES RUTH

NEW YORK (AP)—When Mickey Mantle hit his 43rd home run of the season (against Minnesota's Al Schroll) it marked the 34th different pitcher he had hit for a four bagger. In Babe Ruth's record 60 he hit 33 hurlers for homers.

Outerwear Is "Really In" For Giving

Outerwear for a man's Christmas 1961 takes on a rugged, practical and thoroughly masculine look, according to the American Institute of Men's and Boys' Wear. The new coats and jackets are sure to be gift-hits with the men on your list.

Ski jackets are made for action—in shorter lengths, and in real shearling and shearling-like man-made fabrics in the longer versions.

High among the short jackets are quilted nylons, some in colors as reserved as navy blue or black, others as bright as the nautical signal flags from which they derive both their color and pattern.

Sueded fabrics, both woven and knitted — many backed-up with pile fabrics — look warm, are warm, and are a hot fashion to boot.

Laminated fabrics with woven or knitted surfaces bonded to polyurethane foam are a sensational development. The laminates are light in weight, as warm as the warmest, and available in a tremendous scope of models, lengths and colors. Water-resistant as well as warm, the laminates offer protection plus.

Many of the quilted jackets are reversible, too. For example, some reverse from slick nylon to Scandinavian sweater knits, others from a light to a dark shade, still others from one fabric to another.

Many jackets come in double-breasted styles—the lapover offering added warmth. There's also a revival of an old favorite — the toggel-fastened duffle coat.

Brand-new and high style in outerwear is the denim "pea coat," lined with either real or simulated shearling. Fine shearling and genuine suede, lined with shearling, are also popular.

Cuff Links Rate

An exciting, greater-than-ever collection of cuff links is waiting to bring an extra touch of elegance to the discriminating man's wardrobe.

Then, of course, there are tie clasps to match. A visit to a men's store will show you a never-ending variety of jewelry for the man on your list. Look for matching belt buckles, key chains, too.

In Sweden and Norway both, birds are given special remembrance. A choice sheaf of grain is placed on a pole or on fence posts . . . bits of suet are hung on the trees—for a gala Christmas treat for the birds.

NEW FOILS AND PAPER MAKE GIFT WRAPPING EASIER AND FUN! Time-savers such as these cutter edge boxes, continuous length rolls and king size folds of wrapping papers, supplemented by a wide selections in tags, seals and ribbons, now make Christmas gift wrapping a pleasure instead of a chore.

Wassail Bowl Adds Spice To Holiday Party

The brimming wassail bowl is an ancient and gracious custom, certain to add extra good cheer and friendliness to holiday entertaining.

Made of hot, spiced wine, this fragrant Yuletide drink is redolent with the season's joyful spirit. The gleaming silver or glass bowl becomes a festive focal point where the guests gather.

Easy to prepare and exciting to the palate is the California Fine Wines Wassail Bowl, fast becoming a favorite at Christmas parties 'round the country.

For Fifty Servings: Cover ¼ pound of whole cloves and ¼ pound of stick cinnamon with three quarts of water. Bring to a boil, but DO NOT BOIL. Simmer for one hour. Remove from fire and strain. To one quart of this spiced base add 3½ cups of sugar. Stir over low heat until sugar is dissolved.

Add 5 (4/5 qt.) bottles California Burgundy (or Pinot Noir, Gamay or Zinfandel), and 1 (4/5 qt.) bottle California Port.

Heat to a boiling point and serve in punch bowl garnished with lemon slices.

Gifts of flowers, plants and decorative greens are always expressive of the Christmas spirit and, no matter what other gifts may be given and received, a floral gift adds a warm and most personal extra touch.

Green Trees Is Yule Symbol

This year, approximately 43 million "live" green trees will go into American homes to be gaily bedecked with ornaments, lights and glitter for the holiday season. Today, as in years past, Christmas isn't Christmas without a fragrant, lovely tree.

Now Christmas tree growers are combining efforts under the American Tree Council to further the use of the traditional green, live tree. Not a preservation society, this organization seeks to further the spirit of Christmas through wider use of nature's own and inimitable live green tree.

Through impressive accomplishments in American industries, countless substitutes and shortcuts for modern living have come into their own. But as W. W. Dambach, chairman of the American Christmas Tree Council, points out, "There is NO 'instant' Christmas, simply because there is no substitute for the real thing . . . the live green Christmas Tree stands at the heart of our Christmas celebration—in the home, in the church and in the community."

The live green Christmas Tree stands in history as a religious symbol; its fragrance and beauty are the essence of the true meaning of Christmas.

Show Holiday Furs Properly

This is a fabulous fur season. Fur is everywhere . . . great collars of fur on coats, wedding rings of fur on suits, accents of fur on dresses and more fur on sweaters.

Furs too, perch atop the head in pert hats, down the back in boas, over the shoulders in capes, stoles, jackets and coats.

And, you'll be up to your neck in fur with new glamor accessory collars and scarves.

Nothing shows off a fur better than a pretty complexion. And, whether you wear a lavish mink stole or just a luxury touch of white fox around your neck, be sure your neck and face are pretty.

Cleanliness is, of course, the basis of every beauty program reminds the Dial Soap Research Laboratories; to keep skins young, fresh-looking and ready to show off pretty furs, daily skin care is essential.

A two-minute fingertip facial, with a deodorant soap with antiseptic ingredients, helps prevent the spread of blemishes and keeps the skin bright. (This is especially important for teens.)

Lather your face well, then massage gently, especially around the nose and mouth. Rinse thoroughly with alternate splashes of warm and cool water until suds are gone. Pat dry.

Make proper cleansing a regular habit and you'll have a pretty complexion to set off your holiday furs not only this year, but for many Christmases to come.

NEW TOY TRUCKS EMPHASIZE REALISM FOR UP-TO-DATE YOUNGSTERS. Representative of the demand for authenticity in toys are these 1961 models in heavy gauge steel. Pickup truck's side drops neatly for easy loading and unloading. Airlines lift truck looks just like the real thing.

Always Right For Man's Gift

Rings are the oldest forms of jewelry. For many centuries rings were used to denote the station and rank of the wearer. This year, you can show your favorite guy just how he rates with you—just give him a ring this Christmas.

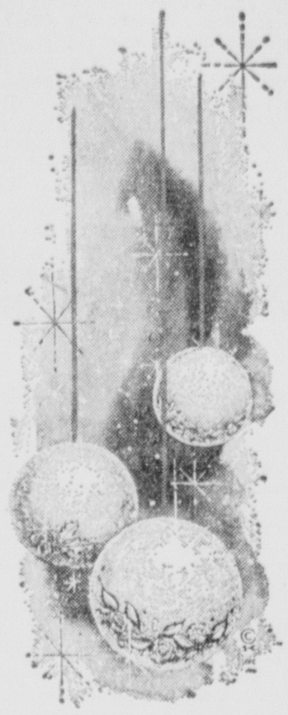

Rings have returned to fashion favor, reports the Jewelry Industry Council, and points out that there's a wide, wide variety from which to choose.

Your choice may be an insignia ring of his favorite business, fraternal or scholastic organization; a signet ring or ring bearing his initials in open letters or engraving; a birthstone, carved hematie, onyx, star sapphire or ruby—or a diamond—all in rugged stylized settings.

Whichever you choose, your gift of a ring will surely be worn with pride this Christmas and in the many years to come.

In 1975 Marriage Will Bring New Role In American Life

DALLAS, Tex (AP) — In 1975 marriage will emerge like a butterfly from its cocoon of outmoded traditions with a brand new look and a new role in American life.

And — for those who are emotionally mature — the new concept will bring the martial bliss which the world has long idealized but rarely attained.

Dr. Charles F. Mayer, nationally known divorce lawyer turned marriage counselor, sees this rosy future.

OLD CONCEPTS

"Too many people are trying to impose Nineteenth Century concepts of marriage that are completely alien to present day life and problems."

The man who holds a doctorate in both law and psychology has reached these conclusions after 30 years of "freeing so called incompatible couples"; returning to college for postgraduate work in psychology and marriage counseling; a decade of patching together broken hearts.

Tracing the history of marriage, he points out "The first marriages were simply marriage b capture — the caveman would conk a likely female on the head and drag her home to be his mate. Then came marriage by purchase and later marriages arranged by families. It was not until the Ninth or Tenth century that mutual love became the principal factor.

OUT-OF-DATE

"Many of the prevailing concepts of marriage today are really those of our parents and grandparents — the Nineteenth Century marriage where the family was largely rural, the father was the provider and patriarch, and the wife had the subordinate role and endless, menial domestic duties."

Such a concept doesn't fit modern urban life where a wife has new independence and possibly a job and a husband is expected to do his half of the housework. The resultant turmoil, Dr Mayer says, has in many cases reversed roles. The wife becomes masculie and domineering and the husband feminine and submissive.

"Marriage, based on the already outmoded beliefs in masculine domination, conjugal rights and wifely duties, will disappear," Dr. Mayer believes "and in its place, love and dignity of each partner will be reestablished as the basis for marriage.

COMPANIONSHIP

"Companionship will be the Keynote. Husband and wives will be able to clearly reaffirm the real enduring values — the worth of the human personality, the dignity of man and woman and child — the basic goals of human living, long frustrated by incongruous traditions."

Among the factors which Dr. Mayer says will help bring this about are:

A better understanding of oneself. More people will try to understand their motivations, fears and frustrations and attain emotional maturity.

LESS HOME DRUDGERY

Less domestic drudgery. Greater use of prepared foods and more labor-saving devices and, easier-to-maintain homes will reduce domestic duties.

Education in infantile concepts of romantic love will give way to a more intelligent choice of one's mate as well as prepare young people for the realities of married life.

Better sex education. In place of feelings of anxiety and guilt children will receive a wholesome understanding of sex which will help them to grow up to be able to give and receive love as mature adults.

MARRIAGE COUNSEL

Increased marriage counseling. In addition to more widespread private help by qualified counselors, many divorce courts will establish counseling service.

Complete independence of women. The attainment and recognition of fully equality will eliminate the husband's resistance to it and will end the conflict that results.

All of the above factors, Dr. Mayer believes, will help eliminate many of the symptons of unhappy marriage—in-law troubles, money disputes and alcoholism — because the underlying causes will have been removed.

Other factors in the changing American Life which he says will contribute to happier marriages include: Greater family income and (maybe) a shorter work week and more leisure with the family.

Just because the new concept of marriage will not be prevalent until 1975, Dr. Mayer is quick to add, doesn't mean one has to wait for marital bliss.

"For those couples who have attained emotional maturity, who can cast off old concepts and base their relations on love, respect and dignity," he says, "the Golden Age of Marriage can be theirs right here and now in 1961."

SOMETHING SPECIAL FOR THE BOYS—eye-catching sweaters in all Orlon for sturdy wear and easy care. RIGHT: a classic V-neck pullover with solid trim and bright diamond pattern. LEFT: a low turtleneck style with a diamond yoke pattern in the popular Scandinavian design; both are absolutely "neatsville" with the young set.

A PRETTY PAIR OF DOLLS: Dress them both in pretty jumpers you can easily make yourself. The little miss wears a jumper in candle-red corduroy with puff blouse in dotted swiss; Dolly's—in cotton over'a coordinated print dress.

Kitchen In Space Capsule Is Small But Efficient

NEW YORK (AP) — Most aspects of space travel are still up in the air. But one thing is certain: The men will never be called gastronauts.

The food they'll get on a 14-day jaunt to the moon — and that's expected to come about 1965 — will send them back to the Earth grateful for overdone steak and scorched potatoes.

There'll be no point in packing a basket lunch for them. It would only float around in the cabin, while the knives for slicing the tomatoes would be a real menage to crew and spaceship walls.

How do you cope with the problem of weightlessness? With scientific forethought the WADD of the USAF's ARDC (that's the Wright Air Development Division of the U.S. Air Force's Air Research and Development Command) awarded a contract to a home appliance firm to design and build a space kitchen.

SPACE KITCHEN PLAN

And this is the way it will work, according to a recent issue of Space World:

The kitchen, approximately 10 feet long by 7½ feet in diameter, in the forward section of a multi stage booster, would contain a small refrigerator plus deep-freeze compartment (run by a thermo-electric unit), a three-cavity oven and a built-in water system of 2½ gallon capacity with a heater to provide hot water as needed.

But none of the appliances will be used as they would be on earth.

Mostly they're used for dispensing, not preparing. Snack items such as candy and nuts will be available, but most actual food will be in preprocessed or dehy drafted form. And they'll come either in big squeeze tubes or cans.

STRAPPED-IN SUPPER

After the astronaut selects his meal he puts the containers requiring heat in the oven. Within 30 minutes the food will be warmed to 175 degrees.

For dehydrated items there's a pressure pump within an air-free water system the pilot can operate manually with one hand while he holds on to a support bar with the other. That's because water doesn't behave at zero gravity as it does under normal circumstances.

To eat canned foods, the astronaut puts a mouthpiece on each container then places it in a squeeze-type device, that forces the food out of the container into his mouth. On pliable tubes of food, normal hand pressure will do the job.

And all this is done while the containers are snapped into holders and the astronaut is strapped to a seat to keep from floating around.

THEY WANT IT HOMEY

After he's eaten, he'll wash the mouthpieces with antiseptic cloths. Food waste can be put in self-sealing bins and sprayed with a solution to retard bacteria.

For psychological reasons the kitchen will look as homey as the designers can make it. But the ever-present coffee pot is out, for one thing. Coffee is dispensed from a hidden lightweight unit within the feeding console.

WATCH THAT WAISTLINE

Says John Rublowsky, the magazine's editor: "The food will be carefully chosen so as to hold indigestion to a minimum. Bicarb might be dangerous, you know. It's a gas."

There's always the prospect you'll get fat faster. "We use calories just lifting our arms," points out Rublowsky. "Weightlessness will cut 7% per cent of our energy expenditure."

Maybe by the time they need it, 900-calorie concentrates will come in tubes.

CONGREGATION BANNED

WASHINGTON (AP) — Missionary News Service reports that Portuguese authorities have closed an Assemblies of God church near Lisbon on the ground that the church held services in a building not licensed for that purpose.

OKLAHOMA CITY (AP)—Just for fun, Mr and Mrs. W L. Basie let their daughter roll the bowling ball. It wobbled up the alley and scored a strike. Daughter Elizabeth is slightly more than one year old.

Ostrich Eats Pie Of Amazed Tourist

PORT ELIZABETH, South Africa (AP) — A motorist on a long trip decided to stop near Oudtshoorn, 250 miles west of here.

He pulled up on a deserter' road outside the town, got out of his car and settled down next to a fence to read his newspaper and eat a pie.

Suddenly, to his amazement, the pie was snatched from his hand.

He looked around him but saw nothing but bush. Then he heard a satisfied gulp behind him and turned to see the pie traveling down the long neck of a very happy ostrich.

IT'S STILL A NO-HITTER

CHATTANOOGA, Tenn. (AP) —Roger Henshaw pitched a no-hitter for his Little League team recently, but he really didn't have to.

His team won 31-0.

A Bit Of History About Early Settlers

By B. F. M. MacPHERSON

HEZEKIAH AND CHARITY HOUGHTELIN

The far-flung family tree of the Houghtelin family, with its many "Low Dutch" intermarriages and relationships, receives a few additional branches at this time — as follows —

Last week, in this column, the marriage record of George W. Hoffman to Miss Martha Holmes Durboraw was given. The marriage took place in Seneca County, Ohio, but the bride was born and grew up in Adams County, Pennsylvania, and both her father and mother were members of the low Dutch Settlement of the Conewago and her father, William Durboraw, is buried in the "Lower" Low Dutch Churchyard and the stone at his grave is one of the few remaining in this plot. To further complicate matters, genealogically speaking, Samuel Durboraw and his brother, William Durboraw, married sisters 8 daughters of Henry and Eleanor (Houghtelin) Brinkerhoff. This being the case Martha Holmes Durboraw was doubly a product of the Low Dutch Colony and her marriage ceremony was performed by her maternal uncle — the Rev. William Houghtelin Brinkerhoff.

20. Monday, May 17, 1847 —

"Died, on the morning of April 26, 1847, in Seneca Township, Seneca County, Ohio, of dropsy of the Chest, Martha Holmes Durboraw, the wife of George W. Hoffman, and daughter of Catharine (Brinkerhoff) Durboraw, formerly of Adams County, Pennsylvania, aged 27 years."

DEATH FOLLOWS MARRIAGE

Note — A year after her marriage, more or less, Martha was dead and her branch of the tree had come to an end.

Regarding the parents of Martha Holmes (Durboraw) Hoffman, the old files of the "Adams Centinel" give the following genealogical date — under the dates given:—

21. Wednesday, May 10, 1820 —

"Married, Thursday, May 4, 1820, by the Rev. Charles Gill McLean, of this County, Mr William Durboraw, of Mountjoy Township, this County, to Miss Catharine Brinkerhoff, the daughther of Henry Brinkerhoff, Esq., of Bonaughtown, this County."

Note:— The record of the marriage of the parents of Martha Holmes (Durboraw) Hoffman — the ceremony performed by the Rev. Charles G. McLean, pastor of the Associate Presbyterian Church, Gettysburg, and the "Hill" Church.

ILL A FEW HOURS

22. Wednesday, December 1, 1824 —

"Departed this life, November 23, 1824, after an illness of a few hours, Henry Brinkerhoff Durboraw, infant son of William B. Durboraw, of Mountjoy Township, this County, Aged 14 months and 15 days.

Note:— This little boy, the son of William and Catharine (Brinkerhoff) Durboraw, is undoubtedly buried in the "Lower" Low Dutch Churchyard, close to the grave of his father. If the child's burial place was ever marked the stone has long since disappeared.

23. Wednesday, March 5, 1828 —

"Died, Sunday, March 2, 1828, Mrs. William B. Durboraw, of Mountjoy Township, this County."

Note:— The grave of William Durboraw in the "Lower" Dutch Reformed Churchyard, located at the upper end of the plot, is marked by a tall white stone which, at the present time, is leaning badly, and bears the following inscription:—

3. "Sacred to the memory of William Durboraw — Died March 2, 1828, Aged 38 years, 7 months and 15 days."

GRAVES WITHOUT MARKERS

Near the grave of William Durboraw are the burial places of Hannah Brinkerhoff, the wife of Samual Durboraw — died January 26, 1832 — aged 26 years, and 11 months, several graves of the Houghtelin family and quite a few good graves without markers. In addition to this area there are a number of fieldstone markers without inscriptions.

Near the grave of Hannah (Brinkerhoff) Durboraw two markers were recently uncovered and the stones which had long laid face down on the ground were found to bear the following inscriptions:—

4. "In memory of Hezekiah Houghtelin, Died August 3, 1839, Aged 75 years."

Note:— This Hezekiah Houghtelin (better known as Captain Hezekia Houghtelin) was the brother of Lieutenant Wilhelmus Houghtelin, soldier in the War of the American Revolution.

5. "In memory of Charity Houghtelin, the wife of Hezekiah Houghtelin, Died October 9, 1840, Aged 73 years."

Note:— The wife of the Hezekiah Houghtelin mentioned above — the grave of Charity Houghtelin is located at the foot of a fair-sized tree while that of her husband is slightly above that of his wife.

"THE WIDOW LARIMER"

24. Monday, July 3, 1848 —

"Died, Wednesday, June 28, 1848, in this borough (Gettysburg, Pennsylvania), Mrs. Elizabeth Houghtelin, the widow of Mr. Wilhelmus Houghtelin, deceased, aged 68 years."

Note:— Elizabeth Houghtelin, "the widow Larimer," second wife of Lieutenant Wilhelmus Houghtelin, soldier of the Revolution, was married to the old soldier about a year after the death of his first wife, Anna Houghtelin.

Elizabeth (Larimer) Houghtelin is probably buried in Pine Bank Cemetery beside or near the grave of her first husband.

25. Friday, January 4, 1856 —

"Died, September 15, 1855, at Dayton, Ohio, Mr. William Houghtelin, formerly of Adams County, Pennsylvania, aged about 54 years."

Note:— Another William Houghtelin, a member of that branch of the family which emigrated to Ohio when, after the War of the American Revolution, the "Low Dutch" and French Huguenots of the Low Dutch Colony moved on — to pioneer on a new frontier.

The notes on the Houghtelin family will be continued in this column next week.

Weddings

Gladfelter—Walker

Miss Darlene Mae Walker, daughter of Mr. and Mrs. Charles H. Walker, R. 4, recently became the bride of Howard Clark Gladfelter, son of Mr. and Mrs. Levere Gladfelter, York Springs R. 2, in St. Mary's Lutheran Church, Silver Run, Md. Rev. Lloyd H. Seiler officiated at the double-ring ceremony before an altar decorated with fall flowers.

A reception was held at the home of the bride. Upon their return from a trip to Somerset, the couple will reside at R. 4.

The bride attended Gettysburg High School and the groom attended Biglerville High School. He is employed by the C. H. Musselman Company, Biglerville.

Smith—Weaver

Miss Mary Agnes Weaver, daughter of Mr. and Mrs. Charles H. Weaver, New Oxford R. 2, became the bride of George Vincent Smith, R. 5, at 7 o'clock Tuesday morning in St. Joseph's Catholic Church, Bonneauville. Rev. Fr. Louis Forgeng was the celebrant at the Nuptial Mass. Mrs. Bernard Walter was the organist.

The bride wore a navy blue dress with a white corsage.

The maid of honor, Miss Rose Ann Weaver, sister of the bride, wore a blue print dress with a pink corsage. The best man was Cluade Smith, son of the groom. Ushers were Ronald J. Weaver, nephew of the bride, and Gerald Neiderer, grandson of the groom.

En Route To New Guinea

New York Gov. Nelson A. Rockefeller and his daughter, Mrs. Mary Rockefeller, are shown on their arrival in San Francisco Monday en route to New Glinea. They were going to aid in the search for the governor's son, Michael, 23, who has been reported missing while working on an expedition. Mary is Michael's twin sister. (AP Wirephoto)

Musical Toy Is Fun And Educational

The post-Christmas thumping, tooting or twanging of a musical toy may not mean much to Mother, but to a 3-year-old it's more exciting than Tschaikovsky.

Marion Egbert, educational consultant for the American Music Conference, believes that properly selected toy musical instruments

FOR ROOTIN', TOOTIN' FUN! Children will enjoy playing a toy musical instrument. Such a gift may also encourage the youngster's desire to learn to play a standard musical instrument later on.

can provide an exciting way for children to discover rhythm and tone—the basic elements of self-made music.

Musical toys can also exert a strong influence on youngsters' desires to play genuine musical instruments.

Quality toy instruments are usually musically "true" and offer a chance for continued exploration of musical sounds and rhythm. Musical toys are so popular with youngsters that the toy trumpet was the top seller for many years.

Other "pre-band instruments" include bell sets, wood resonator blocks and simple drums. Resonator blocks are exceptionally effective in teaching rhythm to children.

Melody instruments comprise another group of musical toys. Actual tunes can be reproduced on such instruments as the xylophone and the "c-note" melody flute.

Toy pianos and electric organs often are used to introduce children to the keyboard. Toy ukuleles, guitars, banjos and mandolins—all priced under $10—allow the child to play simple tunes almost immediately, and youngsters have lots of fun with this type of "first experience."

Whatever the child's choice, parents will be giving a gift of music —that usually outlasts the toy instrument by decades.

MANY FAMILIES WILL "SAY IT WITH MUSIC" when they say "Merry Christmas" this year. A gift of an electric organ is one that the entire family will enjoy for years to come. This Concert model can be played by sight by anyone who can read, because the keys are numbered and the chords lettered to correspond with specially written music books.

Here Is The Tale Of How Santa Claus "Took Shape"

Santa Claus has become such an important part of our merry-making at Christmastime, that one can hardly imagine the holiday season without that jolly old fellow, his sleigh and reindeer.

Yet a little over a century ago, Santa Claus as we know him today did not exist! To be sure, children all over the country eagerly awaited visits from St. Nicholas at Christmastime . . . but they had no ideas as to what he looked like. It remained for a university professor to establish Santa's identity as we now know it.

On Christmas Eve, in 1822, Dr. Clement Clarke Moore, a professor at Columbia University, wrote a poem for his children. It was called "A Visit from St. Nicholas" and began, "'Twas the night before Christmas . . ."

Dr. Moore wrote it solely for his children's enjoyment and had no plans to publish it. But fortunately for other children, and adults as well, his poem was heard by the daughter of the rector of St. Paul's Church in Troy, New York. She asked to be allowed to read it to the children of her father's parish; she also sent a copy of the poem to the Troy, N. Y., Sentinel, where it was published for the first time on Dec. 23, 1823. It appeared there annually thereafter and in 1830 was accompanied by a wood engraving . . . the first picture of Santa Claus.

Since that time, people all over the world have come to know and love that kindly gentleman with the flowing white beard, twinkling eyes, and cherry red nose.

First Community Tree In City Of Cleveland

The Community Christmas tree idea was born in Cleveland, Ohio, in 1912. The community raised funds to defray the cost of the tree and celebrations through the sale of preferred stock in "Cleveland, the city of good will (unlimited), incorporated under the laws of the commonwealth of good cheer." This was specified by belly-bordered certificates.

Holders of preferred stock were entitled to "dividends payable daily in the form of happy voices of robust children, the contented faces of friendly fellow citizens and the advancement of the city of good will."

Sale of stock was pushed everywhere, the most unique place being the Cleveland stock exchange where the stock was listed at the head of other securities. The sale brought in $12,000, which purchased Christmas cheer for 13,000 citizens, as well as the first community Christmas for the city.

Don't Go "Out On A Limb" In Choosing Hosiery

Quite a number of women will be giving—and getting—nylon hose for Christmas. Whether buying for yourself, or for others—here are some facts about nylons you may find important.

First—consider the weight and thickness of the yarn used in the stockings. This is called Denier.

There are seven different deniers available—12, 15, 20, 30, 40, 50 and 70. The higher the denier number, the heavier and stronger the thread. Thus, 30 denier is twice as heavy, twice as strong as 15 denier.

The lightest, finest nylon yarn used in stockings is 12-denier, not as strong as 15 denier, and much sheerer.

For a complete hosiery wardrobe, 12 deniers are the ultra sheer; 15 denier through 30 denier—the business sheers; 40, 50 and 70 deniers — the heavier, service weights for longer, harder wear.

In full fashioned hosiery, gauge describes the fabric by closeness of stitches. A 60-gauge stocking indicates that there are 60 stitches to each 1½ inches of fabric around the stocking.

The higher the gauge number, the greater the number of stitches; consequently the stronger the fabric. For example, a stocking of 12 denier — 60 gauge, will be stronger than a 12 denier stocking of 60 gauge despite the fact the yarn is the same weight in both.

Seamless Hosiery

Seamless stockings, which have become increasingly fashion important in recent years, use the same deniers as full fashioned hosiery. However, seamless stockings are described by the "number of needles" on the knitting machines — such as 400 needle stockings.

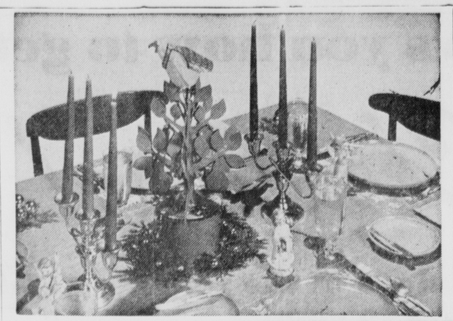

Like the gauge; the higher the needle count, the stronger the fabric.

Sometimes seamless stockings are also described by gauge. Using 400 needles as an equivalent to 51 gauge, remember a lower needle count means a "coarser knit." A 432 needle count would be as closely knit as 54-gauge stockings, etc.

Remember too, that proper fit is very important. Equally important for longer wear are proper gartering, how carefully the stockings are put on, and how the hosiery is washed and dried.

Since time does not weaken nylon, when choosing hosiery, don't worry about giving "too many stockings—for what woman ever has enough?

The linotype machine was invented by Ottmar Mergenthaler. It was first used in 1866 by the New York Tribune.

SET YOUR HOLIDAY TABLE IN THE SPIRIT OF BELOVED CHRISTMAS CAROL, "A PARTRIDGE IN A PEAR TREE." This charming table setting, inspired by the old English carol, features a green tree centerpiece, hung with heavy gold paper "pears." Place mats carry out the carol theme and bayberry candles add holiday cheer.

If She's Problem Choose Her Gift In Fine Jewelry

Women adore jewelry gifts at Christmas, especially when the preciousness is "built in." Even the tiniest of diamonds flashing from a gold pin, for instance, labels the gift as one of worth.

Women enjoy the prestige of owning the "real" thing, as they describe it, since fine jewelry can be enjoyed for a lifetime.

Selecting jewelry for someone else should be done with care. Size of features are as important as the shape of face.

For example, some petite women with rather bold features are able to wear large earrings and necklaces while women of Junonesque stature with small, slim patrician features can't. Jewelry worn around the face and neck should be chosen for scale of features rather than for height or weight of body.

If in doubt—it's wise to lean toward simplicity of line. Traditional leaf forms and 14-karat gold circle pins, for instance, are always "safe" choices.

SOME UNUSUAL IDEAS

Given an opportunity, a piece of jewelry can grow. Jewelers stock a variety of add-to designs in bracelets and inexpensive necklaces. One example is a "starter" bracelet consisting of a serpentine gold-filled chain, with a central diamond "daisy." Additional links can be added until the bracelet forms a complete diamond daisy garland.

Bracelet charms are perfect gifts for women. Disks of gold with sun rays emanating from a winking diamond provide space for the engraved name of a loved one. Delicate initials enlivened with a diamond add a personalized touch.

Many women love the new rings in pebbly and textured surfaces, twisted gold strands and Florentine finishes manipulated in high-rising designs and sparked with diamonds.

Fine jewelry is a gift of "forever." It bespeaks of fine taste, has enduring value and becomes part of the family treasures for years to come.

Gift Bonanza In Gold Rush Of Jewelry

This Christmas, thousands of women will thank Santa for fabulous fashion finds in beautiful gold jewelry.

Never before has fine gold jewelry displayed such beauty, fashion importance and wide variety as in this year's showings at fine jewelers, everywhere.

Precious gold has new finishes, shapes and ornamentation. It is braided, linked and shaped in beautiful designs. It is often dusted with precious jewels—a most dazzling array of pins, necklaces earrings and bracelets.

Whether in 14-or-18 karat, or simply and elegantly gold-filled, the glow of gold jewelry "goes with everything" and every gift budget.

In combination with pearls or beads, whether necklace, bracelet, pin or earrings, gold jewelry takes on added drama and even broader fashion importance.

Pins set in colorful stones and designed in dimensional shapes are placed to dramatize a fashion point . . . on cape-like lapels, waistlines, far out on the shoulder or in the hair.

Massed bracelets in gold, pearl and colorful combinations fill in for shortened sleeves. Earrings are equally dramatic in long glittering drops, showers of gold and pearl or crystal and stone. Hoop earrings look gay and glamorous in gold and stone-set styles.

Necklaces are unusual combinations of bold beads strung in longer lengths with a dropping tassel, or jeweled collars and fine gold chain collars, worn without any fear of over dressing.

The season is right for exciting new jewelry fashions that give every woman a chance to give in to her enjoyment of color, drama and fun.

The Yule Log Is Old Time Custom

The old custom of burning the Yule log is a charming Christmas tradition that has largely passed from contemporary life, although it is still observed in many places. Even though it is always thought of in connection with Christmas celebrations of years gone by, it actually dates far back into pagan times.

During what was then called the Mid-Winter Fire Festival, the log, generally one from an oak tree, would be ceremoniously lighted from a fragment saved from the year before.

When the new log sent out its brilliant flames, it was believed that the house and family would be safe from lightning and fires, that cattle and grain fields would thrive and that the earth would be fertile.

Fine Leather Wraps For Xmas Belles

A woman's favorite "Christmas wrapping" this year may very well be a colorful, comfortable leather jacket or coat.

Lined in wool shearling, pile or colorful silk, the new suede, cabretta and soft cowhide leather fashions are as many-hued—inside and out—as the gifts underneath the Christmas tree.

Sleek cabretta or kid leathers show up in form-fitting dressmaker jackets, leather and tweed walking suits, and in full length coats—classically tailored, or with jewels and fur trim for evening.

For the cold-weather casual and sports wear, career girl and homemaker alike will go for shearling suede jackets in waist or hip lengths. These are shown with a warm stand-up collar, and deep pockets, often with matching slacks.

For a more grown-up look, the teen age girl will love her oven-the-hip coat in smooth leather or suede.

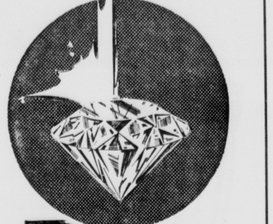

There are also part middy styles with deep convertible neck-lines.

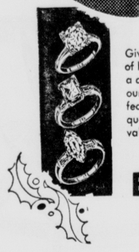

Whether sweet sixteen or a sophisticated woman, whether for casual wear or sports, daytime or date—button-soft kids, cabrettas, smooth leather or yummy suede, she'll love her gift all the better in such colors as carnation red, deep blue, forest green, earth brown, or simply — Arctic white . . . just so—it's leather.

WEATHER PERFECT for the holiday season whirl is this water-repellent checked coat. In a smart single-breasted style with raglan sleeves and slash pockets, this all wool coat is warm and comfortable in any weather. It comes in the new 42½" length.

Give Her The Finest...

Give her the ring of her dreams — a diamond from our superb selection featuring beauty, quality, enduring value.

Bright Star Is Based On Actual Data

Ever since the star of Bethlehem led the Three Wise Men to where the Infant Jesus lay, over 1900 years ago, scholars and laymen alike have speculated on the nature of that wonderful star.

Today astronomers believe that what the Magi saw was not actually a star, but a conjunction, or close passing, of the planets, Jupiter and Saturn.

Such a conjunction occurred in the year 7 B. C. This is also the year that many scholars have come to believe was the true date of the birth of Christ, ever since ancient tablets unearthed in 1923 near Ankara, Turkey, revealed that in the reign of Caesar Augustus there were three major tax collections.

The first was in 28 B.C., the second in 8 B.C., and the third in 14 A.D. Since it probably took about a year or so for the tax decree to reach Galilee in those days of slow travel, it is possible that Jesus was born a year after the decree went out. This date would coincide with that of the planet's conjunction.

The fact that the "star" was not really a star at all, would explain the fact that no one else but the Magi took notice of it. Without a doubt, they were Persian astronomers who would be aware of such phenomenon occurring and would attach mystical significance to it.

Songs, Legend Hail Wise Men

"Now when Jesus was born in Bethlehem of Judea in the days of Herod the King, behold, there came wise men from the East to Jerusalem, saying 'Where is He that is born King of the Jews? For we have seen His star in the East, and are come to worship Him.'"

This vivid account of the journey of the Three Wise Men who came to offer gifts to the Christ Child, as recorded by St. Matthew, is a beloved part of the Christmas story that is recalled each year in song and tableaux.

Over the centuries, these three have come to be known as Melchior, Gaspar and Balthazar. Melchior means "king of light." Gaspar or Carpar stands for "the white one," and Balthazar, "the lord of treasures."

The gifts they brought with them were gold, which was the emblem of royalty; frankincense, in recognition of Jesus' divinity; and myrrh, a prophetic allusion to the sufferings and death that awaited him.

Medieval tradition named the three travelers the Three Kings of Cologne, and the Cathedral of Cologne claims to contain their relics.

Among the ancient Medes and Persians, the Magi, as they are often called, were considered members of a priestly caste, possessing great occult powers. They were believed to have come from the kingdom of Tarsus, Arabia and Ethiopia.

Whatever their origin, even to this day Christmas would not be complete without the colorful pageantry of the Three Wise Men.

Here Is Gift Idea For Scale Model Builders

Kids who have discovered a fascinating sense of achievement in building scale models of rockets and planes, ships and trains, are forever eager for new fields to conquer.

The "why's," "wherefore's," and "what makes it run" are answered as boys and girls too—along with their parents—carefully and meticulously assemble their exciting scale models.

An example of this type of product is an exact miniature of a real automobile engine in kit form. Produced by Revell, Inc., this one-quarter-scale kit of a Chrysler Slant Six automobile can be assembled into an actual operating model with spark plugs that "fire" and can be retimed.

Part for part, it is identical to the full-size prototype and can be disassembled and rebuilt repeatedly, just as the real engine. Although it is great for mechanically inclined boys, it will also be appreciated by motor - minded adults in every age group.

In the field of science, Revell's "Chicken Little" makes the mysteries of natural science more fun than anybody ever dreamed. When this kit is put together, the youngster has constructed and learned the life span of a chicken from the fertilized egg to the baby chick.

Each of the seven stages in the development of the chick comes with its own transparent egg shell and is a separate construction project.

Chicken Little can be taken apart and can be reconstructed for permanent study and display. It is said to answer all questions about how a chicken is born, except "which came first."

Don't Overspend On Christmas Gift Line-Up

Because it is so easy to get carried away with the spirit of the holiday season and spend more than you can afford, many people find that they have taxed their savings or placed a burden on their future budgets by unwise shopping.

To prevent this from happening to you, it's wise to prepare a gift list that has been balanced against your budget before you begin your shopping. This will help you determine how much you can spend for individual gifts without going over your budget.

Gifts that you have made yourself are an excellent way of cutting down costs, and are also greatly appreciated because they are the gifts of your time and talent. It should be remembered at all times that giving is the important part of Christmas, rather than the gift itself.

So it is not really necessary to go "overboard" on a present in order to show a person that he or she is well thought of.

Spend within your means . . . you'll enjoy your Christmas much more if you have not been unwisely extravagant in your expenditures.

A GIFT OF GOLD means real fashion this Christmas. She'll welcome this soft, fine gold chain necklace with its tassel drop and sprinkling of tiny beads. The long drop earrings are high fashion notes too, this season, says the Fashion Coordination Institute.

Don't Let Fire Mar Holiday

Every year, the holiday season is marred for many families because of fires caused by Christmas trees. Don't let this happen to you!

Follow these rules for a fireproof, merry Christmas!

Be sure the tree you purchase is fresh! Determine this by bouncing the butt of the tree against the ground—if the needles stay on, and if the stump cut is sticking with resin, it is fresh. It's also best to select a small tree.

Before setting up your tree, saw off at least an inch of trunk diagonally, placing its base in a water-containing holder. At all times, keep the water-level well above the diagonal cut.

Locate your tree well away from fireplaces, radiators, television sets, powerful electric lights, or other sources of heat and electrical power.

When decorating your tree, use only decorations of the noncombustible type. Be extremely careful with electric lights, checking them for defective wires and loose sockets. Use only electric lights that bear the Underwriter's Laboratories label.

Never use candles for decorations! Since too many light circuits in one outlet may overload the house wiring and blow a fuse, distribute the load among several outlets.

Be sure to turn off the tree lights when no one is to be in the room for any length of time and upon retiring.

A SHIMMERING SHOWER of crystals, pearls and rhinestones—all are merged together in this dramatic necklace — the perfect gift for any woman.

ADVERTISE IN THE TIMES

Bicycles Are Tops As Gift Items

Bicycles are expected to retain their position as a favorite Christmas gift for both young and old. Youngsters are delighted to receive bikes at Christmas, for their fun value. Young adults enjoy the low-cost transportation afforded while adult men and women use the bike for fun and fitness.

More bikes are given at Christmas than at any other time, surveys have shown, mostly by grandparents who present the youngster of the family with his first two-wheeler.

Of the 27 million bikes in use in America, some 5 million are used by persons above the age of 21.

Bikes are being used for dating, in revenue - producing activities such as newspaper and package delivery, and for campus transportation when classes are scheduled in widely separated buildings.

At high schools, too, bike use is soaring and many graduates-to-be will be placing an order with Santa for a new bike in the colors of their future alma mater.

At the other end of the scale, children are riding two-wheelers at a more tender age than ever before because of the fine safety record rolled up by cyclists. Partially responsible are the safety programs sponsored each year in hundreds of communities in conjunction with the Bicycle Institute of America.

If your favorite person already owns a two-wheeler, there is a variety of handsome accessories to please the bike owner at Christmas.

SOPHISTICATED LADIES will love the elegant look of a little glamor hat for holiday galas. This high-crowned cloche of nylon maline is luxury-touched with a jeweled pin.

DRESSY CASUALS

If you know your man well enough to select a suit for him—look into the new country suits. These usually consist of a coat, vest and trousers, some with two pairs of slacks—one to match and one to harmonize.

These smart suits may be in a solid color with a patterned vest, or vice versa.

MAKE OWN CARDS

If you'd like your Christmas cards to have a more personal touch this year, why not try making your own! It's easy and lots of fun, besides.

One material that has proved very popular for personally-made cards is rough-textured ceiling wallpaper. Block prints or bright yarn embroidery will make beautiful designs. Or paste a holiday snapshot of your family or family pet to your card, for a truly personal greeting.

There are more than 1,500 daily and 10,000 weekly newspapers produced in the United States.

Match Leather Bag And Belt For Harmony

A sure-to-please gift for any woman is a matched leather handbag and belt combination. It's practical too, because every woman can use another bag and belt, and the matching design, leather texture and color shows that the giver put some thought into it.

Here are some tips from Leather Industries of America on "what's in the bag" for fashion this Christmas:

Popular shapes include satchel bags, totes and pouches — some spread a bit at the bottom to make a bag self-standing.

Tailored, rather than fluffily feminine, these leather bags are ideal accessories to tweed and gabardine suits and skirts, and dressy or dressy-casual leather coats and jackets.

Smart daytime bags come in beautiful soft suede, smooth or grained leather, and a large number of hard - constructed bags. Many are wafer thin and neat in appearance yet expand at the bottom and sides to hold all essentials.

Decorative details include fake belts and buckles appliqued horizontally or vertically on the front, heavy antiqued brass doorknocker tabs in place of snap closings, and a wide variety of fancy gold, silver and brass ornamental closings.

The right leather belt to go with tailored bags will be marked by simplicity of design, with decorations of geometrical patterns embossed or appliqued on the leather . . . square or oblong buckles of brass or leather . . . neat heraldic emblems and other motifs in antiqued gold or silver.

Charm and cheer her with flame red, tangerine, brilliant and indigo blues and woodland greens. These are seen in both bags and belts in smooth and matted American calf, soft fine-napped suede —or, for a breezy outdoor look— smooth or grained cowhide.

For gala nights, "little" clutch bags are "bigger" this season. There's more room for key case, cigarette-lighter set, change purse and other mysteries that women carry even to elegant soirees.

If you want to make an impression, select a matching purse and belt in gleaming uster leather or suede to dress up basic black cocktail sheaths.

CHRISTMAS IS IN THE BAG for any woman with gifts such as these! From Leather Industries of America comes this line-up of handsome handbag fashions—lower left: a three-tiered black suede handbag for evening wear; upper left: cream-colored leather satchel bag for daytime wear; upper right: soft-sided leather pouch bag to wear with suits, and lower left: a suede shoulder bag with flap closing and adjustable straps—a handsome go-to-business companion.

Ike Addresses 6,000 In Augusta

AUGUSTA, Ga. (AP)—Former President Dwight D. Eisenhower says the Soviet Union hopes to defeat this country by forcing us "to spend ourselves into bankruptcy," not by military power.

For that reason, "we must never demand one dollar more than is necessary for adequate military strength," he told an estimated 6,000 persons attending a meeting Monday night of the Central Savannah River Area Chapter of the Association of the U.S. Army.

It was Eisenhower's first public address in Augusta where he spent many golfing vacations as President.

He said he does not believe the United States is on the brink of global war because "there is no one in the world who would dare challenge us with any hope of winning."

As in every Christmas custom, there is a story behind the tradition of hanging stockings over the fireplace for Santa.

PEARLS FOR THE GIRLS — especially lovely when enhanced by a bold jeweled clasp worn to one side and matched with smart earrings. Pearls are always an important jewelry fashion note for well-groomed women.

DEDICATED CAPITALIST BEATS REDS

By BOB HARING

OKEMAH, Okla. (AP)—A woman who calls herself a dedicated capitalist spent 40 cold, sleepless hours in a balloon because "I got sick of the Russians holding all the records."

Constance Wolf, 56, of Philadelphia landed in an east central Oklahoma field 12 miles west of here at 4:55 p.m. Monday.

She had spent 40 hours 8 minutes aloft in a 5-foot square wicker basket hitched to a 65-foot rubberized balloon. That bettered a mark of 54 hours, 21 minutes, 31 seconds claimed by a Russian woman.

"I'm nearly dead," were her first words when she reached the sheriff's office here. "I've been in that miserable balloon — "

Mrs. Wolf didn't know how long she had been up. She left Big Spring in southwestern Texas at 12:47 a.m. Sunday but forgot to note the time. She was in overcast skies most of the time and couldn't communicate with the ground.

"I was afraid to come down. I was afraid I had not beaten the (Russian) record," said Mrs Wolf.

This was Mrs. Wolf's first attempt at a record, although she has been a balloonist for 10 years and an airplane pilot for 35. "I never cared for records," she explained, "but somebody had to show those Russians they don't know it all."

Her husband is a lawyer and she said, "Just call me a dedicated capitalist." The couple has no children.

A group of archaeologists recently discovered the name of Jesus carved before 70 A.D. among inscriptions on 11 early Christian burial urns found in a cave on the Bethlehem-Jerusalem road.

Pearls For Girls Are Nice Gift

Pearls have always been a very special gift not only for their simple, elegant beauty but because a pearl necklace is always in good taste.

This season the traditional pearl necklaces assume high fashion importance because of their new designs and the important place pearls hold in the current fashion picture.

There are new multi-strand necklaces that feature a beautiful clasp in all the "true jewel" tones of jade, sapphire, emerald, ruby or topaz. The clasps, lovely enough to be pins in themselves, are worn to the side and matched to earrings to provide one of the most pleasing gifts of the seaon.

Seed pearl necklaces have become increasingly popular strung in multiple strands to twist and drape to the mood of fashion's eased bodices and dropped waistlines.

For the smartest look of all, a single strand of pearls combines with two strands of jade or lapis. The jade or lapis adds a lovely note of contrast to the pearls and provides dramatic color accent to fashions.

Christmas would not be Christmas without the traditional wreath, fir, holly, evergreen, cedar leaves, ivy and mistletoe in and around the home.

So Many Things To Consider When Choosing Toy Gifts

Christmas is a wonderful time of the year, but every adult with youngsters on his Christmas list accepts as part of the holiday tradition the problem of choosing the magically-right gift for the young fry.

Season's greetings invariably begin with a blast of TV commercials from toy manufacturers. Their advertising programs highlight hundreds and hundreds of different bewildering items for the kiddies.

Children of course, are entranced by all of this—however, thinking adults who wish to seriously evaluate their gift choice find their dilemma compounded rather than solved.

Each year toys seem to become more fantastically unbelievable. For example, dolls can now do things that some humans can't. Their wardrobes are more extensive and elaborate than their potential Mommies can hope to acquire in a life time. Their prices often make the head of the household consider listing dolly as an additional dependent.

A recent research study at Cornell University lists the essential elements of a toy gift to make it worthwhile.

It is most important, stated the report, that the toy must first of all please the child. But to make the gift truly rewarding, its play value should not merely please for a brief period.

The gift should contribute to the child's knowledge and awareness of the real world. It should stimulate their imagination and inspire "thinking" and curiosity.

Rated high on the list was the gift that offers an opportunity of accomplishment — of building something new.

Here's where scale model building kits come into their own! Winning honors too, are a wide variety of equipped sets for construction and engineering projects . . . for experiments in chemistry and lab techniques . . . electronics and astronomy. All of these stimulate the young person's imagination. Gifts such as these help solve the problem for many discriminating adult shoppers.

It seems possible too, according to the Cornell University research, to be able to "buy" the gift of a closer family relationship — especially that of father and son.

Scale model construction kits are making this a reality. Building scale miniatures of ships, planes, and cars, has become the great all year around pastime.

Parents of all ages and children of all ages have taken on the hobby of assembling these models as a family pastime, as well as individually. Forty per cent of today's model kits builders are adults, reports the Wall Street Journal.

This adult percentage evidently started when Dad selected the perfect Christmas present for his youngsters and discovered that his own discerning taste was irresistible.

"Yes Virginia" Has Become Real Classic

One day in 1897, a little girl with a big problem sat down and wrote a letter that was to make her name famous. The little girl was Virginia O'Hanlon—her problem, was there really a Santa Claus?

On the advice of her father, she wrote a letter to the New York Sun, and the answer she received was destined to become a beloved Christmas classic.

She wrote, "Dear Editor—I am eight years old. Some of my friends say there is no Santa Claus. Papa says, 'If you see it in the Sun, it's so'. Please tell me the truth, is there a Santa Claus?"

The New York Sun's Francis P. Church, replied with an editorial that not only answered the question of a little 8-year-old girl but that warmed the hearts of young and old alike.

Since it was written 64 years ago, his editorial has been printed and reprinted in newspapers throughout the country, and read and re-read to children at Christmastime.

The most famous paragraph in this editorial reads, "Yes, Virginia, there is a Santa Claus. He exists as certainly as love and generosity and devotion exist and you know that they abound and give your life its highest beauty and joy. Alas! How dreary would be the world if there were no Santa Claus! It would be as dreary as if there were no Virginias."

Mr. Church concluded his editorial with words that have echoed down the years to thrill the hearts of all who hear. "No Santa Claus! Thank God, he lives and he lives forever! A thousand years from now, Virginia, nay, ten times ten thousand years from now, he will continue to make glad the heart of childhood."

Life expectancy at birth in the 17th Century was 18.2 years. In the 20th Century it is 58-60 years.

Familiar Carols Of Christmas

"O Little Town of Bethlehem" . . . "Silent Night" . . . "It Came Upon a Midnight Clear." We're all familiar with these beloved Christmas carols but few of us know the interesting stories of how they came to be written.

The town of Bethlehem itself, on a still Christmas Eve in 1865, was the inspiration for Phillips Brooks' poem "O Little Town of Bethlehem." The minister was so moved and impressed by the sight of that little town on that Christmas Eve so long ago that three years later he could still recall the scene vividly.

It was then that he wrote the words to this popular carol and had them set to music by Lewis Redner, his church organist.

Another minister, Dr. Edmund Sears, was responsible for yet another Christmas classic, "It Came Upon a Midnight Clear." Dr. Sears had been in the study of his home in Wayland, Massachusetts, watching the snow as it fell on a lovely, clear night in 1849, when he was moved to write the words to this song.

They were later published in a newspaper and seen by Richard S. Willis, who in turn was inspired to write the music for this lovely old hymn.

One of our most popular carols came into being in a little Austrian village, on Christmas Eve in 1818. The local pastor, the Rev. Josef Mohr, had ventured out to bless a young mother and her newly-born son. The long walk on the silent, starry night through the snow-covered hills and the sight of the radiant mother and child impressed the good Father deeply. When he returned to his rectory, he described the beauty of what he had seen in simple, moving lyrics.

Because the organ in their village church was broken, Father Mohr prevailed upon his church organist, Franz Gruber, to compose appropriate music on his guitar. On Christmas Night, accompanied only by the guitar, they sang for the first time, the beautiful carol, "Silent Night."

Christmas Cards Had Their Start In Old England

Although the custom of sending Christmas cards is approximately a century old, it is one which has achieved such popularity that every Yule post offices are literally swamped with cards to be delivered by busy mailmen.

The first greeting card was not designed until 1842, when an English engraving apprentice, 16-year old William Maw Egley, printed 100 cards to be sent to his friends. His design featured formal banquet scenes, party scenes and skaters. Beneath the illustration, he wrote "A Merry Christmas and a Happy New Year to You," still the most popular phrase in use today. However, it was not until 1862 that Christmas cards won acceptance in England.

The first American card was published as an advertisement for a department store. The exact date of the card is not known.

It remained for Louis Prang, "Father of the American Christmas Card", to popularize them here. First issued from his lithography shop in Boston in 1874, the cards became world-famous for their beauty.

SUPER STOCKING STUFFERS are these wonderful "notions" in leather. For the junior members of the clan or the oldsters, such as a kidskin clutch, eyeglas case, French purse, pocket secretary or cigarette case — will be well received come Christmas.

Safety First For The Xmas Holidays

If you're one of the many millions who will be traveling the highways for the traditional Christmas visit back home, remember that increased holiday traffic and winter driving conditions hold no respect for the Yuletide spirit.

To enjoy that holiday visit and to return home safely—drive carefully and make certain your car is in good operating condition.

Sam Hanks, former winner of the Indianapolis "500," who is now Director of Racing for the Indianapolis Motor Speedway and a consultant to the Raybestos Brake Lining firm, offers the following safety tips for holiday driving:

Before starting the trip, make sure brakes, tires, lights, steering, windshield wiper and horn are functioning properly. These items must be checked regularly, not only at inspection time.

Don't undertake any winter trips without snow tires on the rear wheels or tire chains in the trunk. If you've never fitted chains to your wheels, practice doing this ahead of time.

When driving up a hill covered with ice, hard-packed snow or wet from rain, gain speed and use a high gear. Try to gain maximum momentum on the good portion of the road—and if wheel spin starts, ease back on the throttle.

Braking distances may be increased tenfold on snowbound or icy roads. Use the brakes gently. If the wheels lock, let the brakes off immediately.

To help prevent skidding, try giving the brake pedal several light dabs. And, on any steep descent, start off slowly — no more than walking pace.

And, finally — if you're filled with Christmas spirits, don't let them be the liquid kind. A driver and a drink are a deadly combination — at any time.

One secretary to another: "You'll love it here once you accept the fact that there's absolutely no chance for advancement, raises or marriage."

Lots Of Romance In Xmas Myths

There are many charming traditions about love and lovers connected with the Christmas holidays.

In northern England, young maidens place holly under their pillows with the verse, "Good St. Thomas, serve me right, and send me my true love tonight."

In the Swiss Alps, when a young woman accepts a gift of edelweiss it is traditionally understood that she also accepts the young gentleman who offers it.

And of course the custom of kissing under the mistletoe, as an expression of everlasting love, is one which dates back centuries. Although still a part of our Christmas tradition, it is now more of a "fun" custom rather than a sentimental one.

"Let us have peace" are the words inscribed on the tomb of General Ulysses S. Grant in New York City.

Cleverly-Packaged Beauty Aids Will Delight Feminine Fancies

Don't forget those gifts of beauty for your Christmas belles. Everything from single lipsticks to complete cosmetic sets come gaily packaged and ready to meet her requirements for only the prettiest and most practical this Yule season.

Lipsticks are hidden in gala Christmas bells or ride on diminutive sleighs accompanied by a bottle of nail polish in a matching shade.

Cosmetic kits take form within distinctive colored leather kits or as part of elegant overnight cases that also can accommodate a nighties, robe and slippers.

Manicure sets, with or without shining efficient cutlery, are packaged in regal leather kits or gay plaid containers. While dusting powder pairs with cologne and even delicately scented soap joins the Yuletide spirit in packages adorned with happy symbols of the season.

Important are the scents — colognes and perfumes—that win a favored place beneath every girl's Christmas tree. A brief description of the lady, her likes and dislikes is sufficient for any willing sales person to take over from there and insure a most successful gift.

GREENWICH, Conn. (AP) — (Henry H. Storch, 66, a professor of chemistry at New York University, died Sunday. Storch formerly was chief of the synthetic liquid fuels division of the U.S. Bureau of Mines, retiring in 1954 after 26 years of service. He was born in New York City.

HOLLYWOOD (AP) — Henry (Terry) Duffy, 71, former theatrical stock company producer and actor, died Friday of cancer. Duffy produced more than 2,000 plays and appeared in more than 1,100 plays. Later he owned nine theaters and at one time was associated with Darryl Zanuck at 20th Century-Fox.

REDS IGNORE DEADLINE TO LIST MEMBERS

By LOUIS G. PANOS

WASHINGTON (AP) — The Communist party has failed to meet the deadline for registering under the Internal Security Act.

The Justice Department withheld action Tuesday, waiting to see if the party's officers would sign up within their later time limit.

The party, as an organization, had until midnight Monday night to register but the Justice Department said no representative showed up. The officers now have until Nov. 30. If the officers do not heed the deadline, individual party members must register within 20 days—Dec. 20.

A spokesman said the Justice Department plans to wait at least until after the time has expired for the officers to register before taking action. Then, officials said, the first move will likely be directed against the party itself.

MUST GIVE DATA

Under the Internal Security Act —embattled in the courts since 1950 until the Supreme Court upheld its provisions last June—the party was to have registered as an arm of the Soviet government, listing its officers, finances and other details.

In view of the party's formal notice last week that it would not comply with the registration requirement, department officials said it was unlikely the form had been mailed. The party refused on grounds registration might incriminate its officers.

The act carries a penalty of up to 10,000 for each day a Communist-action or Communist-front organization fails to register.

Individuals violating the registrations requirement could receive the same penalty, plus a five-year prison term for each day of noncompliance.

RELIGION MAY BE FACTOR IN SPEAKERSHIP

By WILLIAM F. ARBOGAST

WASHINGTON (AP) — A possible religious controversy lurked today in the background of a threatened fight over the House speakership.

The possibility was raised by announcement by Rep. Albert Rains of Alabama that he is considering opposing Rep. John W. McCormack of Massachusetts for the top House post, made vacant by the death last Thursday of Speaker Sam Rayburn.

McCormack, 70, presently has no official opposition for Rayburn's seat, to which most observers had assumed he would be promoted by virtue of having been Democratic floor leader since 1940 and acting speaker since Rayburn was stricken last August.

CATHOLICS ON TOP

McCormack is a Roman Catholic, and his election as speaker would give members of that religion the top two positions in Congress, as well as the presidency. Sen. Mike Mansfield of Montana, Senate Democratic leader, also is a Catholic.

Should Rains, 55, a Baptist, decide to challenge McCormack, it would provide a rallying point for members who do not believe a Catholic should be in the top spot in both branches of Congress. It could inject the religious issue into the speakership race and split wide open the Democratic House majority already threatened with a fight over the majority leadership.

SNOW AND RAIN BLANKET WIDE AREAS OF U.S.

By THE ASSOCIATED PRESS

More snow and rain dampened broad areas in the western half of the nation Tuesday as the first heavy snowfall of the season hit the northeast sections.

Cold weather continued in most areas from the Great Lakes region into the north Atlantic Coast states and in the Northwest.

Snowfalls up to 8 inches blanketed much of New England. Biggest amounts were in interior sections of Massachusetts up to 8 inches, and they ranged from 4 to 8 inches in Maine, New Hampshire and Vermont. Less than 3 inches fell in Boston.

The snow belt in the east extended from western Pennsylvania and western New York northeastward into Maine. Heavy snow warnings were posted for northern Maine.

ONE-INCH FALL

In the west, light snow rain continued in the north Pacific Coast region. Light snow fell in the northern plateau region and eastward into the upper Great Lakes region. Rain and drizzle sprinkled the central and southern plateau and Rocky Mountains regions.

The season's heaviest rains hit Southern California Monday ending a long spell of dry weather. More than one inch of rain fell in Los Angeles, the largest amount since last January, while more than five inches doused Santa Barbara. In Los Angeles, mudslides blocked roads and damaged homes in the Bel-Air and Brentwood districts, recently hit by damaging brushfires.

Wrap Gift Packages With Extra-Personal Touches

This Christmas, take a little extra time with your gift wrapping to come up with charming, unusual designs that will add greatly to the pleasure of all concerned.

There are so many ways to use wrapping paper, tape and ribbon that you're sure to run out of gifts —before you run out of ideas.

Here are some suggestions for achieving that personally gift wrapped look.

The children on your list will be delighted to find Santa Claus's smiling face on their presents. For this jolly portrait, cut out Santa's features from heavy paper in appropriate colors and paste them onto a rectangular box. If you prefer, you can use self-adhesive paper. It comes in all colors and can be cut to resemble any form you like and attached the top of your paper. Popular motifs for such cut-outs are little angels or animals. If you're not talented in the drawing department, simply trace your cut-outs from magazine or books.

Everyone knows that wrapping a bottle is just about one of the most difficult cover-up chores at Christmastime.

A clever way to handle this problem is by turning your gift into a clown with bright, gummed-back paper. Draw the clown's face on the neck of the bottle and tie it with a big bow. Make paper into a cone shape for the clown's hat, finishing it off with ball fringe. The fringe can also serve as his nose and for the buttons on his "suit."

In every group of presents, there's always at least one item of such an irregular shape that it's impossible to wrap it neatly. For these problem gifts, try making a paper sack from bright red paper, using a plain grocery bag as you pattern. Apply a design cut out from left-over gift wrapping paper for colorful decoration.

A clever way to put leftover scraps of wrapping paper to good use is by cutting out words or designs and pasting them on shiny black wrapping paper. The result makes a striking package that is particularly appropriate for masculine gifts.

These are just a few ideas to get you started on your personalized gift wrapping—you'll find that as you go along, other ideas will occur to you for making your gifts unusually colorful and interesting.

HERE IS IDEAL YOUNG LADY

PHILADELPHIA (AP) — The composite of an ideal young lady was drawn from themes of five girls ranging in age from 13 to 15 who were assigned to write 2,000 word compositions on the subject.

The assignment was given by Judge Juanita Kidd Stout several weeks ago after the girls were brought before her on charges of beating and stabbing another girl.

All the girls are Negroes.

Judge Stout disclosed the contents:

"A lady does not expose her private affairs, feelings or innermost thoughts

"A young lady should never be found in alleys, on street corners, in a penitentiary, in a youth study center, in a courtroom, in bars.

"A lady should not wear a skirt so tight it looks like your skin.

"She won't try to sneak out of the house when she knows everyone is asleep.

"You will not see a lady with a gang of boys standing on the corner drinking some kind of alcohol.

"Puppy love is serious to a young lady. It should be respected by parents, brothers and sisters because it can be a painful aspect.

"Young ladies do not send threats to other girls."

Some Tips For The Hostess

Take a tip from Marian Marsh, director of Oneida Table Planning Service, and enjoy a lovely ready-set refreshment table during the holiday season.

Use tall, slim tapers in graduated sizes to create a cathedral-window background; take a large silver or silver-plated bowl, tip-tilt it with two ribbon-tied spoons in its center to create the clapper for your silver "bell"; then lay out your favorite sterling or silver-plated flatware serving pieces against a bright red cloth; set-up gift-wrapped boxes that are already filled with cookies; fill serving dishes with nuts, fruit and candy.

Your table will become a shining example of the creative use of and arrangement of both silver flatware and hollow ware with real holiday glamor.

And, you'll be a smart hostess —ready to treat all guests — no matter when they drop in to visit during the holidays.

Algae Solution To Cleaning Up Waste

STILLWATER, Okla. (AP) — A professor with a string of ponds is testing an idea that nature can take care of man-made wastes—then clean up her own backyard.

The professor, Dr. Troy C. Dorris of Oklahoma State University, explained his idea simply:

Wastes from factories, refineries, etc. are collected in ponds. Algae grow in the water, manufacturing oxygen for bacteria which eats the wastes.

When the wastes are gone, the bacteria turn on the algae. When the algae is gone the bacteria die. Result: Relatively clean, waste-free water.

Dr. Dorris has one problem — will the algae produce enough oxygen for their own destruction? More research will tell.

OPEN HEARING ON LEGALITY OF BLUE LAW

PITTSBURGH (AP)—A panel of three federal judges opened a hearing Tuesday on legality of Pennsylvania's newest Sunday Blue Law.

The test case may set a precedent for the entire state, although it involves directly only 21 supermarkets in eight western Pennsylvania counties.

The supermarkets are challenging a state law, scheduled to become effective last Oct. 29, which prohibits stores with 10 or more employes from selling food on Sundays.

RESTRAINING ORDER

Judge Austin Staley of the U.S Third Circuit Court of Appeals presided at the hearing. He was flanked by Judges Rabe F. Marsh and Edward Dumbauld of the U. S. District Court of western Pennsylvania.

After the supermarkets filed an appeal last month, Judge Marsh held a hearing and issued a temporary order restraining the state from enforcing the law against 21 plaintiffs.

The restraining order will remain in effect until the three-man court hands down a permanent ruling.

Attorneys for the supermarkets argued that the law is unconstitutional, arbitrary, vague and ambiguous.

Under the law, food stores with less than 10 employes can operate as usual on Sundays.

Model Can Change Clothes In 90 Seconds — And Be Neat

By JEAN SPRAIN WILSON
The Associated Press

NEW YORK (AP) — Man weary of waiting for the woman in his life while she dresses idealizes the fashion model who can switch costumes in 90 seconds.

Yet any women can be a quick change artist if she is willing to employ the speed techniques models use, claims Betty Stewart, a lank blonde veteran from Texas.

Betty, now a professional photographers' and fashion model in New York, once operated a modeling school in Dallas. She makes these suggestions:

Shop with speedy dressing in mind. Limit your wardrobe each season to one basic color and several interchangeable ones. (Betty chose green, beige and black as her colors for fall and winter.)

LIMIT ACCESSORIES WELL

Limit hats, shoes and gloves to a few which look equally well with each costume.

Avoid dresses with side zippers, if possible. Purchase bras and foundations that fasten in front. (Betty usually always wears strapless bras and half slips to avoid fumbling with shoulder straps when switching to dresses with plenty of decolletage.)

Arrange your closets grouping suits and dresses according to color. Place hats harmonious with each group on the shelf above, line up suitable shoes beneath.

Arrange dresser drawer in units so that each stack contains a slip, bra, panties or girdle and a pair of hosiery. Thus by removing one stack you have all the lingerie you need at one time.

ACCORDING TO COLOR

Arrange jewelry, gloves and handbags together in separate drawers marked according to color.

Keep garments in good condition. Check hosiery for snags before putting them away. Test shoulder straps on slips and bras. Examine underarm seams, buttons and snaps for potential disasters. Never put anything away without looking it over carefully for soiled spots. Keep shoe heels capped.

Choose a medium length, simple hair style. It can be changed in appearance with a pin curl here and there, or dressed up quickly for evening by adding a matching coronet or chignon hairpiece.

MAKE UP SLOWLY

Put your make up on slowly. You save time here by taking your time so that it only has to be done once.

Tie a scarf over your head to preserve your hairdo and to avoid getting make up on your clothes. Certain clothes have to be put on over your head.

To avoid wasting time straightening your slip underneath, while slipping on your dress hold it down with your knees.

Betty admits that without a wardrobe mistress to hook her up in back and a hairdresser to brush up stray wisps, she can't change quite as quickly at home as at a show.

But by planning ahead as fashion show directors do, she can dress in five minutes instead of one or two. And so can you.

WOMEN ARE NOW STAFFING FIRE TOWERS

DUNSMUIR, Calif. (AP)—Now women are taking over mountain tops.

They live in lonely lookout posts, protecting the national forests around Mt. Shasta in northern California from the scourge of forest fires.

The 600 square miles of forest land bracketing Mt. Shasta, known as the Sacramento district of the Shasta-Trinity National Forest, is guarded by just four lookouts—all women.

Most of the other lookouts to the east and north of the mountain also are women.

BETTER QUALIFIED

Women have proved better qualified for the lonely duty than men, says John Watt, district ranger.

They are better able to maintain the alert and careful watch, and to withstand the monotony of 13 solitary hours daily searching for telltale traces of smoke.

They're accurate, to the point, and don't miss a thing, Watt says. He recalled the startled deer hunters on Mt. Eddy when smoke jumpers parachuted down on them shortly after a woman lookout spotted their large campfire.

A lookout, living alone on a mountain top, faces some danger from accidents, snakes, wild animals and the general public but mostly she needs a healthy respect for, but calm attitude toward lightning.

PHONE UNPLUGGED

Once lightning ripped the phone right out of the hand of Pearl Cown, a widow in her late 40's, spending her sixth summer on Mt. Bradley south of Mt. Shasta.

Lookouts are cautioned to keep their phones unplugged when thunderheads hover too closely. But lightning-set fires must be quickly charted and reported.

"During a lightning bust I may report seven to 10 fires in an hour," Mrs. Cown says.

The lookout has to say it quickly and get off the air to allow other lookouts to report.

The women used to be allowed half an hour after dark to gossip with each other by radio. But that has been curtailed to save batteries.

Even a man and wife on separate mountains southeast of the Sacramento District can exchange only brief messages. "We save a lot of talking for winter," says Mrs. Irene Sherman who spends her summers atop Little Round Mountain while her husband, Carl, lives on Hirz Mountain.

Among women lookouts in neighboring forest regions are a service wife whose husband's sea duty coincides with her mountaintop vigil in the McCloud district.

MASS MURDER BY BERSERK MAN EMERGES IN GIRL'S TALE

MIAMI, Fla. (AP) — A girl's narrative of bloodshed and death at sea sounds like mass murder by a man gone berserk, a Coast Guard officer said.

The officer who made that interpretation of Terry Duperrault's account of a tragic night aboard the yacht Bluebelle would not be quoted by name. Officially, the Coast Guard said, no findings will be made until its investigation is complete.

TOOK HIS LIFE

The bizarre story told by the 11-year-old Green Bay, Wis., girl was made public by the Coast Guard Monday.

Earlier Capt. Julian A. Harvey, skipper of the Bluebelle, said all seven persons aboard the ketch jumped into the Atlantic Ocean as the vessel burned and sank after a Bahamas squall dismasted the craft. All except Harvey were presumed lost.

After learning that a freighter had picked up Terry Jo from a small life raft, Harvey committed suicide.

SAW NO FIRE

Terry Jo said she saw her mother and brother lying on a bloody deck, that the masts did not fall, and that she did not see or smell any fire.

She told the Coast Guard and FBI that Harvey slapped her once, came to her cabin later with what she thought was a rifle, and then abandoned her on the sinking charter sailing craft.

The yacht went down near the Bahamas nine days ago.

"BLOOD ALL OVER"

The Bluebelle victims were Terry Jo's parents, Mr. and Mrs. Arthur Duperrault; her brother, Brian, 14; her sister, Renee, 7; and Harvey's wife, Mary, 34.

Renee's body was aboard a dinghy in which Harvey was picked up a day after the tragedy. He said he found the body in the ocean.

The FBI said, "We are checking to see if any violation occurred within our jurisdiction." Crimes on high seas come under federal justification.

The girl told investigators: "I heard screaming and stamping. I saw my mother and my brother lying on the floor and there was blood all over."

CHILDREN'S LOUNGEWEAR goes high fashion with the new, flared tent silhouette, played up in bold blazer stripings on embossed flannelette.

ADD OWN SPARKLE

Add your own sparkle to candles this ear. It's easy and fun too. Just soften the outside of the candles where you want to attach "glitter" . . . then stick on odd buttons, old tree ornaments, sequins, or tinsel objects you can buy where ornaments or wrapping paper are sold.

Santa's Tip Give Luggage

If you plan to give luggage this Christmas, remember that your choice should not only suit the recipient's needs but also his or her personality.

Luggage should be as personal as the clothes the carrier wears, reminds Leather Industries of America counselors.

There are countless styles and types of leather bags on the market today simplifying gift selections.

The man or woman who travels by air frequently, often on one and two-day trips—will appreciate a compact leather bag that can be carried on to the plane and then tucked underneath the seat.

These come in airline weight, scuff-resistant leathers, with a minimum of metal framework, in styles for men or women.

These bags feature soft-leather sides to reduce weight and to look more luxurious.

Perennially — popular suntan shades, silver grey and browns are being shown as well as a wide variety of pastel tones color-cued for the ladies.

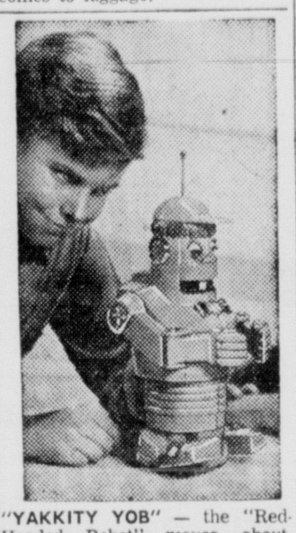

For veteran travelers who own luggage items in good condition look for special size pieces designed to do special jobs.

There are fitted overnight cases for both men and women—ideal for students away from home; fitted week-enders, some with outside toiletry sections, some with brief case compartments that hold reports and other papers separated from wearing apparel.

As the old adage goes: "don't give a gift to the person, give the person a gift"—especially when it comes to luggage.

A WINNING PAIR! A gift of paired luggage cases are a pair of aces for winning ways with your special girl. These are in antique white vinyl high-lighted with suntan leather binding and handles. Complete the set with matching accessory pieces on other gift occasions.

"YAKKITY YOB" — the "Red-Headed Robot" moves about, makes clacking sounds, winks, picks up objects and performs other exciting tricks without benefit of batteries or wind-up. He's 13½ inches of fun for the kids (and adults).

TWO ELDERLY WOMEN DIE IN FIERY CRASH

ROCHESTER, Pa. (AP)—A bizarre auto ride at speeds up to 85 miles an hour in this Beaver County area ended Monday in a fiery auto crash and death for two elderly women.

Mrs. Virginia Rush, 61, of Newell, W. Va., and Mrs. Frank Lucas, 70, of Midland, Pa., were killed Monday after a wild ride through the nearby communities of Vanport and Beaver.

Police theorize the car went haywire because of mechanical trouble, possibly a stuck gas pedal.

According to Beaver police, the car was first seen by a patrolman as it zipped through a school crossing in nearby Vanport. He radioed Beaver police who pursued the speeding car as it entered Beaver.

OVER EMBANKMENT

Police said the car roared through Beaver, sideswiping two parked cars and a moving car. It crossed over a bridge between Beaver and Rochester and then veered out of control on a curve, plunged over a 75-foot embankment and burst into flames.

Mrs. Rush, the driver, was killed instantly, the county coroner said. Mrs. Lucas was pulled from the wreckage but died at the scene.

Ever since then, little children have been hanging up their stockings so that Santa can fill them with all sorts of delightful goodies. However, in certain parts of Europe—wooden shoes instead of stockings are put out to be filled.

FOUR ALGERIAN CAPTIVES END HUNGER STRIKE

By HARVEY HUDSON

PARIS (AP)—Mohammed Ben Bella and three other captive ministers of the Algerian rebel government ended their hunger strike Monday night after the French government agreed to ease the conditions of their confinement.

Moroccan Ambassador Mohammed Cherkaoui, who played an important part in the negotiations that helped end the prisoners' fast, said France's concessions should facilitate the resumption of Algerian peace negotiations between President de Gaulle's government and the rebel regime in Tunis.

DEMANDED RELEASE

Although Ben Bella and his colleagues did not win the freedom they demanded, Cherkaoui said the agreement "is a step toward the liberation in the near future of the Algerian Ministers." The rebel government had said it would not reopen negotiations with the French until Ben Bella and his group were freed.

Ben Bella and the other three were weak after 20 days of fasting but their condition was not believed serious. A fifth rebel minister held by the French had been too ill to take part in the strike.

They were to be moved to a convalescent home near Paris with Moroccan as well as French physicians attending them, and the French agreed that a representative of Moroccan King Hassan II could live with them.

The French refused, however, to put the Moroccans in charge of Ben Bella and his group and said "French authorities retain responsibility for guarding the prisoners and the administration of the establishment."
